Hutchcroft, 2019-04-15 In the early postwar years the Philippines seemed poised for long term economic success within the region only Japan had a higher standard of living By the early 1990s however the country was dismissed as a perennial aspirant to the ranks of newly industrializing economies unable to convert its substantial developmental assets into developmental success Major reforms of the mid 1990s bring new hope explains Paul D Hutchcroft but accompanying economic gains remain relatively modest and short lived What has gone wrong The Philippines should have all the ingredients for developmental success tremendous entrepreneurial talents a well educated and anglophone workforce a rich endowment of natural resources a vibrant community of economists and development specialists and abundant overseas assistance Hutchcroft attributes the laggard

economic performance to long standing deficiencies in the Philippine political sphere The country s experience he asserts illuminates the relationship between political and economic development in the modern Third World Through careful examination of interactions between the state and the major families of the oligarchy in the banking sector since 1960 Hutchcroft shows the political obstacles to Philippine development Booty capitalism he explains emerged from relations between a patrimonial state and a predatory oligarchy Hutchcroft concludes by examining the capacity of recent reform efforts to encourage transformation toward a political economic order more responsive to the developmental needs of the Philippine nation as a whole

**Agrarian Reform in the Philippines** Jeffrey M. Riedinger, 1995 This book evaluates the capacity of new democratic regimes to promote redistributive agrarian reform an issue of contemporary concern in countries throughout the world Agrarian reform is particularly complex and difficult for new democracies because it curtails the power and privileges of influential elements of society The author analyzes the problems attendant on political liberalization and social and economic reform by examining in detail the formulation and implementation of agrarian reform in the Philippines under the governments of Corazon Aquino and her successor Fidel Ramos The book explores how the interaction between state and society shapes reform policy decisions paying close attention to the role of cultural variables and social organizations It shows that what is needed for successful agrarian reform is a combination of sustained forceful leadership from a disciplined reform oriented political party and grassroots agitation by peasant organizations

articles feature films cultural policy documents and propaganda films as national allegories imbued with revolutionary power Espiritu expands the critical discussion of dictatorships in general and Marcos's in particular by placing Filipino popular media and the regime's public culture in dialogue Espiritu's interdisciplinary approach in this illuminating case study of how melodrama and sentimentality shape political action breaks new ground in media studies affect studies and Southeast Asian studies

**Democratic Equilibrium** Michael W. Fowler, 2015-11-12 Democratic Equilibrium The Supply and Demand of Democracy defines a model for political change change that results in either an increase or decrease in democracy The book presents a model that builds upon the existing literature to bridge several major gaps in political change theory This book provides a holistic supply and demand model that draws upon works from political science economics and history The work conducts an econometric test of the model and validates the results with field research cases from Mexico the Philippines and Senegal The econometric chapter is a rare quantitative analysis of the effects of violence and development upon democracy This topic is central to contemporary academic and policy debates about how to create democracies consolidate democracies achieve development and improve security especially within developing countries This topic is especially timely as the Arab Spring represents a unique opportunity and challenge for democratic change across the Middle East and North Africa Recent events in Tunisia and Egypt demonstrate that democracy studies remain just as relevant today as they were twenty years ago The findings indicate that common structural explanations of democracy are incomplete since the structural relationships are not stable or constant over time Instead democratic change or lack thereof can be explained using a supply and demand model Key actors including the military political parties NGOs the ruling regime and civil society are the suppliers and consumers that determine a country's resulting level of democracy However stating that actors are important is a major oversimplification Each key actor builds preferences based upon a variety of factors most importantly security income and the adoption of democratic norms It is this key dynamic that explains why insurgency poverty and under development do not have a linearly negative effect on democracy Instead these factors have a centripetal effect on political development pulling a country's government towards an intermediate state of political transition in which regimes stagnate in a partially democratic partially autocratic regime type Conversely the model also explains why high income democratic norms and security do not necessarily lead to democratization in all cases

Public-Private Partnerships Stephen Osborne, 2000-11-23 This book is the first to draw upon a range of disciplines to offer theoretical perspectives upon their analysis of public private partnerships It also offers a series of case studies of their management from around the world

**Crony Capitalism** David C. Kang, 2002-01-24 Why has the

literature on Asian development not addressed the issue of money politics in Korea How can we reconcile the view of an efficient developmental state in Korea before 1997 with reports of massive corruption and inefficiency in that same country in 1998 and 1999 Politics is central to the answer In this book the author makes two arguments First both Korea and the Philippines experienced significant corruption throughout the post independence era Second political not economic considerations dominated policy making in both countries Focusing on the exchange of favors for bribes between state and business the author argues that politics drove policy choices that bureaucrats were not autonomous from political interference in setting policy and that business and political elites wrestled with each other over who would reap the rents to be had Even in Korea corruption was far greater than the conventional wisdom allows 1978-1989 Heinz-Dietrich Fischer,2020-01-20 No detailed description available for 1978 1989 Elections in Asia and the Pacific : A Data Handbook Dieter Nohlen,Florian Grotz,Christof Hartmann,2001-11-15 Elections in Asia written by experts in the field presents the first ever compendium of electoral data for all the 62 states in Asia Australia and Oceania from their independence to the present Exhaustive statistics on national elections and referendum are given in each case The two volumes provides the definitive resource for historical and cross national comparisons and electoral system worldwide *The Social Dynamics of Deforestation in the Philippines* Gerhard van den Top,2003 This work offers a detailed case study on the dynamics of forest use degradation and loss in Northeast Luzon Philippines Following an interdisciplinary approach the study charts the degradation and loss of forest in this area between 1950 and 1990 as it relates to the social and political context of logging forest migration and changes in upland agriculture Based on ten years of research the author introduces us to the actions livelihood options and motives of all the principal group of actors **Political Parties and Democracy** T. Inoguchi,J. Blondel,2012-12-23 Well reputed political scientists residing and teaching in ten countries five in Asia and five in Europe comparatively examine the place of political parties in democracy and provide an empirically rigorous up to date comprehensive synthesis of the organization of political parties and their links with citizens in a democracy
