Epigrams Martial, 2011-10-26 Martial the father of the epigram was one of the brilliant provincial poets who made their literary mark on first century Rome His Epigrams can be affectionate or cruel elegiac or playful they target every element of Roman society from slaves to schoolmasters to above all the aristocratic elite With wit and wisdom Martial evokes not the grandeur that was Rome but rather the timeless themes of urban life and society *Martial's Epigrams Book Two*, 2004-01-08 This edition provides an English translation of and detailed commentary on the second book of epigrams published by the Latin poet Marcus Valerius Martialis The past ten years have seen a resurgence of interest in Martial's writings But contemporary readers are in particular need of assistance when approaching these epigrams and until now there has been no modern commentary dedicated to Book II This new commentary carefully illuminates the allusions to people places things and cultural practices of late first century Rome that pervade Martial's poetry It analyzes the epigrammatist's poems as literary creations treating

such topics as the structure of the individual poems and of the book as a whole and the influence of earlier texts on Martial's language and themes

The Epigrams Martial, James Michie, 1978-01 Martial like many of the Latin poets was born in Biblis Spain probably around 38-41 AD. He appears to have lived in Rome for nearly thirty-four years under the patronage of the great Spaniard Seneca the Younger. He belonged to a class of intellectuals who were in resolute opposition to the emperor Domitian so many times figures like Cicero, Brutus, and Pompey are used as literary devices against the crazed tyrant. Martial's poems are definitely modeled off of Catullus epigrams and elegiac verses although they are different in meaning and theme. These poems are hilarious and audacious, cruel, lewd, charming, spiteful, and creative and they bring to life the social and political milieu of Rome

Martial's Epigrams: Book Two, 2004-01-08 This edition provides an English translation of and detailed commentary on the second book of epigrams published by the Latin poet Marcus Valerius Martialis. The past ten years have seen a resurgence of interest in Martial's writings. But contemporary readers are in particular need of assistance when approaching these epigrams and until now there has been no modern commentary dedicated to Book II. This new commentary carefully illuminates the allusions to people, places, things, and cultural practices of late first-century Rome that pervade Martial's poetry. It analyzes the epigrammatist's poems as literary creations treating such topics as the structure of the individual poems and of the book as a whole and the influence of earlier texts on Martial's language and themes

Josephus, Paul, and the Fate of Early Christianity F. B. A. Asiedu, 2019-03-01 Flavius Josephus, the priest from Jerusalem who was affiliated with the Pharisees, is our most important source for Jewish life in the first century. His notice about the death of James the brother of Jesus suggests that Josephus knew about the followers of Jesus in Jerusalem and in Judaea. In Rome, where he lived for the remainder of his life after the Jewish War, a group of Christians appear to have flourished (if 1 Clement is any indication). Josephus, however, says extremely little about the Christians in Judaea and nothing about those in Rome. He also does not reference Paul, the apostle, a former Pharisee who was a contemporary of Josephus's father in Jerusalem, even though according to Acts, Paul and his activities were known to two successive Roman governors/procurators of Judaea, Marcus Antonius Felix and Porcius Festus, and to King Herod Agrippa II and his sisters, Berenice and Drusilla. The knowledge of the Herodians in particular puts Josephus's silence about Paul in an interesting light, suggesting that it may have been deliberate. In addition, Josephus's writings bear very little witness to other contemporaries in Rome so much so that if we were dependent on Josephus alone, we might conclude that many of those historical characters either did not exist or had little or no impact in the first century. Asiedu comments on the state of life in Rome during the reign of the Emperor Domitian and how both Josephus and the Christians who produced 1 Clement coped with the regime as other contemporaries among whom he considers Martial, Tacitus, Pliny the Younger, and others did. He argues that most of

Josephus's contemporaries practiced different kinds of silences in bearing witness to the world around them. Consequently the absence of references to Jews or Christians in Roman writers of the last three decades of the first century including Josephus should not be taken as proof of their non existence in Flavian Rome. *Choice Cuts* Mark Kurlansky, 2012-07-18

