Film Before Griffith:

Film Before Griffith John L. Fell, 1983 Film Before Griffith John L. Fell, 1983-01-01 **D.W. Griffith and the Origins of American Narrative Film** Tom Gunning, 1994 The legendary filmmaker D W Griffith directed nearly 200 films during 1908 and 1909 his first years with the Biograph Company While those one reel films are a testament to Griffith's inspired genius as a director they also reflect a fundamental shift in film style from cheap amusements to movie storytelling complete with characters and narrative impetus In this comprehensive historical investigation drawing on films preserved by the Library of Congress and the Museum of Modern Art Tom Gunning reveals that the remarkable cinematic changes between 1900 and 1915 were a response to the radical reorganization within the film industry and the evolving role of film in American society The Motion Picture Patents Company the newly formed Film Trust had major economic aspirations The newly emerging industry's quest for a middle class audience triggered Griffith's early experiments in film editing and imagery His unique solutions permanently shaped American narrative film *Nonfiction Film* Richard Barsam, 1992-11-22 Richard Barsam has given us as comprehensive a study of the origins and development of the nonfiction mode in motion pictures as we are ever likely to have in one volume He draws on all the major written sources and many which are little known and he shares with us many eloquent descriptions of the films themselves giving us a valuable textbook Richard Dyer MacCann superb work *Historical Journal of Film Radio and Television* **Closely Watched Films** Marilyn Fabe, 2014-10-14 Through detailed examinations of passages from classic films Marilyn Fabe supplies the analytic tools and background in film history and theory to enable us to see more in every film we watch Page 4 of cover **Slapstick Comedy** Tom Paulus, Rob King, 2010-06-09 From Chaplin's tramp to the Bathing Beauties slapstick comedy supplied many of the most enduring icons of American cinema in the silent era This collection of fourteen essays by film scholars challenges longstanding critical dogma and offers new conceptual frameworks for thinking about silent comedy's place in film history and American culture *D.W. Griffith's 100th Anniversary The Birth of a Nation* Ira H. Gallen, Seymour Stern, 2014-04-07 A HISTORY OF THE MOST CONTROVERSIAL MOTION PICTURE EVER MADE A hundred years have passed since the masterpiece of David Wark Griffith *The Birth of a Nation* first appeared on the screens of America in the winter of 1915 It demonstrated that the cinema no less than literature and no less than the stage could become a topic of serious critical esthetic intellectual political social and technical discussion In this way it brought the motion picture into a position of commanding influence in the social life of the American nation The denunciation continues and the storm over the film serves as a barometer of the global conflict involving forces and issues set in motion by but no means limited to race From the beginning it touched off several emotionally and politically explosive interrelated parallel controversies controversy over Griffith controversy over the film controversy over the subject matter and its treatment controversy over the controversy As Griffith's official biographer Seymour Stern's main purpose of his book was to assemble as extensively as possible the rapidly vanishing record of what

happened You ll find Stern s writing on the subject as controversial as the film itself *Film editing - history, theory and practice* Don Fairservice,2019-01-04 The first ever comprehensive examination of the film editor s craft from the beginning of cinema to the present day Of all the film making crafts editing is the least understood Using examples drawn from classic film texts this book clarifies the editor s role and explains how the editing process maximises the effectiveness of the filmed material Traces the development of editing from the primitive forms of early cinema through the upheavals caused by the advent of sound to explore the challenges to convention that began in the 1960s and which continue into the twenty first century New digital technologies and the dominance of the moving image as an increasingly central part of everyday life have produced a radical rewriting of the rules of audio visual address It is not a technical treatise instructive and accessible this historically based insight into filmmaking practice will prove invaluable to students of film and also appeal to a much wider readership

Stereoscopic Cinema and the Origins of 3-D Film, 1838-1952 Ray Zone,2014-02-03 Though it may come as a surprise to both cinema lovers and industry professionals who believe that 3 D film was born in the early 1950s stereoscopic cinema actually began in 1838 more than 100 years before the 3 D boom in Hollywood was created by the release of Arch Oboler s African adventure film *Bwana Devil* filmed in Natural Vision 3 D *Stereoscopic Cinema and the Origins of 3 D Film 1838 1952* is a comprehensive prehistory of the stereoscopic motion picture In the late nineteenth century stereoview cards were popular worldwide and soon filmmakers wanted to capture these living pictures with motion sound and color Writing a new chapter in the history of early cinema Ray Zone not only discusses technological innovation and its cultural context but also examines the aesthetic aspects of stereoscopic cinema in its first century of production

Silent Film Richard Abel,1996 Essays on the era of silent film **Early Cinema** Thomas Elsaesser,Adam Barker,2019-07-25 In the twenty years preceding the First World War cinema rapidly developed from a fairground curiosity into a major industry and social institution a source of information and entertainment for millions of people Only recently have film scholars and historians begun to study these early years of cinema in their own right and not simply as first steps towards the classical narrative cinema we now associate with Hollywood The essays in this collection trace the fascinating history of how the cinema developed its forms of storytelling and representation and how it evolved into a complex industry with Hollywood rapidly acquiring a dominant role These issues can be seen to arise from new readings of the so called pioneers Melies Lumiere Porter and Griffith while also suggesting new perspectives on major European filmmakers of the 1910s and 20s Editor Thomas Elsaesser complements the contributions from leading British American and European scholars with introductory essays of his own that provide a comprehensive overview of the field The volume is the most authoritative survey to date of a key area of contemporary film research invaluable to historians as well as to students of cinema

