the country As descendants of the Philippines a country that was colonized by Spain for over three centuries and by the US for nearly 50 years Filipino Americans are an ethnic group with a sociocultural and historical experience that is unlike any other First they are the only ethnic group that has been categorized as Asian American Pacific Islander and Hispanic However California state laws require that all personnel surveys or statistical tabulations classify persons of Filipino ancestry as Filipino rather than part of any other racial or ethnic group Additionally Filipino Americans have often been referred to as the Forgotten Asian Americans because their presence has been invisible in psychology education humanities and other social sciences Filipino American Psychology A Handbook of Theory Research and Clinical Practice offers a comprehensive look at the psyche of Filipino Americans By examining history cultural values influences of colonialism community dynamics and intersections with other identities the reader will have an opportunity to understand essential information about this population Students will gain knowledge and awareness about Filipino American identity and personality development while practitioners will learn culturally competent techniques to become better counselors clinicians and educators This book is the first of its kind and aims to promote visibility of this invisible group so that 2 4 million Filipino Americans will have their voices heard

The Latinos of Asia Anthony Christian Ocampo, 2023-05-25 This groundbreaking book is essential reading not only for the Filipino diaspora but for anyone who cares about the mysteries of racial identity Jose Antonio Vargas Pulitzer Prize winning journalist Is race only about the color of your skin In The Latinos of Asia Anthony Christian Ocampo shows that what color you are depends largely on your social context Filipino Americans for example helped establish the Asian American movement and are classified by the US Census as Asian But the legacy of Spanish colonialism in the Philippines means that they share many cultural characteristics with Latinos such as last names religion and language Thus Filipinos color their sense of connection with other racial groups changes depending on their social context The Filipino story demonstrates how immigration is changing the way people negotiate race particularly in cities like Los Angeles where Latinos and Asians now constitute a collective majority Amplifying their voices Ocampo illustrates how second generation Filipino Americans racial identities change depending on the communities they grow up in the schools they attend and the people they befriend Ultimately The Latinos of Asia offers a window into both the racial consciousness of everyday people and the changing racial landscape of American society

Growing Up Brown Peter M. Jamero, Sr., 2011-09-01 I may have been like other boys but there was a major difference my family included 80 to 100 single young men residing in a Filipino farm labor camp It was as a campo boy that I first learned of my ancestral roots and the sometimes tortuous path that Filipinos took in sailing halfway around the world to the promise that was America It was as a campo boy that I first learned the values of family community hard work and education As a campo boy I also began to see the two faces of America a place where Filipinos were at once welcomed and excluded were considered equal and were discriminated against It was a place where the values of fairness and freedom often fell short when Filipinos put them to the test Peter Jamero Peter Jamero s

story of hardship and success illuminates the experience of what he calls the bridge generation the American born children of the Filipinos recruited as farm workers in the 1920s and 30s Their experiences span the gap between these early immigrants and those Filipinos who owe their U S residency to the liberalization of immigration laws in 1965 His book is a sequel of sorts to Carlos Bulosan s *America Is in the Heart* with themes of heartbreaking struggle against racism and poverty and eventual triumph Jamero describes his early life in a farm labor camp in Livingston California and the path that took him through naval service and graduate school far beyond Livingston A longtime community activist and civic leader Jamero describes decades of toil and progress before the Filipino community entered the sociopolitical mainstream He shares a wealth of anecdotes and reflections from his career as an executive of health and human service programs in Sacramento Washington D C Seattle and San Francisco
