Fighting With The Guards:

The Fighting Man's Guide to German Longsword Combat Michael G. Thomas, 2008 **The Fighting Coast Guard** Mark A. Snell, 2022-12-09 This collection of essays written by some of the foremost historians in the field of Coast Guard history highlights the wartime roles played by the United States oldest federal maritime service from its inception through the last decade of the twentieth century The Fighting Coast Guard features three distinct sections Beginnings which includes a short overview of the US Revenue Cutter Service the USCG's primary forerunner established in 1790 and two chapters on World War I Conflagration the role of the USCG during the World War II era and The Cold War and Beyond an assessment of the Coast Guard's participation in the Korean Conflict the Vietnam War and the Persian Gulf War of 1991 The Fighting Coast Guard is a significant contribution to the limited historiography of the Coast Guard and a critical analysis of various wartime roles undertaken by the Coast Guard during America's twentieth century conflicts Because the Coast Guard operated as part of the Department of the Navy during the two world wars its service and history is often overlooked or enveloped by the larger service while the USCG's limited participation in cold and hot wars since 1945 is often ignored altogether This anthology provides readers with a solid overview while highlighting some of the service's most important contributions as a combatant force This definitive study of the role of the US Coast Guard in wartime from its modern inception in 1915 through the end of the twentieth century is long overdue and will shed new light on America's smallest military service [The History of The American Expedition Fighting The Bolsheviks Campaigning In North Russia 1918-1919](#) Joel Roscoe Moore, Harry H. Mead, Lewis E. Jahns, 2023-10-01 The History of the American Expedition Fighting the Bolsheviks Campaigning in North Russia 1918-1919 by Joel Roscoe Moore Harry H Mead Lewis E Jahns Uncover a lesser known chapter of history as Joel Roscoe Moore Harry H Mead and Lewis E Jahns offer a comprehensive account of the American military intervention in North Russia during the Russian Civil War shedding light on a pivotal moment in international relations Key points Detailed historical narrative chronicling the American expedition's involvement in the Russian Civil War providing valuable insights into the motivations challenges and consequences of the intervention Meticulously researched and well documented drawing from official records personal accounts and archival materials to present a comprehensive and balanced perspective Explores the geopolitical dynamics military strategies and human experiences of the American soldiers deployed in North Russia offering a nuanced understanding of this often overlooked period in history The History of the American Expedition Fighting the Bolsheviks Campaigning in North Russia 1918-1919 is a comprehensive historical account edited by Joel Roscoe Moore Harry H Mead and Lewis E Jahns This book offers firsthand narratives and detailed analyses of the American intervention in the Russian Civil War shedding light on the complexities and consequences of this pivotal period in history **We Are Fighting the World** Gary Kynoch, 2005-01-01 Since the late 1940s a violent African criminal society known as the Marashea has operated in and around South Africa's gold mining areas With thousands of members

involved in drug smuggling extortion and kidnapping the Marashea was more influential in the day to day lives of many black South Africans under apartheid than were agents of the state These gangs remain active in South Africa In *We Are Fighting the World A History of the Marashea Gangs in South Africa 1947-1999* Gary Kynoch points to the combination of coercive force and administrative weakness that characterized the apartheid state As long as crime and violence were contained within black townships and did not threaten adjacent white areas township residents were largely left to fend for themselves The Marashea's ability to prosper during the apartheid era and its involvement in political conflict led directly to the violent crime epidemic that today plagues South Africa Highly readable and solidly researched *We Are Fighting the World* is critical to an understanding of South African society past and present This pioneering study challenges previous social history research on resistance ethnicity urban spaces and gender in South Africa Kynoch's interviews with many current and former gang members give *We Are Fighting the World* an energy and a realism that are unparalleled in any other published work on gang violence in southern Africa

KING WILLIAM BROWN John Cotter, 2014-06-28 I wrote this story after many years of walking long roads and a lot of hard thinking as to how I was going to put all the words that were floating around in my head down on to paper But then I thought of a town that was there many years ago But its changed now which is near where I live King Williams Town Then I decided to start the story by calling it King William Brown I thought more and more and I put it all together But this book couldn't have been possible without all the long hours and all the hard work that my eldest son put into the book to make the book complete

