*Making an Entrance* Juliane Vogel, 2022-10-03 How does the entrance of a character on the tragic stage affect their visibility and presence Beginning with the court culture of the seventeenth century and ending with Nietzsche's Dionysian theater this monograph explores specific modes of entering the stage and the conditions that make them successful or cause them to fail The study argues that tragic entrances ultimately always remain incomplete that the step figures take into visibility invariably remains precarious Through close readings of texts by Racine Goethe and Kleist among others it shows that entrances promise both triumph and tragic exposure though they appear to be expressions of sovereignty they are always simultaneously threatened by failure or annihilation With this analysis the book thus opens up possibilities for a new theory of dramatic form one that begins not with the plot itself but with the stage entrance that structures how characters appear and thus determines how the plot advances By reflecting on acts of entering this book addresses not only scholars of literature theater media and art but anyone concerned with what it means to appear and be present

Structural Phenomenology Steven Ravett Brown, 2005 This book represents a major step forward in the philosophy of mind Steven Ravett Brown makes an important contribution to the field of naturalized phenomenology by developing a structural phenomenology model based on contemporary studies of gestalts and attention This model clearly and explicitly brings scientific data to bear upon the nature of conscious experience Synthesizing empirical data from several fields Brown provides a phenomenological analysis of structural components of intentionality a reconsideration of functional processes of gestalts and a reformulation and indepth analysis of higher order processing and the tip of the tongue meta cognitive phenomenon The unique importance of this book lies in its providing an explanatory tool that can predict as well as elucidate mental phenomena It demands attention from all philosophers psychologists and neuroscientists engaged in research into the mental
