Readers' Guide to Periodical Literature , 1917 **Reading, Publishing and the Formation of Literary Taste in England, 1880-1914** Mary Hammond, 2017-05-15 Between 1880 and 1914 England saw the emergence of an unprecedented range of new literary forms from Modernism to the popular thriller Not coincidentally this period also marked the first overt references to an art market divide through which books took on new significance as markers of taste and class Though this division has received considerable attention relative to the narrative structures of the period s texts little attention has been paid to the institutions and ideologies that largely determined a text s accessibility and circulated format and thus its mode of address to specific readerships Hammond addresses this gap in scholarship asking the following key questions How did publishing and distribution practices influence reader choice Who decided whether or not a book was a classic In a patriarchal class bound literary field how were the symbolic positions of author and reader affected by the increasing numbers of women who not only bought and borrowed but also wrote novels Using hitherto unexamined archive material and focussing in detail on the working practices of publishers and distributors such as Oxford University Press and W H Smith and Sons Hammond combines the methodologies of sociology literary studies and book history to make an original and important contribution to our understanding of the cultural dynamics and rhetorics of the fin de si cle literary field in England *Win, Lose Or Draw* Allan C. Stam, 1993 *Is This a Private Fight or Can Anybody Join?* Zachary C. Shirkey, 2016-05-06 Some countries join interstate wars well after the war has begun waiting months and often years and thus changing their beliefs about the wisdom of entering a war This volume examines why this might be so focusing on unforeseen events in wars which cause neutral players to update their expectations about the trajectory of the war therefore explaining why some wars spread while others do not The author uses a combination of case studies and statistical analysis

Fighting Corruption in Eastern Europe Diana Schmidt-Pfister, Holger Moroff, 2013-09-13 Anti corruption programmes projects and campaigns have come to constitute an essential aspect of good governance promotion over the last two decades The post communist countries in Eastern Europe have presented one of the first key targets of transnational anti corruption efforts and indeed most of these countries have shown an impressive record of respective measures Yet path breaking institutional and policy developments have not set in before the mid 2000s both at the international level and in most Eastern European countries Are these the beginnings of a mutually synergetic success story In order to answer this question we need to better understand the complex interplay between the international and domestic domains in this policy field and geographic region This book provides in depth and comparative insights about this interplay with a particular focus on the involvement of domestic social movements governmental political machines and international legal mechanisms We find that on all three levels of analysis political and material interests of relevant actors are complemented and at times contradicted by normative claims Moreover at the interfaces of the three levels coincidental and spontaneous developments have largely outweighed systematic implementation and coordination of appropriate anti corruption strategies This book is based on a special issue of *Global Crime* **Critic and Literary World** Jeannette Leonard Gilder, Joseph Benson Gilder, 1891 [The Cambridge Guide to Literature in English](#) Dominic Head, 2006-01-26 This illustrated and fully updated Third Edition of *The Cambridge Guide to Literature in English* is the most authoritative and international survey of world literature in English available The Guide covers everything from Old English to contemporary writing from all over the English speaking world
