FIRE BRIGADE: U.S. Marines In The Pusan Perimeter [Illustrated Edition] Captain John J. Chapin USMC,2015-11-06 Includes over 30 maps photos and illustrations The Battle of Pusan Perimeter was a large scale battle between United Nations and North Korean forces lasting from August 4 to September 18 1950 It was one of the first major engagements of the Korean War An army of 140 000 UN troops having been pushed to the brink of defeat were rallied to make a final stand against the invading North Korean army 98 000 men strong UN forces having been repeatedly defeated by the advancing North Koreans were forced back to the Pusan Perimeter a 140 mile 230 km defensive line around an area on the southeastern tip of the Korean Peninsula that included the port of Pusan The UN troops consisting mostly of forces from the Republic of Korea ROK United States and United Kingdom mounted a last stand around the perimeter fighting off repeated North Korean attacks for six weeks as they were engaged around the cities of Taegu Masan and Pohang and the Nakdong River The massive North Korean assaults were unsuccessful in forcing the United Nations troops back further from the perimeter despite two major pushes in August and September North Korean troops hampered by supply shortages and massive losses continually staged attacks on UN forces in an attempt to penetrate the perimeter and collapse the line However the UN used the port to amass an overwhelming advantage in troops equipment and logistics and its navy and air forces remained unchallenged by the North Koreans during the fight After six weeks the North Korean force collapsed and retreated in defeat after the UN force launched a counterattack at Inchon on September 15 The battle would be the furthest the North Korean troops would advance in the war as subsequent fighting ground the war into a stalemate

Into the Breach at Pusan Kenneth W. Estes,2012-10-01 In the opening campaign of the Korean War the First Provisional Marine Brigade participated in a massive effort by United States and South Korean forces in 1950 to turn back the North Korean invasion of the Republic of Korea The brigade s actions loom large in marine lore According to most accounts traditional Marine Corps discipline training and fighting spirit saved the day as the marines rescued an unprepared U S Eighth Army which had been pushed back to the Pusan Perimeter at the southeastern tip of the Korean peninsula Historian and retired marine Kenneth W Estes undertakes a fresh investigation of the marines and Eighth Army s fight for Pusan Into the Breach at Pusan corrects discrepancies in earlier works including the official histories to offer a detailed account of the campaign and place it in historical context Drawing on combat records command reports and biographical materials Estes describes the

mobilization organization and operations of First Brigade during the first three months of American participation in the Korean War Focusing on the battalions companies and platoons that faced the hardened soldiers of the North Korean army he brings the reader directly to the battlefield The story he reveals there woven with the voices of soldiers and officers is one of cooperation rather than interservice rivalry At the same time he clarifies differences in the organizational cultures of the U S Army and the Marine Corps Into the Breach at Pusan is scrupulously fair to both the army and the marines Estes sets the record straight in crediting the Eighth Army with saving itself during the Pusan Perimeter campaign but he also affirms that the army s suffering would have been much greater without the crucial timely performance of the First Provisional Marine Brigade

Forgotten Warriors T. X. Hammes, 2020-09-01 When the Korean War broke out in 1950 the Marine Corps was ordered to deploy an air ground brigade in less than ten days even though no such brigade existed at the time Assembled from the woefully understrength 1st Marine Division and 1st Marine Air Wing units the Brigade shipped out only six days after activation sailed directly to Korea was in combat within ninety six hours of landing and despite these enormous handicaps and numerically superior enemy forces won every one of its engagements and helped secure the Pusan Perimeter Despite its remarkable achievements the Brigade s history has largely been lost amid accounts of the sweeping operations that followed Its real history has been replaced by myths that attribute its success to tough training great conditioning unit cohesion and combat experienced officers None of which were true T X Hammes now reveals the real story of the Brigade s success prominently citing the Corps crucial ability to maintain its ethos culture and combat effectiveness during the period between World War II and Korea when its very existence was being challenged By studying the Corps from 1945 to 1950 Hammes shows that it was indeed the culture of the Corps a culture based on remembering its storied history and learning to face modern challenges that was responsible for the Brigade s success The Corps remembered the human factors that made it so successful in past wars notably the ethos of never leaving another marine behind At the same time the Corps demonstrated commendable flexibility in adapting its doctrine and operations to evolutions in modern warfare In particular the Corps overcame the air ground schism that marked the end of World War II to excel at close air support Despite massive budget and manpower cuts the Corps continued to experiment and learn even as it clung to its historical lodestones This approach was validated during the Brigade s trial by fire More than a mere battle history Forgotten Warriors gets to the heart of marine culture to show fighting forces have to both remember and learn As today s armed forces face similar challenges this book confirms that culture as much as technology prepares America s fighting men and women to answer their country s call

Korea Four and a half months later after surviving heavy attacks on the Pusan Perimeter and in one of the forward units of the western column advancing on the Yalu River he was captured by the Chinese infantry Moore and other American POWs suffered from starvation rations bitter cold and mental torment Although the intense Chinese efforts to change the prisoners ideologies were largely unsuccessful they were very effective in engendering distrust among the prisoners and abandonment of duty by the officers Encouraged by an American sergeant Moore worked with his captors to obtain better sanitation a fairer distribution of food and on two occasions medicine for the sick Twice he tried to escape from imprisonment Just four days after his twenty first birthday in 1953 the Chinese released him Moore cooperated fully with US military interrogators giving as much information as he could on the prison camp and the methods his captors had used But two years later army officers arrested him at his home and charged him with treason Although the charge was dropped and a Field Board of Inquiry returned him to regular duty the army s treatment of him left Moore further traumatized He eventually went AWOL and turned to drinking gambling and other self destructive behaviors Military historian Judith Fenner Gentry has worked with Moore s memoirs of his experiences during and after the war to corroborate clarify elaborate and situate his story within the larger events in Korea and in the Cold War She has consulted records from courts martial newspaper interviews with returning POWs and Freedom of Information Act documents on the Army Criminal Investigation Division and the Army Counter Intelligence Corps

