Errant Bronzes Frederick C. Moffatt, 1998-01-01 In this book containing one hundred and seven illustrations the author presents a closely studied history of three bronze statues of Abraham Lincoln that with astonishing results broke with the established iconic portrayal of the American hero Consisting of a prototype and two replicas that were sculpted by George Grey Barnard the images portray their subject not as a sagacious demigod but as a country lout The book is also a partial history of Abraham Lincoln himself an account of how his memory was appropriated by social and political contenders in their campaigns for dominance or survival

The Global Lincoln Richard Carwardine, Jay Sexton, 2011-02-01 Perhaps more than any other American Abraham Lincoln has become a global figure one who spoke and continues to speak to people across the world Karl Marx judged Lincoln the single minded son of the working class Tolstoy reported his fame in the Caucasus Tomas Masaryk the first president of Czechoslovakia drew strength as the Lincoln of Central Europe racially mixed republican Lincoln brigades fought in the Spanish Civil War and more recently statesmen ranging from Gordon Brown to Pervez Musharraf to Barack Obama have invoked Lincoln in support of their respective agendas This fascinating volume brings together leading historians from around the world to explore Lincoln s international legacy The authors examine the meaning and image of Lincoln in many places and across continents ranging from Germany to Japan India to Ireland Africa and Asia to Argentina and the American South The book reveals that at the heart of Lincoln s global celebrity were his political principles his record of successful executive leadership in wartime his role as the Great Emancipator and his resolute defense of popular government Yet the Global Lincoln has been a malleable and protean figure one who is forever being redefined to meet the needs of those who invoke him The first study of Lincoln s global legacy this book tells the unknown and remarkable story of the world wide impact of one of America s great presidents

Summers with Lincoln James A. Percoco, 2009-08-25 A journey across America revealing the history of how seven of these monuments came to be and what they mean to us today The Washington Times Across the country in the middle of busy city squares and hidden on quiet streets there are nearly two hundred statues erected in memory of Abraham Lincoln No other American has ever been so widely commemorated A few years ago Jim Percoco a history teacher with a passion for both Lincoln and public sculpture set off to see what he might learn about some of these monuments what they meant to their creators and to the public when they were unveiled and what they mean to us today The result is a fascinating chronicle of four summers on the

road looking for Lincoln stories in statues of marble and bronze Percoco selects seven emblematic works among them Thomas Ball's Emancipation Group erected east of the Capitol in 1876 with private funds from African Americans and dedicated by Frederick Douglass Augustus Saint Gaudens's majestic Standing Lincoln of 1887 in Chicago Paul Manship's 1932 Lincoln the Hoosier Youth in Fort Wayne Indiana and Gutzon Borglum's 1911 Seated Lincoln struggling with the pain of leadership beckoning visitors to sit next to him on his metal bench in Newark New Jersey At each stop Percoco chronicles the history of the monument spotlighting its artistic social political and cultural origins His descriptions draw fresh meaning from mute stone and cold metal raising provocative questions not just about who Lincoln might have been but about what we've wanted him to be in the monuments we've built

Abraham Lincoln and Robert Burns Ferenc Morton Szasz, 2008-09-25

Today the images of Robert Burns and Abraham Lincoln are recognized worldwide yet few are aware of the connection between the two In Abraham Lincoln and Robert Burns Connected Lives and Legends author Ferenc Morton Szasz reveals how famed Scots poet Robert Burns and Scotland in general influenced the life and thought of one of the most beloved and important U.S. presidents and how the legends of the two men became intertwined after their deaths This is the first extensive work to link the influence philosophy and artistry of these two larger than life figures Lacking a major national poet of their own in the early nineteenth century Americans in the fledgling frontier country ardently adopted the poignant verses and songs of Scotland's Robert Burns Lincoln too was fascinated by Scotland's favorite son and enthusiastically quoted the Scottish bard from his teenage years to the end of his life Szasz explores the ways in which Burns's portrayal of the foibles of human nature his scorn for religious hypocrisy his plea for nonjudgmental tolerance and his commitment to social equality helped shape Lincoln's own philosophy of life The volume also traces how Burns's lyrics helped Lincoln develop his own powerful sense of oratorical rhythm from his casual anecdotal stories to his major state addresses Abraham Lincoln and Robert Burns connects the poor farm boy upbringings the quasi-deistic religious views the shared senses of destiny the extraordinary gifts for words and the quests for social equality of two respected and beloved world figures This book is enhanced by twelve illustrations and two appendixes which include Burns poems Lincoln particularly admired and Lincoln writings especially admired in Scotland

Sculpture and the Museum Christopher R. Marshall, 2017-07-05

Sculpture and the Museum is the first in-depth examination of the varying roles and meanings assigned to sculpture in museums and galleries during the modern period from neo-classical to contemporary art practice It considers a rich array of curatorial strategies and settings in order to examine the many reasons why sculpture has enjoyed a position of such considerable importance and complexity within the institutional framework of the museum and how changes to the museum have altered in turn the ways that we perceive the sculpture within it In particular the contributors consider the complex issue of how best to display sculpture across different periods and according to varying curatorial philosophies Sculptors discussed include Canova Rodin Henry Moore Flaxman and contemporary artists such as Rebecca Horn Rachel Whiteread Mark Dion and

