narrative analysis to unpack the deeper meaning of Rome's stigmatized periphery through an interplay of Italian cinema literature and social and political climates. It encourages a positive interpretation of the Roman periphery through its characterization as a homogeneous area of marginality as emphasized in Pasolini's writings and films on Rome. This re-evaluation left a lasting impact on the modern periphery and the narratives of ordinary citizens as evident in contemporary street art and popular musical production. Pasolini's revolutionary vision allows us to appreciate the human and aesthetic character of urban life in regions beyond the main urban areas. The respect for subaltern urban communities encouraged by this book can be extended from Rome to other parts of the world. This book presents an interconnection of social theory geography poetry literature film and the visual arts to study the experience of life in underprivileged urban areas. Written in an accessible style, the book offers a reimagining of the Roman periphery which will appeal to readers in France Spain Italy Australia areas which have significant interest in Italian studies and the works of Pasolini.
