Cumulated Index Medicus, 1995

Noncommunicable Diseases in the Developing World Louis Galambos, Jeffrey L. Sturchio, Rachel Calvin Whitehead, 2014 Presents a pragmatic agenda for achieving effective and sustainable global action on noncommunicable diseases in lower and middle income countries Noncommunicable diseases NCDs including cardiovascular disease diabetes asthma and other chronic respiratory conditions and cancers are the leading causes of death worldwide An estimated 36 million people die from such diseases each year this represents roughly two out of three deaths globally Eighty percent of these fatalities occur in developing countries The statistics are staggering yet millions of these deaths are preventable This is an urgent global health issue that demands analysis of gaps in NCD research new policies and practices and actionable recommendations to close the gaps The Johns Hopkins Institute for Applied Economics Global Health and the Study of Business Enterprise convened an NCD Working Group of leading scholars to examine a wide range of issues that both the private and public sectors must address to make sustainable progress in NCD prevention and treatment in lower and middle income countries Collected in this volume are essays on five key areas where strengthened policies and health systems can have the most impact in the near future Accelerating regulatory harmonization Structuring supply chains Improving access to interventions Restructuring primary care Promoting multisectoral and intersectoral action While there is a growing literature on the problem of NCDs none of the available studies provides background on the range of challenges matched with specific steps that can be taken by the public

sector private sector and civil society working together Noncommunicable Diseases in the Developing World presents a framework for understanding the salience of specific policy recommendations and detailed steps that can be taken now to move forward in the global campaign against NCDs This book will be of interest to practitioners scholars and students in public health as well as those framing and implementing health policies in the private and public sectors *Nelson Textbook of Pediatrics E-Book* Robert Kliegman, Joseph W. St. Geme III, 2019-04-01 Welcome to the 21st Edition of Nelson Textbook of Pediatrics the reference of choice among pediatricians pediatric residents and others involved in the care of young patients This fully revised edition continues to provide the breadth and depth of knowledge you expect from Nelson while also keeping you up to date with new advances in the science and art of pediatric practice Authoritative and reader friendly it delivers the information you need in a concise easy to use format for everyday reference and study From rapidly changing diagnostic and treatment protocols to new technologies to the wide range of biologic psychologic and social problems faced by children today this comprehensive reference keeps you on the cutting edge of the very best in pediatric care Includes more than 70 new chapters including Postural Orthostatic Tachycardia Syndrome POTS Rare and Undiagnosed Diseases Approach to Mitochondrial Disorders Electronic Nicotine Delivery Systems Zika update on Ebola Epigenetics Autoimmune Encephalitis Global Health Racism Media Violence Strategies for Health Behavior Change Positive Parenting and many more Features hundreds of new figures and tables throughout for visual clarity and quick reference Offers new and expanded information on CRISPR gene editing LGBT health care gun violence vaccinations immune treatment with CAR T cells new technology in imaging and genomics new protocols in cancer genetics immunology and pulmonary medicine and much more Provides fresh perspectives from four new associate editors Nathan J Blum of The Children s Hospital of Philadelphia Karen Wilson of Mt Sinai School of Medicine in New York Samir S Shah of Cincinnati Children s Hospital Medical Center and Robert C Tasker of Boston Children s Hospital Remains your indispensable source for definitive evidence based answers on every aspect of pediatric care **Primary Care** Barbara Starfield, 1998 Primary Care now highlights two additional areas compared to the previous edition equity in health services and health and the overlap between clinical medicine and public health It provides a basis for future directions in health policy Disease Control Priorities, Third Edition (Volume 4) Vikram Patel, Dan Chisholm, Tarun Dua, Ramanan Laxminarayan, Mari'a Lena Medina-Mora, Theo Vos, 2016-03-10 Mental neurological and substance use disorders are common highly disabling and associated with significant premature mortality The impact of these disorders on the social and economic well being of individuals families and societies is large growing and underestimated Despite this burden these disorders have been systematically neglected particularly in low and middle income countries with pitifully small contributions to scaling up cost effective prevention and treatment strategies Systematically compiling the substantial existing knowledge to address this inequity is the central goal of this volume This evidence base can help policy makers in resource constrained settings as they prioritize programs and interventions to

address these disorders