The Battle of Moscow 1941-1942 Soviet General Staff, 2015-06-19 The Battle of Moscow 1941-1942 The Red Army's Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler's Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title *Razgrom Nemetskikh Voisk pod Moskvoy* The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff's military historical section which was charged with collecting and analyzing the war's experience and disseminating it to the army's higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front's defensive operations along the Moscow direction during Army Group Center's final push toward the capital in November-December 1941 The study pays particular attention to the Red Army's resistance to the Germans' attempts to outflank Moscow from the north Equally important were the defensive operations to the south of Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army's counteroffensive which was aimed at pushing back the German

pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans Rzhev Vyazma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study **Black Belt**, 2000-12 The oldest and most respected martial arts title in the industry this popular monthly magazine addresses the needs of martial artists of all levels by providing them with information about every style of self defense in the world including techniques and strategies In addition Black Belt produces and markets over 75 martial arts oriented books and videos including many about the works of Bruce Lee the best known martial arts figure in the world Rollback Richard Harrison, 2016-01-19 Rollback The Red Army's Winter Offensive along the Southwestern Strategic Direction 1942-43 covers the period from mid December 1942 to mid February 1943 one of the most critical periods of the war on the Eastern Front It was here that following the encirclement of an entire German army at Stalingrad the Soviets sought to take advantage of the ruptured Axis front in southern Russia to finish off the Germans Italian and Hungarian allies and liberate the economically vital areas of eastern Ukraine This study is drawn from a number of wartime and postwar articles published by the General Staff's directorate for the study of wartime experience Also featured are documents relating to the operational strategic conduct of the various operations which were compiled and published after the fall of the Soviet Union Several articles deal with the preparation for and conduct of the Southwestern Front's Middle Don operation of December 1942 Originally intended as an ambitious offensive to cut off the German forces in the North Caucasus by driving on to Rostov the operation was later reoriented to meet the threat of the German effort to relieve Stalingrad The offensive not only accomplished its objective of turning back the German attack thus dooming the Stalingrad garrison but also destroyed the Italian army in the East as well The Soviet Voronezh Front then struck further up the Don River and in the Ostrogozhsk Rossosh operation destroyed what remained of the Italian forces in the area as well as the Hungarian army This enabled the Red Army to capture Khar'kov and push nearly to the Dnepr River by mid February before being thrown back by a skillful German counteroffensive The territorial results of this operation set the stage for the front's subsequent Voronezh Kastornoe operation which enabled the Soviets to push as far west as Kursk before exhaustion and growing German resistance brought the offensive to a halt Further to the south the Soviets were able to capture Voroshilovgrad and penetrate into the industrial Donetsk Basin The book also contains a detailed Soviet examination of the employment of tank and mechanized corps during the campaign The conclusions reached here had a direct bearing on the restructuring of the Red Army's tank armies in time for the summer campaign of 1943 *Operation Bagration, 23 June-29 August 1944*, 2016-12-22 The Rout of the German Fascist Troops in Belorussia in 1944 covers the Red

Army's Belorussian strategic operation the linchpin of the 10 major Soviet offensive efforts launched that year to clear the country of the invader. During the course of this operation the German position along the western strategic direction was destroyed and the stage was set for an advance into Poland and Germany. The success of this operation also set the stage for the Red Army's subsequent advance into the Baltic and South Eastern Europe. Like most works generated by the General Staff the Belorussian study divides the operation into two parts: preparation and conduct. The first deals with the massive efforts by the First Baltic and the First Second and Third Belorussian Fronts to accumulate the men and materiel to break through the German defenses in the swampy and forested terrain of Belorussia. This section contains valuable information on the overall correlation of forces, equipment and troops densities along the breakthrough sectors and Soviet plans for supplying the offensive as well as detailed information regarding the employment of the various combat arms. The second part deals with the actual conduct of the several front operations that comprised the overall effort. This section covers the initial breakthrough battles and the encirclement of the Vitebsk and Bobruisk garrisons followed by the capture of Minsk and the encirclement of sizeable German forces east of the city. The narrative then continues with the follow-on operations to cut off German forces in the Baltic States and to seize crossings over the Vistula River in Eastern Poland. Compiled and written by professional staff officers, this study provides a detailed look at the conduct of one of the major operations of the Second World War. This latest work along with other studies in this series offers another insight into the Red Army's conduct of the war at the operational strategic level.