Cold Days in Hell William Clark Latham, 2013-01-31 Prisoners suffer in every conflict but American servicemen captured during the Korean War faced a unique ordeal Like prisoners in other wars these men endured harsh conditions and brutal mistreatment at the hands of their captors In Korea however they faced something new a deliberate enemy program of indoctrination and coercion designed to manipulate them for propaganda purposes Most Americans rejected their captors promise of a Marxist paradise yet after the cease fire in 1953 American prisoners came home to face a second wave of attacks Exploiting popular American fears of communist infiltration critics portrayed the returning prisoners as weak willed pawns who had been brainwashed into betraying their country The truth was far more complicated Following the North Korean assault on the Republic of Korea in June of 1950 the invaders captured more than a thousand American soldiers and brutally executed hundreds more American prisoners who survived their initial moments of captivity faced months of neglect starvation and brutal treatment as their captors marched them north toward prison camps in the Yalu River Valley Counterattacks by United Nations forces soon drove the North Koreans back across the 38th Parallel but the unexpected intervention of Communist Chinese forces in November of 1950 led to the capture of several thousand more American prisoners Neither the North Koreans nor their Chinese allies were prepared to house or feed the thousands of prisoners in their custody and half of the Americans captured that winter perished for lack of food shelter and medicine Subsequent communist efforts to indoctrinate and coerce propaganda statements from their prisoners sowed suspicion and doubt among those who survived Relying on memoirs trial transcripts debriefings declassified government reports published

analysis and media coverage plus conversations interviews and correspondence with several dozen former prisoners William Clark Latham Jr seeks to correct misperceptions that still linger six decades after the prisoners came home Through careful research and solid historical narrative Cold Days in Hell provides a detailed account of their captivity and offers valuable insights into an ongoing issue the conduct of prisoners in the hands of enemy captors and the rules that should govern their treatment

A Korean War Odyssey Tom Gormley,2020-01-20 The picture of the young soldier with the ears sticking out graced my mother in law s kitchen forever When asked she would reply that her younger brother Donnie disappeared during the Korean War at the tender age of eighteen In 2010 my wife Sandy and I set out to discover what happened to Corporal Donald Matney and to bring him home Our journey took us to Washington DC Seoul Korea and many places in between But slowly carefully step by step we reconstructed the short life of Sandy s uncle Donnie identified his remains and returned him to rest by his mother s side in Missouri A Korean War Odyssey is this story The saga begins with a Korean history lesson told through the eyes of a fictional young refugee family fleeing the North Korean invasion It continues from the viewpoint of a soldier on occupation duty in Japan suddenly thrust into a violent police action Both witness the atrocities of war until one disappears Through alternating perspectives the account continues weaving what happened during the war with how we identified this missing young soldier and brought him home A Korean War Odyssey provides much needed insight for today s headlines Those with friends and relatives lost during the Forgotten War will learn what may have happened Anyone who desires to understand the Korean War and why the US still has a presence on this Asian peninsula today will gain a new viewpoint

MacArthur's Korean War Generals Stephen R. Taaffe,2016-03-14 Wedged chronologically between World War II and Vietnam the Korean War which began with North Korea s invasion of South Korea in June of 1950 possessed neither the virtuous triumphalism of the former nor the tragic pathos of the latter Most Americans supported defending South Korea but there was considerable controversy during the war as to the best means to do so and the question was at least as exasperating for American army officers as it was for the general public A longtime historian of American military leadership in the crucible of war Stephen R Taaffe takes a close critical look at how the highest ranking field commanders of the Eighth Army acquitted themselves in the first decisive year in Korea Because an army is no better than its leadership his analysis opens a new perspective on the army s performance in Korea and on the conduct of the war itself In that first year the Eighth Army s leadership ran the gamut from impressive to lackluster a surprising unevenness since so many of the high ranking officers had been battle tested in World War II Taaffe attributes these leadership difficulties to the army s woefully unprepared state at the war s start army personnel policies and General Douglas MacArthur s corrosive habit of manipulating his subordinates and pitting them against each other He explores the personalities at play their pre war experiences the manner of their selection their accomplishments and failures and of course their individual relationships with each other and MacArthur By explaining who these field corps and division commanders were Taaffe exposes the army s

institutional and organizational problems that contributed to its up and down fortunes in Korea in 1950-1951. Providing a better understanding of MacArthur's controversial generalship, Taaffe's book offers new and invaluable insight into the army's life and death struggle in America's least understood conflict. **US Army Forces in the Korean War 1950-53** Donald Boose, 2013-02-20. When North Korea attacked the South on June 25, 1950, United States forces in East Asia were under the command of General Douglas MacArthur, whose largest ground force was the Eighth US Army. This army fought a tenacious defense of South Korea, counterattacked north to the Yalu River with the separate X Corps, before falling back in the face of massive Chinese intervention. It conducted a war of movement and settled into a bloody two-year-long period of static warfare. This title examines the combat mission, organization, and evolution of the Eighth US Army in Korea and its 300,000 US ground forces through highly detailed orders of battle, tables of organization and equipment, and examinations of crucial aspects such as doctrine, training, and tactics. **U.S. Marines in the Korean War** Charles Richard Smith, 2007. Contains the anthology of publications formerly compiled by the History and Museums Division during the 50th anniversary commemoration of the Korean Conflict, 1950-1953. Focus of the articles is to remember those Marines who fought and died in the forgotten war.
