Films Of The Sixties:

Movies of the 60s Jürgen Müller, 2004 Jürgen Müller's overview of the films of the 1960s has over a hundred A to Z entries that include synopses film stills cast and crew listings box office figures trivia and actor and director biographies The book covers examples of Italian French German and American movies that strongly characterized the 1960s

American Cinema of the 1960s Barry Keith Grant, 2008-02-11 The profound cultural and political changes of the 1960s brought the United States closer to social revolution than at any other time in the twentieth century The country fragmented as various challenges to state power were met with increasing and violent resistance The Cold War heated up and the Vietnam War divided Americans Civil rights women's liberation and gay rights further emerged as significant social issues Free love was celebrated even as the decade was marked by assassinations mass murders and social unrest At the same time American cinema underwent radical change as well The studio system crumbled and the Production Code was replaced by a new ratings system Among the challenges faced by the film industry was the dawning shift in theatrical exhibition from urban centers to suburban multiplexes an increase in runaway productions the rise of independent producers and competition from both television and foreign art films Hollywood movies became more cynical violent and sexually explicit reflecting the changing values of the time In ten original essays American Cinema of the 1960s examines a range of films that characterized the decade including Hollywood movies documentaries and independent and experimental films Among the films discussed are Elmer Gantry The Apartment West Side Story The Manchurian Candidate To Kill a Mockingbird Cape Fear Bonnie and Clyde 2001 A Space Odyssey Midnight Cowboy and Easy Rider

Showdown, Confronting Modern America in the Western Film John H. Lenihan, 1980 Showdown is a study of America's oldest most representative film genre the Western movie from the perspective of social allegory It assesses scores of major and minor films to show how Westerns function as vehicles for contemporary social and political critiques of American life

Sixties British Cinema Robert Murphy, 2019-07-25 British films of the 1960s are undervalued Their search for realism has often been dismissed as drabness and their more frivolous efforts can now appear just empty headed Robert Murphy's Sixties British Cinema is the first study to challenge this view He shows that the realist tradition of the late 50s and early 60s was anything but dreary and depressing and gave birth to a clutch of films remarkable for their confidence and vitality Saturday Night and Sunday Morning A Kind of Loving and A Taste of Honey are only the better known titles Sixties British Cinema revalues key genres of the period horror crime and comedy and takes a fresh look at the swinging London films finding disturbing undertones that reflect the cultural changes of the decade Now that our cinematic past is constantly recycled on television Murphy's informative engaging and perceptive review of these films and their cultural and industrial context offers an invaluable guide to this neglected era of British cinema
