**Victorian Christianity at the Fin de Siècle** Frances Knight, 2015-10-23 The period known as the fin de siècle defined in this groundbreaking book as chiefly the period between 1885 and 1901 was a fluid and unsettling epoch of optimism and pessimism endings and beginnings as well as of new forms of creativity and anxiety The end of the century has attracted much interest from scholars of literary and cultural studies who regard it as a critical moment in the history of their disciplines but it has been relatively ignored by religious historians Frances Knight here sets right that neglect She shows how late Victorian society often said to be one of the most intensely Christian cultures the world has ever seen reacted to the bold agendas being set by the thinkers of the fin de siècle and how prominent Church figures during the era first identified many of the concerns that have preoccupied Christians latterly These include an active interest in social justice and the creation of new types of communities increasingly open discussion of the sexual exploitation of children debates about society's decadence new ideas about the role of women and the belief in the redemptive powers of art pioneered by figures as diverse as P T Forsyth Percy Dearmer and Samuel and Henrietta Barnett Examining in particular the Christian world of fin de siècle London the author offers penetrating insights into a society in which the ritual and culture of Christianity sometimes permeated the aesthetic movement and where devotees of the aesthetic movement like Walter Pater Oscar Wilde and their disciples often revealed a fascination with Christianity She argues that the long 1890s was a decisive decade in which various sections of Christian opinion both on the progressive and the more conservative wings of the faith began to express views which set the tone for attitudes which would become commonplace in the twentieth century Victorian Christianity at the Fin de Siècle is the focussed treatment of religion and culture at the end of the nineteenth century that the field has long needed It will be welcomed by scholars of church history social and cultural history and the history of ideas

Arthur Machen Antonio Sanna, 2021-04-21

Arthur Machen Critical Essays offers a study of the works by Arthur Machen 1863-1947, the Welsh writer who has attracted a cult following for decades, especially among fans and scholars of weird fiction and Gothic studies. These essays take readers into different areas and address several topics in Machen's literary production: the literary, the artistic, the scientific, the religious, the socio-cultural and the personal. The twelve chapters constituting the volume examine the representation of human beings in the writer's works and their relationship with the surrounding environment, whether it is the omnipresent London or the mysterious menacing nature. The contributors also interpret Machen's writings through a series of disciplines and academic theories that were contemporary to the writer, such as paleontology and medicine, and demonstrate how he was influenced by the scientific discourses of his time and reproduced them in his works. The last section of the volume considers Machen's interest in the occult and mysticism and the religious themes present in many of his works.
