**Septuagint's Solomon and the Testament of Solomon** Scriptural Research Institute, 2020-07-07 King Solomon is arguably the most famous of all ancient Israelite kings with several books in the Septuagint dedicated to him or about him or even by him yet to date no archeological evidence for his life has been found Additionally the Testament of Solomon has survived from the Second Temple era which displays another side of King Solomon The lifetime of King Solomon falls during the Third Intermediate Period dark age in Egyptian history and therefore are no records of Solomon within the very limited Egyptian records from the time Egyptologists believe the Kingdom of Egypt collapsed at the beginning of the time period and by the time that Solomon would have lived in the early 9th century BC the king of Egypt only controlled the northern region while the rest of Egypt was under the rule of the High Priest of Amen Amun The various books associated with Solomon that made it into the Septuagint include 3rd Kingdoms Proverbs Ecclesiastes Song of Songs Wisdom of Solomon and Psalms of Solomon all of which have been retranslated into modern English The first book in this collection is 3rd Kingdoms which tells the life of Solomon likely from Ezra the Scribe's perspective 500 years later The book likely dates to before the reign of King Josiah circa 700 BC but is believed to have been redacted by Ezra the Scribe or someone else in his era The second book Proverbs also called Proverbs of Solomon is generally attributed to King Solomon who is explicitly referred to as the author of some of the proverbs A number of proverbs are known to have been copied from older collections of proverbs most notably the Wisdom of Amenemope which was apparently written by Amenemope son of Kanakht sometime before Pharaoh Akhenaten circa 1350 BC The third book Ecclesiastes is generally also attributed to King Solomon however he is not mentioned anywhere by name The idea that King Solomon was the author is found in the introduction to the text At some point before the Greek translation was made someone added an introduction and conclusion to the text in which the author is described as being the son of David and a King in Jerusalem The fourth book Song of Songs also called the Song of Solomon

is a song about King Solomon theoretically written in his time circa 950 BC The book does not list its author but it was clearly written by a woman in love with Solomon She is believed to have been referring to herself as a Shulamite in chapter 7 which suggests she was Abishag the Shulamite King David s youngest concubine The fifth book Wisdom of Solomon was added to the Septuagint sometime between 250 and 132 BC and while it was traditionally attributed to King Solomon today scholars generally believed to have been composed in Greek shortly before it was added to the Septuagint The Wisdom of Solomon itself appears to have been redacted before the Greek translation as the first half is about the spirit of wisdom Sophia in Greek who is credited with actually doing most of what the Lord Iaw Yahweh was credited with doing in the Septuagint and Masoretic Texts however this changes abruptly to crediting the Lord in chapter 11 and Sophia disappeared entirely from the rest of the book The sixth book Psalms of Solomon is also called Psalms of Salomon in many of the surviving manuscripts although it is not clear why At this time it is universally agreed that the Psalms of Solomon is a pre Christian work as early Christian writers referred to it even though it is clearly not about the life of Jesus as described in the gospels The seventh book Testament of Solomon was widely used by Christian and Gnostic astrologers in the first few centuries of the Christian era
