Skies and the Artist Eric Sloane, 2006-01-01 Eric Sloane always asserted that Drawing clouds and sky is an important part of art study pointing out that nearly every great picture features sky space With this intelligent and insightful primer he sets out to help art students master the art of painting the heavens One of the first books of its kind Sloane's guide to drawing clouds and sunsets does much more than teach you how to draw Before the sketching even begins he describes various kinds of clouds cumulus stratus cirrus and other formations and offers homespun techniques that add texture and realism to cloud illustrations Also discussed and illustrated are skies as accessories and basic subject matter within a sketch the shape and anatomy of clouds moods and shadows in cloud formations and incorporating clouds within a sunset

American-Built Packets and Freighters of the 1850s William L. Crothers, 2013-06-07 Up and down the Eastern seaboard during the 1850s American shipyards constructed numerous large wooden merchant sailing vessels that formed the backbone of the commercial shipping industry This comprehensive volume appraises in minute detail the construction of these ships outlining basic design criteria and enumerating and examining every plank and piece of timber involved in the process including the keel frames hull and deck planking stanchions knees deck houses bulworks railings interior structures and arrangements More than 150 illustrations illuminate the size shape location and pertinent specifics of each item Complete with a glossary of contemporary industry terms this work represents the definitive study of the mid nineteenth century's great American built square rigged ships Library Journal, 1977 **Dictionary Catalog of the Research**

Libraries of the New York Public Library, 1911-1971 New York Public Library. Research Libraries, 1979 The Life of Andrew Wood Cooley Myrtle Stevens Hyde, 1991 Andrew Wood Cooley was born 1837 and lived in the eastern part of Michigan In the summer of 1863 he left his home in Michigan and traveled westward to participate in the California gold rush On his way to California he stopped in Utah and lived among the members of the LDS Church Later Andrew became a member of the LDS Church and was baptized by John Pack 1 May 1864 Andrew married four times and died 1887 in Utah Descendants lived primarily in Utah and elsewhere *The Reconstruction of Mark Twain* Joe B. Fulton, 2011 Samuel Langhorne Clemens who later achieved fame as the writer Mark Twain served as second lieutenant in a Confederate militia but only for two weeks leading many to describe his loyalty to the Confederate cause as halfhearted at best In *The Reconstruction of Mark Twain* Joe B. Fulton challenges these long held assumptions about Twain's advocacy of the Union cause arguing that Clemens traveled a long and arduous path moving from pro slavery secession and the Confederacy to pro union and racially enlightened A deft blend of biography history and literary studies this book offers a bold new assessment

of the work of one of America's most celebrated writers **Who's who in America** ,1958 *The Realist Tradition and Contemporary International Relations* W. David Clinton,2007-07 The tradition in international relations theory known as realism has often been associated with the Cold War The contributors to this intriguing volume argue however that realism remains a profound and relevant perspective on contemporary international politics They point out that classical realism is based on concepts that were elucidated long before the Cold War began and are not confined by its boundaries Further they believe that insights of the realist tradition can provide valuable guidance in our contemporary world W David Clinton and ten scholars of foreign policy reexamine the work of thinkers spanning twenty five centuries who have contributed to the development of realism across the ages In their essays the authors consider two key questions What makes these thinkers realists And how is their work relevant to the modern post Cold War world These essays take a fresh look at such canonical thinkers as Thucydides Augustine Machiavelli Hobbes Hume Burke Carr Niebuhr and Morgenthau Countering the widespread belief that realism has nothing left to offer this collection demonstrates that continuities remain in the political world and that the ideas rooted in realism are too important and too useful to ignore While there are obvious differences among the political philosophers whose works are considered here they share a common concern about human limitations and the possible dangerous consequences of ignoring those limitations Each in his own way these classic thinkers discuss the need for prudence to counter the ever present threat of tragedy resulting from our innocent hopeful or self righteous efforts for perfection These provocative essays demonstrate that though a realist understanding of the nature of international relations is at least as old as Thucydides it is also as contemporaneous as the most recent headline Almanac...National
