

# QUICK HARVARD REFERENCING GUIDE

This quick guide provides examples to help you create references for information sources most frequently used. This follows the Staffordshire Harvard Referencing Style, except for the capitalization of authors' / editors' names.

**Please Note:** Harvard does not dictate any particular style of punctuation. The generally accepted rule when using Harvard is to be consistent in your style and use of punctuation throughout your assignment.

- **In-text Referencing:** involves citing references within the text of your work where you have used ideas or material from other sources.
- **End-text referencing** (also known as your Reference List): includes all materials used in your document. It provides the full information of reference sources necessary for a reader to locate and retrieve them.
