Fighting Words Writing About Race:

Violence and Colonial Dialogue Tracey Banivanua Mar, 2006-12-31 During the post abolition period a trade in cheap and often cost neutral labor flourished in the western Pacific For more than forty years it supplied tens of thousands of indentured laborers to the sugar industry of northeastern Australia Violence and Colonial Dialogue tells the story of its impact on the people who were traded From the beaches and shallows of the Pacific s frontiers to the plantations and settlements of Queensland and beyond a collective tale of the pioneers of today s Australian South Sea Island community is told through an abundant and effective use of materials that characterize the colonial record including police registers court records prison censuses administrative reports legislative debates and oral histories With a thematic focus on the physical violence that was central to the experience of people who were voluntarily or involuntarily recruited the history that emerges is a powerful tale that is at once both tragic and triumphant Violence and Colonial Dialogue also tells a more universal story of colonization Set mostly in the British settler colony of Queensland during the last forty years of the nineteenth century it explores the brutality embedded in the structures of a colonial state while attempting to recover the stories that such processes obscured

Race Riots & Resistance Jan Voogd, 2008 Race Riots and Resistance uncovers a long hidden tragic chapter of American history Focusing on the Red Summer of 1919 in which black communities were targeted by white mobs the book examines the contexts out of which white racial violence arose It shows how the riots transcended any particularity of cause and in doing so calls into question many longstanding beliefs about racial violence The book goes on to portray the riots as a phenomenon documenting the number of incidents describing the events in detail and analyzing the patterns that emerge from looking at the riots collectively Finally and significantly Race Riots and Resistance argues that the response to the riots marked an early stage of what came to be known as the Civil Rights Movement

Fighting Words Raymond Evans, 1999 With an open heart and inquiring intellect Raymond Evans sets out to uncover a past not studied in the school books of his youth Growing up in the 1950s he lived in a community devoid of Aboriginal presence It was an enclave of Welsh migrant families with all the rituals and traditions of a faraway Home His evolving historical consciousness was fired by the need to connect with these shadowy absences and to engage with his adopted homeland Interwoven with his personal journey is a revealing selection of race relations histories which cover a wide arena from the Aboriginal European conflicts of colonial Queensland to the anti Chinese riots of 1888 and civilian internment during World War I Evans also moves beyond frontier conflict into the long period of repressive government control of Aboriginal lives In writing on race gender and labour relations he illustrates how selective history can be by omitting the contribution of Aboriginal labourers men and women These form a critical bridge to understanding the complexities of race relations today

Genocide and Settler Society A. Dirk Moses, 2005-03-01 Colonial Genocide has been seen increasingly as a stepping stone to the European genocides of the twentieth century yet it remains an under researched phenomenon This volume reconstructs instances of

