Financing Economic Development:

Financing Economic Development Edmund Valpy Knox Fitzgerald, Rob Vos, 1989 **Economic Development Finance** Karl F Seidman, 2005 Incredible What a major contribution just to pull together the diverse array of information out there about development finance into one volume I consider this book an education for the lay reader and a fabulous resource for the practitioner of development finance Dr Rhonda Phillips AICP CED University of Florida This is the most comprehensive and best written economic development text in the market This would be a good text for a graduate level course and would work well with a one semester teaching plan The main strength of the book is the author's ability to summarize concepts programs and institutions and then draw from them issues lessons and challenges John S Strong School of Business College of William and Mary Economic Development Finance is a comprehensive and in depth presentation of private public and community financial institutions policies and methods for financing local and regional economic development projects The treatment of policies and program models emphasizes their applications and impact key design and management issues and best practices A separate section addresses critical management issues for development finance programs program and product design the lending and investment process and capital management Case studies are included throughout the book to help readers develop their skills and apply policies and tools to real practice issues A glossary of finance terms is also included Economic Development Finance provides a foundation for students and professionals in the technical aspects of business and real estate finance and surveys the full range of policies program models and financing tools used in economic development practice within the United States Learn more economic development strategies on Karl F Seidman's Web site at www.kfsconsulting.com Financing Economic Development in the 21st Century Sammis B. Bingham, Edward Hill, Sammis B. White, 1990-03 The recession and concerns over industrial competitiveness in the 1980s generated public concern with job retention and creation leading to state and local programs designed to stimulate local economic development As a new rapidly growing field local economic development literature proliferated but has not provided a comprehensive source for the field Several questions are of particular concern What are the major financing mechanisms for economic development How do they actually work How does one evaluate their effectiveness Financing Economic Development is a comprehensive resource which describes the major mechanisms available for financing economic development The chapters describe financing tools or programs in some detail provide one or more examples of how they work classify the tool according to various approaches and come to an evaluative conclusion about the utility and effectiveness of the mechanism for economic development A documentation of institutional innovation by state and local government this volume shows how governments across the United States are working with private sector financiers thereby allowing private intermediaries to invest in new enterprises With contributions by highly qualified practitioners and academics this volume is appropriate for professionals as well as for upper division undergraduate and graduate students in urban studies public administration and policy studies The book provides useful information by presenting a considerable number of institutional arrangements and showing the immense variety of approaches to economic development on the state and local level The latter aspect is particularly fascinating for readers from countries with a less fragmented government than the United States Journal of Evolutionary Economics Although there have been a plethora of publications on economic development this book is a useful addition to the body of literature on the subject The book provides some useful examples and case studies of private sector participation which of course is the goal of most economic development programs Government Finance Review The Financing of Economic Development Walter Tessier Newlyn, U.
