**The Magazine: The Complete Archives** Glenn Fleishman, 2015-08-12 This ebook collects the nearly 300 stories that first appeared in *The Magazine*, an independent biweekly periodical for narrative non-fiction. It covers researchers crying wolf, learning to emulate animal sounds, DIY medical gear, making prosthetics, and other tools available more cheaply, and to the developing world, a fever in Japan that leads to a new friendship, saving seeds to save the past, the plan to build a giant Lava Lamp in eastern Oregon, Portland's unicycle riding, Darth Vader mask wearing, flaming bagpipe player, a hidden library at MIT that contains one of the most extensive troves of science fiction and fantasy novels and magazines in the world, and far, far more.

**Exploring Space: 1999** John Kenneth Muir, 2015-09-15 Starring internationally renowned actors Martin Landau, Barbara Bain, Barry Morse, and Catherine Schell, the British-made *Space: 1999* was the only truly original space adventure of the mid-1970s. Sandwiched between the demise of the original *Star Trek* and the opening of the *Star Wars* series on the big screen, *Space: 1999* featured a richly visualized world where space was terrifying and mysterious, where not all problems were solvable by technology, and the space travelers were very human. From the science fiction show's conception in 1973 to its cancellation in 1977, this reference work covers each of the 48 episodes in depth, including a full plot synopsis, writer/director guest star credits, and critical commentary that examines both the episode and other shows that have used similar plotlines. The popularity of *Space: 1999* memorabilia and its many fan clubs are fully discussed, along with the possibility of a future movie or reunion show that would tie up the loose ends caused by the show's abrupt cancellation. *Library Journal*, 2004
