Filmguide To 8 1 2:

Filmguide to 8 1/2 Ted Perry,1975 Eight and a Half (Otto e mezzo) D. A. Miller,2022-03-24 Federico Fellini's masterpiece 8 1 2 *Otto e mezzo* shocked audiences around the world when it was released in 1963 by its sheer auteurist gall. The hero a film director named Guido Anselmi seemed to be Fellini's mirror image and the story to reflect the making of 8 1 2 itself. Whether attacked for self-indulgence or extolled for self-consciousness 8 1 2 became the paradigm of personal filmmaking and numerous directors including Fassbinder Truffaut Scorsese Bob Fosse and Bruce LaBruce paid homage to the film and its themes of personal and creative ennui in their own work. Now that 8 1 2's conceit is less shocking D. A. Miller argues we can see more clearly how tentative even timid Fellini's ground-breaking incarnation always was. Guido is a perfect blank or is trying his best to seem one. By his own admission he doesn't even have an artistic or social statement to offer. I have nothing to say but I want to say it anyway. 8 1 2's deepest commitment is not to this man who is never quite all there or to his message which is lacking entirely but to its own flamboyant manner. The enduring timeliness of 8 1 2 lies. Miller suggests in its aggressive shirking of the shame that falls on the man and the artist who fails his appointed social responsibilities.

The Cinema of Federico Fellini Peter Bondanella,2021-01-12 This major artistic biography of Federico Fellini shows how his exuberant imagination has been shaped by popular culture literature and his encounter with the ideas of C. G. Jung especially Jungian dream interpretation. Covering Fellini's entire career the book links his mature accomplishments to his first employment as a cartoonist gagman and sketch artist during the Fascist era and his development as a leading neo-realist scriptwriter. Peter Bondanella thoroughly explores key Fellinian themes to reveal the director's growth not only as an artistic master of the visual image but also as an astute interpreter of culture and politics. Throughout the book Bondanella draws on a new archive of several dozen manuscripts obtained from Fellini and his scriptwriters. These previously unexamined documents allow a comprehensive treatment of Fellini's important part in the rise of Italian neorealism and the even more decisive role that he played in the evolution of Italian cinema beyond neorealism in the 1950s. By probing Fellini's recurring themes Bondanella reinterprets the visual qualities of the director's body of work and also discloses in the films a critical and intellectual vitality often hidden by Fellini's reputation as a storyteller and entertainer. After two chapters on Fellini's precinematic career the book covers all the films to date in analytical chapters arranged by topic: Fellini and his growth beyond his neorealist apprenticeship dreams and metacinema literature and cinema; Fellini and politics; Fellini and the image of women; and *La voce della luna* and the cinema of poetry.

National Library of Medicine Audiovisuals Catalog National Library of Medicine (U.S.),1988 *Austrian Cinema* Robert von Dassanowsky,2007-11-01 Austria the multicultural crossroad of the European continent has been the genesis of many artistic concepts. Just as late 19th and early 20th century Austria gave influential modernism to the world in the fields of medicine urban planning architecture design literature music and theater so its film industry created a significant national cinema that

seeded talents and concepts internationally Nevertheless the value of Austrian cinema to international film has been long obscured Austria s important bond with American film is also underappreciated because of the lack of accessible English language scholarship on the early careers of Austro Hollywood artists and on influential developments in Austrian film history This first comprehensive English survey of Austrian film introduces more than a century of cinema following the development of the industry chronologically through the nation s various transformations since 1895 Important industry movements genres and films are highlighted with sociopolitical cultural and aesthetic details An analysis of the economic trends that have influenced Austrian film is also provided The survey considers the directors actors producers writers cinematographers editors composers and other film artists who have been essential to the development and influence of Austrian cinema The closing chapter anticipates new faces of the Austrian film industry in the 21st century

Film And Television In Education Robert Watson, 2003-09-02 First published in 1990 The aim of the series is to define and defend a comprehensive aesthetic both theoretical and practical for the teaching of the arts There can be little doubt that of the six great arts which the Library of Aesthetic Education is committed to defending and defining film has been the most ignored in the curriculum of our schools There is a grand irony in this for film is not only the one unique art form developed in our own century but also the most unequivocally popular Film was envisaged as part of a system of communications which had to be decoded in terms of ideology and contextualized in terms of power and control Robert Watson s Film and Television in Education with its telling subtitle An Aesthetic Approach to the Moving Image sets out to remedy the neglect

I Won't Grow Up! Anthony Balducci,2015-12-09 A film archetype as old as film itself the man child has been an enduring comedy subject Classics as diverse as Hail the Conquering Hero 1944 and The Apartment 1960 have used the immature male to drive plots and press the importance of growing up But he was not born fully formed it took the shifting social norms of decades to mold the atrocious behavior of the puerile buffoon we know today The man child has come under scrutiny in recent years Prominent writers including David Denby and A O Scott have criticized the modern comedian behaving in shamelessly childish ways This book provides a comprehensive examination of the character of the man child from Andre Deed who debuted on screen in 1901 to Seth Rogen The author discusses changing cultural attitudes about maturity what it means to be an adult what it means to be a child and how those things are becoming increasingly confused