Olafur Eliasson with a variety of museums in America Canada and Europe presented as case studies Underlying all of these discussions is a concern to chart the critical importance of the acquisition placement and display of sculpture in museums and to explore the importance of sculptures as a forum for the expression of programmatic statements of power prestige and the museum's own sense of itself in relation to its audiences and its broader institutional aspirations Civil War Monuments and the Militarization of America Thomas J. Brown, 2019-10-10 This sweeping new assessment of Civil War monuments unveiled in the United States between the 1860s and 1930s argues that they were pivotal to a national embrace of military values Americans wariness of standing armies limited construction of war memorials in the early republic Thomas J Brown explains and continued to influence commemoration after the Civil War As large cities and small towns across the North and South installed an astonishing range of statues memorial halls and other sculptural and architectural tributes to Civil War heroes communities debated the relationship of military service to civilian life through fund raising campaigns artistic designs oratory and ceremonial practices Brown shows that distrust of standing armies gave way to broader enthusiasm for soldiers in the Gilded Age Some important projects challenged the trend but many Civil War monuments proposed new norms of discipline and vigor that lifted veterans to a favored political status and modeled racial and class hierarchies A half century of Civil War commemoration reshaped remembrance of the American Revolution and guided American responses to World War I Brown provides the most comprehensive overview of the American war memorial as a cultural form and reframes the national debate over Civil War monuments that remain potent presences on the civic landscape **The American Civil War in British Culture** Nimrod Tal, 2015-07-28 This book explores the continuous British fascination with the American Civil War from the 1870s to the present Analysing the War's place in British political discourse military writing intellectual life and popular culture it traces the sources of Britons' appeal to the American conflict and their use of its representations at home and abroad **Giant in the Shadows** Jason Emerson, 2012-03-27 Giant in the Shadows is the definitive biography of Robert T Lincoln 1843 1926 the oldest son of Abraham and Mary Lincoln and their only child to live past age eighteen Emerson after nearly ten years of research draws upon previously unavailable materials to cover Robert Lincoln's entire life in detail **Public Sculpture of Greater Manchester** Terry Wyke, Harry Cocks, 2004-01-01 Public Sculpture of Greater Manchester is a complete catalog and illustrated guide to all of Greater Manchester's public sculptures and monuments Manchester historian Terry Wyke provides detailed individual entries for each sculpture featured including information about the artist and the commissioning agent date of installation and the sculpture's historical and artistic significance More than 350 black and white photographs reveal the diversity and beauty of Manchester's many public monuments The eighth volume in Liverpool University Press's highly acclaimed and prize winning Public Sculpture of Britain series Public Sculpture of Greater Manchester will be an incomparable resource for both armchair and actual travelers as well as for English historians and art scholars alike These are excellent volumes in an outstanding and

Divided Hearts Richard J. M. Blackett,2000-12-01 Divided Hearts explores the passionate political strife that raged in Britain as a result of the American Civil War Moving beyond Mary Ellison s 1972 landmark regional study of Lancashire cotton workers reactions R J M Blackett opens the subject to a new wider transatlantic context of influence and undertakes a deftly researched and written sociological intellectual and political examination of who in Britain supported the Union who the Confederacy and why The American Civil War had a profound effect on Britain s political culture no other event during that period not in Poland Hungary Italy or British colonies compared Blackett argues that the traditional historiographical assessments of British partisanship along class and economic lines must be reevaluated in light of the nature and changing contours of transatlantic abolitionist connections the ways in which nationalism framed the debate and the effect that race among other issues exerted over the British public s perception of conditions in America Divided Hearts presents a compelling and innovative thesis one sure to engage scholars in many fields of history Henry James Framed Michael Anesko,2022-10 Henry James Framed is a cultural history of Henry James as a work of art Throughout his life James demonstrated an abiding interest in some would say an obsession with the visual arts In his most influential testaments about the art of fiction James frequently invoked a deeply felt analogy between imaginative writing and painting At a time when having a photographic carte de visite was an expected social commonplace James detested the necessity of replenishing his supply or of distributing his autographed image to well wishing friends and imploring readers Yet for a man who set the highest premium on personal privacy James seems to have had few reservations about serving as a model for artists in other media and sat for his portrait a remarkable number of twenty four times Surprisingly few James scholars have brought into primary focus those occasions when the author was not writing about art but instead became art himself through the creative expression of another s talent To better understand the twenty four occasions he sat for others to represent him Michael Anesko reconstructs the specific contexts for these works coming into being assesses James s relationships with his artists and patrons documents his judgments concerning the objects produced and insofar as possible traces the later provenance of each of them James s long established intimacy with the studio world deepened his understanding of the complex relationship between the artist and his sitter James insisted above all that a portrait was a revelation of two realities the man whom it was the artist s conscious effort to reveal and the artist or interpreter expressed in the very quality and temper of that effort The product offered a double vision the strongest dose of life that art could give and the strongest dose of art that life could give
