Financial Market Regulations and Legal Challenges in South Asia Kashyap, Amit K., 2016-03-17 South Asia has experienced a long period of robust economic growth. While many regulatory policies have helped usher in this prosperous growth, some markets have plateaued due to hardships such as the decline in foreign remittance and international credit lines and a contraction of exports. To continue to grow, the nations in this region must begin to integrate into the globalized world economy. *Financial Market Regulations and Legal Challenges in South Asia* addresses the difficulties and challenges of the regulatory environment in South Asia. This research-based publication outlines the apparent issues and resolutions as these developing nations transition into global economic players. This book is an excellent resource for policy makers, researchers, and students in the financial field, government officials, bankers, and financial market regulators. Financial Resources for Development in Myanmar Myat Thein, 2000 Much attention has been paid to the increasingly substantial inflows of foreign direct investment into Myanmar since the country opened its doors to overseas investors in late 1988. In addition to bringing capital in the form of cash, such investment has also introduced new technology, training, and skills, business, and management acumen, as well as various other inputs that Myanmar undoubtedly requires if the country is to develop. However, there is a growing realization that FDI inflows alone will not enable the country to meet the ambitious economic growth targets. As evidenced by the Asian Tiger economies, there is also a need for considerable amounts of domestic capital, and in order to attain substantial levels of domestic investment, a system of domestic savings vehicles that the state and industry can harness must be developed. Hence, this volume seeks to examine ways in which domestic savings and investment capital can be encouraged and increased. The contributors include not only Myanmar economists and policy makers but also experts from ASEAN and Japan who share their experiences. Economic Globalisation Clement Allan Tisdell, Raj Kumar Sen, 2004-01-28 In this title, international contributors from both developing and higher income countries identify and discuss major social conflicts, labour, and distributional concerns, environmental issues, and impacts arising from the very rapid increase in globalization experienced since the early 1970s.
