**Elements of Buddhist Iconography** Coomaraswamy Ananda K., 1935 *The Buddha Image* Yuvraj Krishan, 1996 Illustrations 247 b w illustrations Description This book deals with crucial though controversial questions in Buddhist art the origin of the Buddha image and the iconography of the Buddha images The earliest Buddhist art of Sanchi and Bharhut is aniconic The Buddha is represented in symbols only In the later Buddhist art of Gandhara and Mathura the Buddha is represented in human form he is the principal subject of sculptural art The book seeks to explore the geographical area in which the image of the Buddha first emerged and whether the Buddhist doctrines Hinayana or Mahayana had anything to do with this transformation The Buddha image as developed eventually at Sarnath became the model for the Buddha images in whole of Asia south east central and eastern Asia The iconographic features of the Buddha image are superficially an aberration being in apparent conflict with the doctrine The Buddha had cut off his hair at the time of his renunciation the rules of the order enjoin that a monk must be tonsured and must discard and eschew all riches However in his images the Buddha has hair on his head later he is also endowed with a crown and jewels After an exhaustive examination of the views of various scholars the book answers these questions and resolves the controversies on the basis of literary numismatic and epigraphic sources More importantly it makes use of the valuable evidence from the contemporaneous Jaina art Aniconism of early Jaina art and the iconographic features of Jaina images The implications of this study are also important Does India owe idolatry to Buddhism Was this of foreign inspiration Was the Buddha image fashioned after the Vedic Brahma and whether the Buddha s usnisa and Buddhist art motifs are rooted in the Vedic tradition The book is profusely illustrated and provides

rich and stimulating fare to students of Indian art in general and of Buddhist art in particular      **Catalog of Copyright Entries. Third Series** Library of Congress. Dodson,2021-01-31 The book presents a rich and surprising account of the recent history of the north Indian city of Banaras Supplementing traditional accounts which have focused upon the city s religious imaginary this volume brings together essays written by acknowledged experts in north Indian culture and history to examine the construction of diverse urban identities in and after the British colonial period Drawing on fields such as archaeology literature history and architecture these accounts of Banaras understand the narratives which inscribe the city as having been forged substantially in the experiences of British rule But while British rule transformed the city in many respects the essays also emphasize the importance of Indian agency in these processes The book also examines the essential ambiguity of modernization schemes in the city as well as the contingency of elements of religious narrative The introduction moreover attempts to resituate Banaras into a wider tradition of urban studies in South Asia The book will be of interest to not only scholars and students of north Indian culture and urban history but also anyone looking to gain a deeper appreciation of this remarkable and complex city *Encyclopedia of Post-Colonial Literatures in English* Eugene Benson,2004-11-30 Documents the history and development of Post colonial literatures in English together with English and American literature and includes original
