Economic Strategy and the Labour Party M. Wickham-Jones, 1996-11-26 Economic Strategy and the Labour Party examines the nature and development of the Labour party s economic policy between 1970 and 1983 Drawing on extensive archival research Mark Wickham Jones analyses the radical nature of the new proposals adopted by the party in 1973 and

charts the opposition of Labour's leadership to them The resulting disunity was the central cause of leftwingers demands to reform Labour's constitutional structure and of the party's election defeat in 1983 Mark Wickham Jones assesses the nature of Labour's social democratic objectives and the organisational structure of the party In the Epilogue he provides a detailed account of the internal reforms under Neil Kinnock's leadership of the party which have helped to secure the foundations of Labour s electoral recovery since 1983 Breaking the WTO Kristen Hopewell, 2016-08-03 The world economic order has been upended by the rise of the BRIC nations and the attendant decline of the United States international influence In Breaking the WTO Kristen Hopewell provides a groundbreaking analysis of how these power shifts have played out in one of the most important theaters of global governance the World Trade Organization Hopewell argues that the collapse of the Doha Round negotiations in 2008 signals a crisis in the American led project of neoliberal globalization Historically the U S has pressured other countries to open their markets while maintaining its own protectionist policies Over the course of the Doha negotiations however China India and Brazil challenged America's hypocrisy They did so not because they rejected the multilateral trading system but because they embraced neoliberal rhetoric and sought to lay claim to its benefits By demanding that all members of the WTO live up to the principles of free trade these developing states caused the negotiations to collapse under their own contradictions Breaking the WTO probes the tensions between the WTO s liberal principles and the underlying reality of power politics exploring what the Doha conflict tells us about the current and coming balance of power in the global economy Strategic Marketing Management Syed Akhter, Barney Pacheco, 2020-01-13 The fourth edition of Strategic Marketing Management helps your students understand why strategies are developed how strategies should be developed what type of strategies are appropriate for different market conditions and how strategies achieve a sustainable competitive advantage The authors explain how beliefs and knowledge about markets shape the development of strategies and how to become effective and ethical decision makers
