The Rise & Fall of the Mounted Knight Clive Hart, 2023-01-05 The medieval mounted knight was a fearsome weapon of war captivating and horrifying in equal measure they are a continuing source of fascination They have been both held up as a paragon of chivalry whilst often being condemned as oppressive and violent Occupying a unique place in history knights on their warhorses are an enigma hidden behind their metal armor and seemingly unreachable on their steeds This book seeks to understand the

world of the medieval knight by studying their origins their accomplishments and their eventual decline Forged in the death throes of the Roman Empire the mounted knight found a place in a harsh and dangerous world where their skills and mentality carved them into history From the First Crusade to the fields of Scotland knights could be found and their human side is examined to see how these men came to both rule Europe and ride into enduring legend The challenges facing the mounted knight were vast and deadly from increasingly professional and competent infantry forces to gunpowder the rise of political unity and the crunch of finance The factors which forced the knight into the past help to define who and what they were as well as the legacy that they have left indelibly imprinted on the world The standout feature of this book is the focus on the equine half of the partnership from an author who practices the arts of horsemanship on a daily basis including combat with sword and lance The psychology of the horse refined by the experience of actually training warhorses has helped the author to add to the body of academic work on the subject This insight opens up the world of the mounted knight and importantly and uniquely challenges the perception of what he and his horse could really do *The Sapling Cage* Margaret Killjoy,2024-09-24 In the gripping first novel in the Daughters of the Empty Throne trilogy author Margaret Killjoy spins a tale of earth magic power struggle and self invention in an own voices story of trans witchcraft Lorel has always dreamed of becoming a witch learning magic fighting monsters and exploring the world beyond the small town where she and her mother run the stables Even though a strange plague is killing the trees in the Kingdom of Cekon and witches are being blamed for it Lorel wants nothing more than to join them There s only one problem all witches are women and she was born a boy When the coven comes to claim her best friend Lorel disguises herself in a dress and joins in her friend s place leaving home and her old self behind She soon discovers the dark powers threatening the kingdom a magical blight scars the land and the power mad Duchess Helte is crushing everything between her and the crown In spite of these dangers Lorel makes friends and begins learning magic from the powerful witches in her coven However she fears that her new friends and mentors will find out her secret and kick her out of the coven or worse *The Knight's Bride* Tracie Peterson,Dianne Christner,Pamela Griffin,Yvonne Lehman (Deceased),Jill Stengl,2015-11-01 Take six romantic adventures back in time to the Middle Ages along with five authors including Tracie Peterson who tell the stories of couples challenged by the injustices of their times Some couples are pulled apart by wars and feuds while others have their futures determined by their oppressors Can a faith be found to keep hope alive and give joy in all circumstances **The Strange Adventure of a Broke Mercenary (Light Novel) Vol. 5** Mine,Peroshi,2022-06-30 Despite Loren s seemingly unending string of losses the adventurers guild has noticed his promise They offer him a chance to take a test to prove his mettle and raise his rank The only complication is that he s also caught the attention of a young woman of strange abilities a vampire Even stranger she s not the only one of her kind eyeing Loren and some of them may have a connection with the long lost captain of his old mercenary company Medieval Armies and Weapons in Western Europe Jean-Denis G.G. Lepage,2015-03-20 The Middle

Ages are commonly divided into three periods early high or central and late Each period was marked by its own crises and wars and the weapons and fighters reflected the technological and other advancements being made This book is a richly illustrated history of warfare in Western Europe during those years Part One the early Middle Ages covers the late Romans the Germanic invaders and Byzantines the Franks the Vikings and Hungarians and the Anglo Saxons and Normans in England Part Two the high or central Middle Ages considers the feudal system knights and chivalry knights at war infantrymen land warfare siege and naval warfare crusades in Palestine templars and hospitalers the Reconquista in Spain and the Teutonic knights Part Three the late Middle Ages discusses the evolution of new types of armor and weapons the Hundred Years War mercenaries and firearms
