Asymmetry of Information and Lending Risk Livelihood Pattern of Street Vendors in India Monika, Dr. D. K. Yadav, Dr. Firdous Ahmad Malik, 2021-09-18 Asymmetry of Information and Lending Risk Livelihood pattern of Street Vendors in India This study focuses on street vendors and their related problems to access credit from formal banking institutions our formal sector faces the risk of asymmetric information in lending to street vendors due to which street vendors lack access to institutional financing On the other side public authorities normally regard street vendors as encroachers of sidewalks and pavements and do not appreciate the valuable services which street vendors are providing to the common man Social security coverage of street vendors is very small Here member base organizations have a positive impact on the life of street vendors Non Government Organizations NGOs who are providing social security schemes to street vendors are few in number 2009

National Policy on Urban Street Vendors Street Vendors provide valuable services at a cheaper price to the urban population while trying to earn a livelihood and it is the duty of the State to protect the right of this segment of the population to earn their livelihood So this book highlights the issues and challenges faced by street vendors and also provides feasible solutions for their development

Money as a Social Institution Ann E. Davis, 2017-07-14 Money is usually understood as a valuable object the value of which is attributed to it by its users and which other users recognize It serves to link disparate institutions providing a disguised whole and prime tool for the invisible hand of the market This book offers an interpretation of money as a social institution Money provides the link between the household and the firm the worker and his product making that very division seem natural and money as imminently practical Money as a Social Institution begins in the medieval period and traces the evolution of money alongside consequent implications for the changing models of the corporation and the state This is then followed with double entry accounting as a tool of long distance merchants and bankers then the monitoring of the process of production by professional corporate managers Davis provides a framework of analysis for examining money historically beyond the operation of those particular institutions which includes the possibility of conceptualizing and organizing the world differently This volume is of great importance to academics and students who are interested in economic history and history of economic thought as well as international political economics and critique of political economy
