

FINANCIAL PLANNING BASICS *for* DOCTORS

The personal finance course not taught in medical

Financial Planning Basics for Doctors is a comprehensive guide on how to develop a long-term financial plan for doctors and their families. Subjects include student loans, home buying, disability insurance, estate planning, college planning, retirement planning, investments, and behavioral finance among many others. Each chapter starts with the basics before moving on to more advanced concepts, frequently with examples and graphs, and ends with a concise summary of the key takeaways. Throughout the book are links to free downloadable spreadsheets and a planning checklist to help you jump-start and organize your financial plan.

The content provided is a result of the feedback the authors have received from thousands of meetings with doctors, condensed into a thorough and practical guide to the most relevant ideas. Teaching hospitals do an excellent job training the next generation of doctors, yet most new physicians graduate without having had a class on managing their finances. This book was written to fill that knowledge gap.

Marshall Weintraub, Michael Merrill, and Cole Kimball are advisors with Finitiy Group, LLC, a financial planning firm that specializes in working with doctors.
