[The Early Architecture Of Western Pennsylvania](#) Charles Morse Stotz,2023-07-13 A new edition of this long unavailable classic reproduces photographic prints made from original negatives and features an extensive analytical introduction by the noted architectural historian Dell Upton Before the 1936 publication of *The Early Architecture of Western Pennsylvania* the architectural heritage of a region prominent in the history of early America had been almost totally neglected Based on a four year survey conducted by the Pittsburgh chapter of the American

Institute of Architects Charles Morse Stotz's book provides the definitive description and analysis of structures ranging from log houses to colonial and Georgian structures to examples of the pre Civil War Gothic revival. The volume defines the local architectural idiom as an expression of the frontier and early industrial societies that played such an important part in the history of nineteenth century America. This oversized volume of 416 black and white photographs, 81 measured drawings and an extensive text presents a splendid array of early dwellings, barns and other outbuildings, churches, arsenals, banks, inns, commercial buildings, tollhouses, mills and even tombstones. Time has proved this work to be the definitive record of an architectural heritage that was fast disappearing with the economic boom of World War II and the postwar years. The Early Architecture of Western Pennsylvania is also a work of precision, beauty and integrity. The drawings ignore alterations made after 1960 and show the buildings in their original condition, giving special attention to details such as window sashes, shutters, cornices and roofs. The floor plan of each structure is included and line drawings display the profiles of moldings and ornamentation. Signature stones and hardware convey the quality of the early craftsmen's work. In all cases, stone joining has been faithfully drawn, joint for joint, to record the charm of old wall patterns. This new edition makes a landmark book available to a new generation of readers, one especially aware of the importance of architectural preservation and guarding the history of the Western Pennsylvania region.

Homewood House Catherine Rogers Arthur, Cindy Kelly, 2004-12-20
Winner of a 2005 Heritage Book Award given by the Maryland Historical Trust, Baltimore's Homewood was a wedding gift from Charles Carroll, a signer of the Declaration of Independence, to his son Charles Jr. and his bride Harriet Chew Carroll. Located on 130 acres of rolling meadow and forest, it afforded a picturesque view to the harbor. The couple built a full and genteel establishment, a grand yet intimate summer house that exemplifies the work of the most skilled Baltimore craftsmen of the Federal period. Construction began in 1801 and incorporated a classical five-part Palladian plan with two hyphens flanking the main block and connecting it to two wings or dependencies. Spending far more than his father had anticipated, Charles Jr. used only the finest materials then available and included extraordinary architectural details throughout the house. Homewood endures today as one of the finest examples of Federal period domestic architecture in the United States. Sold by the Carroll family in 1838, the house and grounds eventually became the Homewood campus of the Johns Hopkins University. In 1971, Homewood received National Historic Landmark status and five years later, through the generosity of Robert G. Merrick, an alumnus and university patron who developed a love for Homewood as a student in the 1920s, Johns Hopkins University began a major restoration effort. Today, open to the public as a museum, the house reflects the height of early nineteenth-century style and the tastes of the Carroll family. In a lavishly illustrated yet scholarly study of this exquisite American residence, Catherine Rogers Arthur and Cindy Kelly explore Homewood's history, detailing its construction, reliving the Carroll family's experiences here and recounting the expert restoration that preserves this home for generations to come. The book includes more than one hundred full-color photographs of the house's graceful exterior, its elegant rooms and

furnishings and the many architectural details that have made Homewood so beloved **The Monograph Series, Records of Early American Architecture** ,1924 The Oxford Dictionary of Christian Art and Architecture Tom Devonshire Jones,Linda Murray,Peter Murray,2013-09-26 This dictionary is a fascinating guide to the broad range of terms used in the study of the history of Christian art and architecture including themes artists and movements The long awaited new edition includes entries by over a dozen expert contributors and a fully revised online bibliography bringing it up to date for the 21st century **The American Architect** ,1915 *Elements of Architecture* Asher Benjamin,1843 *Plantation Houses and Mansions of the Old South* J.