Every once in awhile a writer of particular skills takes a fresh seemingly improbable idea and turns out a book of pure delight. That's how David McCullough described Mark Kurlansky's *Cod: A Biography of the Fish That Changed the World*, a work that revealed how a meal can be as important as it is edible. *Salt: A World History*, its successor, did the same for a seasoning and confirmed Kurlansky as one of our most erudite and entertaining food authors. Now the winner of the James Beard Award for Excellence in Food Writing shares a varied selection of choice cuts by others as he leads us on a mouthwatering culinary tour around the world and through history and culture from the fifth century B.C. to the present day. *Choice Cuts* features more than two hundred pieces from Cato to Cab Calloway. Here are essays by Plato on the art of cooking, Pablo Neruda on french fries, Alice B. Toklas on killing a carp, M. F. K. Fisher on the virility of Turkish desserts, Alexandre Dumas on coffee, W. H. Auden on Icelandic food, Elizabeth David on the downward march of English pizza, Claude Lévi-Strauss on the idea of rotten James Beard on scrambled eggs, Balzac, Virginia Woolf, E. M. Forster, Chekhov, and many other famous gourmands and gourmets, accomplished cooks or just plain ravenous writers on the passions of cuisine. *Luther's Aesop* Carl P. E. Springer, 2011-10-15

Reformer of the church, biblical theologian, and German translator of the Bible, Martin Luther had the highest respect for stories attributed to the ancient Greek author Aesop. He assigned them a status second only to the Bible and regarded them as wiser than the harmful opinions of all the philosophers. Throughout his life, Luther told and retold Aesop's fables and strongly supported their continued use in Lutheran schools. In this volume, Carl Springer builds on the textual foundation other scholars have laid and provides the first book in English to seriously consider Luther's fascination with Aesop's fables. He looks at which fables Luther knew, how he understood and used them, and why he valued them. Springer provides a variety of cultural contexts to help scholars and general readers gain a deeper understanding of Luther's appreciation of Aesop. *Library of Congress Catalogs* Library of Congress, 1976

The Gay Science Friedrich Nietzsche, 1974-01-12

The book Nietzsche called the most personal of all my books. It was here that he first proclaimed the death of God, to which a large part of the book is devoted, and his doctrine of the eternal recurrence. Walter Kaufmann's commentary, with its many quotations from previously untranslated letters, brings to life Nietzsche as a human being and illuminates his philosophy. The book contains some of Nietzsche's most sustained discussions of art and morality, knowledge and truth, the intellectual conscience, and the origin of logic. Most of the book was written just before *Thus Spoke Zarathustra*, the last part five years later, after *Beyond Good and Evil*. We encounter Zarathustra in these pages as well as many of Nietzsche's most interesting philosophical ideas and the largest collection of his own poetry that he himself ever published. Walter Kaufmann's English versions of Nietzsche represent one of the major translation enterprises of our time. He is the first

philosopher to have translated Nietzsche's major works and never before has a single translator given us so much of Nietzsche

Country House Discourse in Early Modern England Kari Boyd McBride, 2017-07-05 In this study Kari Boyd McBride defines country house discourse as a network of fictions that articulated and mediated early modern concerns about the right use of land and the social relationships that land engendered McBride provides new perspectives on the roles of the discourse she identifies linking it with a number of larger historical shifts during the time period Her interdisciplinary focus allows her to bring together a wide range of material including architecture poetry oil painting economic and social history and proscriptive literature in order to examine their complex interrelationship revealing connections unexplored in more narrowly focused studies McBride delineates the ways in which the country house on the landscape and in literature provided a locus for the construction of gender race class and nation Of particular interest is her focus on women's relationships to the country house their writing of country house poetry and their representation in that literature their designing of country houses and their lives within those architectural spaces whether as lady of the house or domestic servant One of the most important and promising insights in this study is that country house discourse was not simply static and nostalgic but actually worked to mediate change All in all she presents a fresh and detailed study of the great disparities between country house reality and the ideals that informed country house discourse
