1960s and which continue into the twenty first century New digital technologies and the dominance of the moving image as an increasingly central part of everyday life have produced a radical rewriting of the rules of audio visual address It is not a technical treatise instructive and accessible this historically based insight into filmmaking practice will prove invaluable to students of film and also appeal to a much wider readership *The Oxford Handbook of American Film History* Jon Lewis,2025 In a series of newly commissioned chapters The Oxford Handbook of American Film History offers a new and fully compelling discussion of American film as marked by significant moments of industrial and artistic change Many of the chapters are built upon primary sourced research while others detail aspects of form and style Together the chapters in this book show a history shaped by multiple theses and voices and interests Hollywood in the Age of Television Tino Balio,2013-12-17 This collection of papers examines the evolving relationship between the motion picture industry and television from the 1940s onwards The institutional and technological histories of the film and TV industries are looked at concluding that Hollywood and television had a symbiotic relationship from the start Aspects covered include the movement of audiences the rise of the independent producer the introduction of colour and the emergence of network structure cable TV and video recorders Originally published in 1990 *Cultural Analysis* Jim McGuigan,2010 This book represents a distinctive approach to cultural analysis using multi dimensional methods for addressing issues of public interest The approach which deploys Jim McGuigan s original concept of the cultural public sphere is demonstrated in several case studies including Celebrity death Festivals and urban regeneration Race and multicultural controversy Popular television for instance Little Britain and The Apprentice Social significance of the all purpose mobile communication device in a privatized and individualized way of life Riskiness and uncertainty at both the levels of environmental politics and working life in the creative and media industries Hollywood's Indies Yannis Tzioumakis,2012-03-07 For almost three decades the big Hollywood studios have operated classics divisions or specialty labels subsidiaries that originally focused on the foreign art house film market while more recently and controversially moving on to the American indie film market This is the first book to offer an in depth examination of the phenomenon of the classics divisions by tracing its history since the establishment the first specialty label in 1980 United Artists Classics to more contemporary outfits like Focus Features Warner Independent and Picturehouse This detailed account of all classics divisions examines their business practices their position within the often labyrinthine structure of contemporary entertainment conglomerates and their relationship to their parent companies Yannis Tzioumakis examines the impact of those companies on American indie cinema and argues that it was companies such as Fox Searchlight and Paramount Classics now Paramount Vantage that turned independent filmmaking to an industrial category endorsed by the Hollywood majors as opposed to a mode of filmmaking practised outside the conglomerated major players and posed as a sustained alternative to mainstream Hollywood cinema A number of case studies are provided including such celebrated films as *Mystery Train* *The Brothers McMullen* *Broken Flowers* *Before Sunset* and many others

Entertainment Law and Business - Third Edition Jay Shanker, David E. Guinn, Harold Orenstein, 2009-07-01

Entertainment Law and Business is a handy resource for both the experienced and novice practitioner. It provides a broad survey of the entire industry and creative rights laws. It includes incisive summaries of all of the important areas of creative rights law: copyrights, the protection of ideas, trademark, publicity and privacy, and the major international treaties. It also provides an overview of all the major fields of entertainment and related fields of interest for entertainment practitioners, along with illustrative agreements. This is not an esoteric academic treatise. The book aims to aid the practitioner in the practical aspects of entertainment. Hence the authors have attempted to highlight the key features of the major agreements in each field. They provide insights not only into what the individual provisions of the agreement attempt to regulate but also the concerns that lie behind those provisions. They point to the types of negotiating strategies important in each agreement, passing on their experience to the practitioner. All of the accompanying sample forms and documents are conveniently included on CD-ROM in RTF (Rich Text Format). RTF allows the user to open each sample clause for use, editing in either Microsoft Word or Corel Wordperfect Value Package.

EBOOK: Beyond the Risk Society: Critical Reflections on Risk and Human Security Gabe Mythen, Sandra Walklate, 2006-08-16 In contemporary culture, risk is ubiquitous, filtering through a range of activities, practices and experiences. In line with rising public concerns about the management of current threats such as crime, terrorism and global warming, interest in risk has gathered momentum in the social sciences, galvanized by Ulrich Beck's risk society thesis. Bringing together cutting-edge academics and researchers, *Beyond the Risk Society* provides an understanding of the relevance and impact of the concept of risk in various subject areas. Contributions by domain experts critically evaluate the way in which theoretical risk perspectives have influenced their fields of interest, offering the opportunity to reflect upon the problems and possibilities for future work on risk. In assembling this collection, the editors propose a holistic and transdisciplinary approach to understanding the nature and consequences of risk in everyday life. This text is key reading for social sciences students in a range of disciplines including sociology, criminology, cultural studies, media studies, psychology and social policy. Contributors: Alison Anderson, Rob Flynn, Jane Franklin, Hazel Kemshall, Deborah Lupton, Phil Macnaghten, Jim McGuigan, Peter McMylor, Gabe Mythen, Pat O'Malley, Teela Sanders, Steve Tombs, Sandra Walklate, Dave Whyte, Iain Wilkinson.

