Filipino Values for Winning Success Tomas Quintin D. Andres,1989      **People Empowerment by Filipino Values**  
Tomas Donato Andres,1998      **Work Values of Successful Filipinos** F. Landa Jocano,2000      **Values in Philippine Culture and Education** Manuel B. Dy,1994      E. J. R. David, Ph.d.,2011-01 There are over 92 million Filipinos in the Philippines where the legacies of Western colonialism continue to exist and propagate the message that anything Filipino is inferior to anything American or Western Thus many Filipinos dream of immigrating to various Western countries mostly to the United States Today Filipinos have the second highest yearly immigration rate into the United States and compose the second largest immigrant group in the country Also Filipinos in America number over 3 million making them the second largest Asian American ethnic group in the country Not surprisingly there has been increased attention on the experiences of Filipinos and Filipino Americans as minorities and immigrants as well as toward better understanding their identity cultural values and mental health However given the conditions of postcolonial Philippines and the contemporary experiences of oppression by Filipinos in America one cannot completely and accurately understand the minority immigrant and psychological experiences of this group outside the context of colonialism and contemporary oppression Thus this text focuses on the psychological effects of historical colonialism and contemporary oppression among Filipinos and Filipino Americans It takes the reader from indigenous Tao culture Spanish and American colonialism colonial mentality or internalized oppression along with its implications on Kapwa identity and mental health to decolonization in the clinical community and research settings This book is a multidisciplinary and empirical approach to Filipino and Filipino American psychology It is intended for the entire community teachers researchers students and service providers interested in or who are working with Filipinos and Filipino Americans or those who are interested in the psychological consequences of colonialism and oppression This book may serve as a tool for remembering the past and as a tool for awakening to address the present      *Quality Management by Filipino Values* Tomas Quintin D. Andres,1989      *Indomitable Canadian Filipinos* Eleanor R. Laquian,2023-03-20 In the 70 year history of Filipino migration to Canada their number has increased from 770 in 1964 to about a million in 2021 Yet no book has been written and published in Canada about the Filipino community in its entirety This book fills that vacuum The first major wave of primarily professional Filipino immigrants mostly nurses doctors and other healthcare professionals arrived in the 1960s from the U S They came to renew their U S visas but decided to stay They were admitted on Canada s merit based point system The succeeding waves of Filipino immigrants came mainly through the government s Live in Caregiver Program the Temporary Foreign Workers Program and the Family Reunification program where requirements for education and technical skills were less demanding These immigrant programs with racist undertone brought them to Canada mainly to do work that most Canadians did not like to do They felt they were needed as temporary workers but not as citizens These immigrants were driven to accept these undesirable jobs to escape from poverty

and turmoil back home in the hope of achieving a better future in Canada for their children They came in the prime of life trained and competent to take on whatever job they could get to survive And they toiled away quietly minding their own business raising their children as best as they could while instilling in them the value of good education But Filipinos are an indomitable lot and can't be kept down for long In the last two decades a new breed of notable young Filipinos has emerged from the shadows and into the light This book tells how a million Filipino immigrants turned hardships into opportunities and a better life in Canada for their children This is their contemporary history This is not a mere collection of published articles It is an ongoing narrative linking chapters from Introduction to Conclusion by academicians researchers journalists and essayists who provide the necessary in depth theorizing and analyzing of the 70 year history of Filipino immigration to Canada

**Business Ethics in Theory and Practice** Patricia Werhane,Alan E. Singer,2013-04-17 This book originated in a symposium on business ethics that took place in the Faculty of Commerce at the University of Canterbury in September of 1997 Professor Werhane who was a visiting Erskine Fellow provided the keynote address and many of the papers in this collection were originally presented at this symposium We are grateful to Kluwer Publishers for the opportunity to publish these essays in their series on International Business Ethics We want to thank the Olsson Center for Applied Ethics at the Darden School University of Virginia and the Erskine Trust and the Department of Management at the University of

Canterbury for their support of Professor Werhane's fellowship research for this text and funding for its production. We especially want to thank Lisa Spiro who copy edited and prepared the manuscript for publication.

## INTRODUCTION AND OVERVIEW

This book originated in a symposium on business ethics that took place in the faculty of commerce at the University of Canterbury in September 1997. Professor Werhane, who was a visiting Erskine Fellow, provided the keynote address. Contributions to the proceedings were interdisciplinary, spanning theory and practice. Subsequent contributions were obtained from within New Zealand and from Asia. The book starts off on rather a pessimistic note: the new managerialism, the kind of thing Scott Adams jokes about in the world famous Dilbert cartoons, is economically suspect and psychologically damaging.