Vitagraph Andrew A. Erish,2021-06-08 Winner of the 2022 Peter C Rollins Book Award and the 2022 Browne Best Edited Reference Primary Source Work in Popular and American Culture Award In *Vitagraph America s First Great Motion Picture*

Studio Andrew A Erish provides a comprehensive examination and reassessment of the company most responsible for defining and popularizing the American movie. This history challenges long accepted Hollywood mythology that Paramount and Fox invented the feature film, that Universal created the star system, and that these companies along with MGM and Warner Bros developed motion pictures into a multimillion dollar business. In fact, the truth about Vitagraph is far more interesting than the myths that later moguls propagated about themselves. Established in 1897 by J Stuart Blackton and Albert E Smith, Vitagraph was the leading producer of motion pictures for much of the silent era. Vitagraph established America's studio system, a division of labor utilizing specialized craftspeople and artists, and developed fundamental aspects of American movies from framing, lighting, and performance style to emphasizing character-driven comedy and drama in stories that respected and sometimes poked fun at every demographic of Vitagraph's vast audience. For most of its existence, America's most influential studio was headquartered in Brooklyn, New York, before relocating to Hollywood. A historically rigorous and thorough account of the most influential producer of American motion pictures during the silent era, Erish draws on valuable primary material long overlooked by other historians to introduce readers to the fascinating forgotten pioneers of Vitagraph.

Race in American Film Daniel Bernardi, Michael Green, 2017-07-07. This expansive three-volume set investigates racial representation in film, providing an authoritative cross-section of the most racially significant films, actors, directors, and movements in American cinematic history. Hollywood has always reflected current American cultural norms and ideas. As such, film provides a window into attitudes about race and ethnicity over the last century. This comprehensive set provides information on hundreds of films chosen based on scholarly consensus of their importance regarding the subject, examining aspects of race and ethnicity in American film through the historical context, themes, and people involved. This three-volume set highlights the most important films and artists of the era, identifying films, actors, or characterizations that were considered racist, were tremendously popular, or hugely influential, attempted to be progressive, or some combination thereof. Readers will not only learn basic information about each subject but also be able to contextualize it culturally, historically, and in terms of its reception to understand what average moviegoers thought about the subject at the time of its popularity and grasp how the subject is perceived now through the lens of history.

Babel and Babylon Miriam Hansen, 2009-07-01. Blackface, White Noise Michael Rogin, 1996. The tangled

connections that have bound Jews to African Americans in popular culture and liberal politics are at the heart of this text It explores blackface in Hollywood films as an aperture to various broader issues

Working-Class Hollywood Steven J. Ross, 2020-06-30 This path breaking book reveals how Hollywood became Hollywood and what that meant for the politics of America and American film Working Class Hollywood tells the story of filmmaking in the first three decades of the twentieth century a time when going to the movies could transform lives and when the cinema was a battleground for control of American consciousness Steven Ross documents the rise of a working class film movement that challenged the dominant political ideas of the day Between 1907 and 1930 worker filmmakers repeatedly clashed with censors movie industry leaders and federal agencies over the kinds of images and subjects audiences would be allowed to see The outcome of these battles was critical to our own times for the victors got to shape the meaning of class in twentieth century America Surveying several hundred movies made by or about working men and women Ross shows how filmmakers were far more concerned with class conflict during the silent era than at any subsequent time Directors like Charlie Chaplin D W Griffith and William de Mille made movies that defended working people and chastised their enemies Worker filmmakers went a step further and produced movies from A Martyr to His Cause 1911 to The Gastonia Textile Strike 1929 that depicted a unified working class using strikes unions and socialism to transform a nation J Edgar Hoover considered these class conscious productions so dangerous that he assigned secret agents to spy on worker filmmakers Liberal and radical films declined in the 1920s as an emerging Hollywood studio system pressured by censors and Wall Street investors pushed American film in increasingly conservative directions Appealing to people s dreams of luxury and upward mobility studios produced lavish fantasy films that shifted popular attention away from the problems of the workplace and toward the pleasures of the new consumer society While worker filmmakers were trying to heighten class consciousness Hollywood producers were suggesting that class no longer mattered Working Class Hollywood shows how silent films helped shape the modern belief that we are a classless nation

Parallel Tracks Lynne Kirby, 1997 In wide ranging and provocative analyses of dozens of silent films icons of film history like The General and The Great Train Robbery as well as many that are rarely discussed Kirby examines how trains and rail travel embodied concepts of spectatorship and mobility grounded in imperialism and the social sexual and racial divisions of modern Western culture

The Imagined Immigrant Ilaria Serra, 2009 Using original sources such as newspaper articles silent movies letters autobiographies and interviews Ilaria Serra depicts a large tapestry of images that accompanied mass Italian migration to the U S at the turn of the twentieth century She chooses to translate the Italian concept of immaginario with the Latin imago that felicitously blends the double English translation of the word as imagery and imaginary Imago is a complex knot of collective representations of the immigrant subject a mental production that finds concrete expression impalpable yet real The imagined immigrant walks alongside the real one in flesh and rags