American Film in the Digital Age Robert C. Sickels, 2010-12-08 This eclectic yet comprehensive analytical overview of the cataclysmic changes in the American film industry since 1990 shows how they have collectively resulted in a new era. The Digital Age. The American film industry has entered a new era. *American Film in the Digital Age* traces the industrial changes since 1990 that have brought us to this point, namely the rise of media conglomerates, the proliferation of pornography through peripheral avenues of mainstream media, the role of star actors and directors in distributing and publicizing their own pet projects, the development of digital technology and the death of truly independent films. Author Robert Sickels draws straight lines from the movies to music, DVDs, video games, fast food, digital on

demand and more to demonstrate how all forms of media are merging into one He explores the irony that the success of independent films essentially killed independent cinema showing how it has become almost impossible to get a film released without the imprimatur of one of the big six media companies Fox Viacom TimeWarner Disney General Electric or CBS In the end using recent popular films as examples he explains not only how we got where we are but where we are likely headed as well

Genre and Contemporary Hollywood Steve Neale, 2019-07-25 This wide ranging text is one of the first to look in detail at some of the principal genres cycles and trends in Hollywood's output during the last two decades It includes analysis of such films as *Sense and Sensibility* *Grifters* *The Mask* *When Harry Met Sally* *Pocahontas* *Titanic* *Basic Instinct* Coppola's *Dracula* and *Malcolm X*

MGM Tino Balio, 2018-03-14 The winner of the 2019 Peter C Rollins Book Award This is the first comprehensive history of MGM from its origins in 1905 to the present Following a straightforward chronology corresponding to specific periods of film industry history each chapter describes how successive managements adjusted their production strategies and business practices in response to evolving industrial and market conditions As the production subsidiary of the Loew's Inc theatre chain MGM spent lavishly on its pictures and injected them with plenty of star power The practice helped sustain MGM's preeminent position during the heyday of Hollywood But MGM was a conservative company and watched as other studios innovated with sound and widescreen adjusted to television and welcomed independent producers By the 1960s the company sans its theatre chain was in decline and was ripe for a takeover A defining moment occurred in 1969 when Kirk Kerkorian a Las Vegas entrepreneur made a successful bid for the company There followed a tumultuous thirty six year period when Kerkorian bought and sold MGM three times Meanwhile MGM never

regained its former status and has functioned as a second tier company to this day Focusing on MGM's top talent such as Louis B Mayer Irving Thalberg David O Selznick and Arthur Freed directors King Vidor and Vincente Minnelli and stars of the screen Greta Garbo Judy Garland Clark Gable and Mickey Rooney and award winning films this book highlights the studio's artistic achievements and status within the industry The A to Z of Westerns in Cinema Paul Varner, 2009-09-28 When the earliest filmgoers watched The Great Train Robbery in 1903 many of them shrieked in terror at the very last clip when one of the outlaws turns directly toward the camera and fires a gun seemingly directly at the audience The puff of smoke was sudden and it was hand colored so that it looked real Today we can look back at that primitive movie and see all the elements of what would evolve into the Western genre Perhaps it is the Western's early origins The Great Train Robbery was the first narrative commercial movie or its formulaic yet entertaining structure that has made the Western so popular Whatever the case may be with the recent success of films like 3:10 to Yuma and The Assassination of Jesse James by the Coward Robert Ford the Western appears to be in no danger of disappearing The story of the western is told in The A to Z of Westerns in Cinema through a chronology a bibliography and an introductory essay However it is the hundreds of cross referenced dictionary entries on cinematographers composers producers films like Butch Cassidy and the Sundance Kid Dances With Wolves The Good The Bad and the Ugly High Noon The Magnificent Seven The Searchers Tombstone and Unforgiven such actors as Gene Autry Kirk Douglas Clint Eastwood Henry Fonda James Stewart and John Wayne and directors like John Ford and Sergio Leone that will have you reaching for this book again and again
