Imitation and Contamination of the Classics in the Comedies of Ben Jonson Tom Harrison, 2022-10-12 This book focuses on the influence of classical authors on Ben Jonson's dramaturgy with particular emphasis on the Greek and Roman playwrights and satirists It illuminates the interdependence of the aspects of Jonson's creative personality by considering how classical performance elements including the Aristophanic Great Idea chorus Terentian Plautine performative strategies and performative elements from literary satire manifest themselves in the structuring and staging of his plays This fascinating exploration contributes to the performative turn in early modern studies by reframing Jonson's classicism as essential to his dramaturgy as well as his erudition The book is also a case study for how the early modern education system's emphasis on imitative contaminative practices prepared its students many of whom became professional playwrights for writing for a theatre that had a similar emphasis on recycling and recombining performative tropes and structures *The*

The Woman Question in Plato's Republic Mary Townsend, 2017-08-07 In this book Mary Townsend proposes that contrary to the current scholarship on Plato's Republic Socrates does not in fact set out to prove the weakness of women Rather she argues that close attention to the drama of the Republic reveals that Plato dramatizes the reluctance of men to allow women into the public sphere and offers a deeply aporetic vision of women's nature and political position a vision full of concern not only for the human community but for the desires of women themselves

Literary Communication as Dialogue Roger D. Sell, 2020-11-15 As traced by Roger D Sell literary communication is a process of community making As long as literary authors and those responding to them respect each other s human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity s well intentioned but restrictive politics of identity In post postmodern times their ethos is increasingly one of pleasurable egalitarianism The

despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated Some of the papers selected for this volume develop Sell s ideas in mainly theoretical terms But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare Ben Jonson and other poets and dramatists of the early modern period through
