Southern Baptist Theological Seminary, 1859-2009 Gregory Wills, 2009-07-27 With 163 million members and 44 000 churches the Southern Baptist Convention is the largest Baptist group in the world and the largest Protestant denomination in the United States Unlike the so called mainstream Protestant denominations Southern Baptists have remained stubbornly conservative refusing to adapt their beliefs and practices to modernity's individualist and populist values Instead they have held fast to traditional orthodoxy in such fundamental areas as biblical inspiration creation conversion and miracles Gregory Wills argues that Southern Baptist Theological Seminary has played a fundamental role in the persistence of conservatism not entirely intentionally Tracing the history of the seminary from the beginning to the present Wills shows how its foundational commitment to preserving orthodoxy was implanted in denominational memory in ways that strengthened the denomination's conservatism and limited the seminary's ability to stray from it In a set of circumstances in which the seminary played a central part Southern Baptists' populist values bolstered traditional orthodoxy rather than diminishing it In the end says Wills their populism privileged orthodoxy over individualism The story of Southern Seminary is fundamental to understanding Southern Baptist controversy and identity Wills's study sheds important new light on the denomination that has played and continues to play such a central role in our national history **The Theological Review**, 1864 **A Digest of Theology** Henry Robert Percival, 1893 Christian Examiner and Theological Review, 1849

Dialectic and Theology in the Eleventh Century Holopainen, 2021-11-01 The study provides a reappraisal of the controversy over the value of logic in theology in the eleventh century which has for a long time been a theme central to the historiography of early medieval thought In the four chapters of the work the author gives close exegesis of the central texts by Peter Damian Lanfranc of Bec Berengar of Tours and Anselm of Canterbury respectively and argues that the familiar ways of describing the theme are thoroughly misleading Damian s anti dialectical attitude is less extreme than often claimed Lanfranc s reputation as a dialectician is largely based on misunderstanding whereas Berengar is a sophisticated thinker and a forerunner of scholasticism Of particular interest is the author s discussion of Anselm s ontological argument against the background of the Boethian theory of argument

The Metaphysics and Theology of the Eucharist Gyula Klima, 2024-01-01 This volume is about the most mind boggling sacrament of the Christian faith also referred to as the Sacrament of the Altar the Eucharist in its Roman Catholic interpretation the conversion of the substance of the bread and wine into the body and blood of Christ for Holy Communion The challenge of providing a rational interpretation of this doctrine of faith proved to be one of the most contentious issues in the Western history of ideas apparently going against self evident metaphysical principles requiring accidents existing without a substance and a body in several places at the same time etc and dividing schools of thought indeed eventually warring religious factions The volume addresses both the metaphysical theoretical issues involved in this challenge and the historical theological developments of how meeting this challenge played out first in the schools and even later in religious schisms leading to the paradigmatic shift from medieval to modern forms of thought The essays of the volume derive from the lectures of an eponymous international conference held in Budapest Hungary which was also the occasion of founding the Society for the History of European Ideas SEHI accordingly the book is the first volume of the annual Proceedings of the SEHI This book is aimed just as much at laymen and religious scholars seeking a better understanding of their faith as at anyone seeking this understanding with a non religious attitude
