*Implementing Positive Behavior Support Systems in Early Childhood and Elementary Settings* Melissa Stormont, 2008

The book's strengths are its practical information and the specific ways of looking at expectations and developing a common language. The forms included will be of great benefit to school teams. Susan Safarik, Supervisor, Department of Special Education, Lincoln Public Schools, NE. Provides a lot of research and breaks down the processes for implementing positive behavior supports effectively in schools. Step by step directions, sample forms, and examples make the processes easy to incorporate and understand. Julia DeGarmo, Special Education Specialist, Columbus City Schools, OH. Learn how to teach and support appropriate behavior and build confidence in young children. This easy to read resource presents the Programwide Schoolwide Positive Behavioral Support (PW-SW-PBS) system, a preventive research-based approach that helps educators teach classroom behavior skills the same way they teach academic skills. The authors outline the PW-SW-PBS model, describe the core practices, and provide case examples to aid implementation. Key features of this instruction-based system include: Differing levels of intervention to meet individual student needs; Clearly stated behavioral expectations; Consistent acknowledgment of students' mastery of expectations; Systematic use of consequences for problem behavior. This user-friendly text makes the principles of PW-SW-PBS easy to apply for educators who are committed to helping young students establish positive behavioral habits that will make learning a joy for all.

### **Achieving Success with the Engineering Dissertation**

Petra Gratton, Guy Gratton, 2020-01-22. This book guides the student reader in preparing their dissertation or major project, including both report and presentation, and explains how to use them as a bridge to the next big thing: the graduate's first job or their next degree. The dissertation is the single most important component of an engineering degree, not only carrying the most marks but bridging from academic study to professional practice. *Achieving Success with the Engineering Dissertation* describes the different types of dissertation, how to pick the best project, and how a student can prepare themselves to succeed with their own dissertation. The authors explain how best to plan and execute the project, including the roles of the student supervisor and project sponsor, and what they should expect from each other. Further material includes details of competitions that can be entered with dissertation projects, presentation of data using the dissertation in job interviews, and creating research publications. *Achieving Success with the Engineering Dissertation* will be of use to both undergraduate and postgraduate students in all fields of Engineering and to their supervisors.