Australian genocide and for the first time places them in a global context Beginning with the arrival of the British in 1788 and extending to the 1960s the authors identify the moments of radicalization and the escalation of British violence and ethnic engineering aimed at the Indigenous populations while carefully distinguishing between local massacres cultural genocide and genocide itself These essays reflect a growing concern with the nature of settler society in Australia and in particular with the fate of the tens of thousands of children who were forcibly taken away from their Aboriginal families by state agencies Long considered a relatively peaceful settlement Australian society contained many of the pathologies that led to the exterminatory and eugenic policies of twentieth century Europe Broken Circles Anna Haebich,2000-11-01 This major work reveals the dark heart of the history of the Stolen Generations in Australia It shows that from the earliest times of European colonization Aboriginal Australians experienced the trauma of loss and separation as their children were abducted enslaved institutionalized and culturally remodeled Providing a moving and comprehensive account of this tragic history this study covers all Australian colonies states and territories The analysis spans 200 years of white occupation and intervention from the earliest seizure of Aboriginal children through their systematic state removal and incarceration and on to the harsh treatment of families under the assimilation policies of the 1950s and 1960s The resistance struggle and achievements of Aboriginal people in defending their communities regaining their rights and mending the broken circles of family life provides a compelling parallel story of determination and courage Book Review Fighting Words, Writing about Race by Raymond Evans Gordon Briscoe,1999 Book review Men and Manliness on the Frontier R. Hogg,2012-11-14 In mid nineteenth century Britain there existed a dominant discourse on what it meant to be a man denoted by the term manliness Based on the sociological work of R W Connell and others who argue that gender is performative Robert Hogg asks how British men performed manliness on the colonial frontiers of Queensland and British Columbia **Empire, Colony, Genocide** A. Dirk Moses,2008-06-01 In 1944 Raphael Lemkin coined the term genocide to describe a foreign occupation that destroyed or permanently crippled a subject population In this tradition Empire Colony Genocide embeds genocide in the epochal geopolitical transformations of the past 500 years the European colonization of the globe the rise and fall of the continental land empires violent decolonization and the formation of nation states It thereby challenges the customary focus on twentieth century mass crimes and shows that genocide and ethnic cleansing have been intrinsic to imperial expansion The complexity of the colonial encounter is reflected in the contrast between the insurgent identities and genocidal strategies that subaltern peoples sometimes developed to expel the occupiers and those local elites and creole groups that the occupiers sought to co opt Presenting case studies on the Americas Australia Africa Asia the Ottoman Empire Imperial Russia and the Nazi Third Reich leading authorities examine the colonial dimension of the genocide concept as well as the imperial systems and discourses that enabled conquest Empire Colony Genocide is a world history of genocide that highlights what Lemkin called the role of the human group and its tribulations *Jewish Identity in Western Pop Culture* J.

Civilian-Driven Violence and the Genocide of Indigenous Peoples in Settler Societies

Mohamed Adhikari, 2021-07-12 Existing studies of settler colonial genocides explicitly consider the roles of metropolitan and colonial states and their military forces in the perpetration of exterminatory violence in settler colonial situations yet rarely pay specific attention to the dynamics around civilian driven mass violence against indigenous peoples In many cases however civilians were major if not the main perpetrators of such violence The focus of this book is thus on the role of civilians as perpetrators of exterminatory violence and on those elements within settler colonial situations that promoted mass violence on their part

Among Australia's Pioneers

Margaret Slocomb, 2014-07-25 The almost simultaneous abolition of the slave trade and the cessation of convict transportation to the colony of New South Wales now eastern mainland Australia started a quest by the squatter pastoralists for alternative sources of cheap labor for their vast sheep runs Over a period of five years beginning from 1848 around three thousand Chinese men and boys from Fujian Province were recruited under conditions little different from the slave trade In *Among Australia's Pioneers* author Margaret Slocomb focuses on the experiences of approximately two hundred of these Chinese laborers between 1848 and 1853 Her research examines their working conditions during the five year indenture period and also traces the lives of several of the men who at the end of their contract chose to remain in those districts which by then had become familiar to them Perhaps they regarded themselves as pioneer immigrants Slocomb recounts the experiences of these men on the dangerous northern frontier of European settlement While some succumbed to the despair and loneliness of a shepherd's life others survived their indenture and went on to play an important role in the emerging society of the new colony of Queensland They may certainly be counted among the nation's pioneers

Peace Psychology in Australia

Diane Bretherton, Nikola Balvin, 2012-01-16 This book is a case study of the development of peace psychology in Australia While there is in comparison to other countries relatively little overt violence Australia the nation was founded on the dispossession of Indigenous people and their oppression continues today Peace Psychology in Australia covers the most significant issues of peace and conflict in the country It begins with a review of conflict resolution practices among Australia's ancient Indigenous cultures and succinctly captures topics of peace and conflict which the country has faced in the past 222 years since British settlement The fast population growth thriving multiculturalism leadership in international affairs and environmental isolation make Australia a microcosm for the study of human conflicts and peace movements

The Aboriginal People, Parliament and "protection" in New South Wales, 1856-1916 Anna Doukakis, 2006 This lecture describes South Africa's current attempts to accommodate
