Final Treatment The File On Dr X:

Blood On The Table Colin Evans, 2008-03-04 For almost a century New York City's Office of the Chief Medical Examiner has presided over the dead Over the years the OCME has endured everything political upheavals ghastly murders bloody gang wars the 9 11 terrorist attacks and non stop battles for power and influence and remains the final authority in cases of sudden unexplained or violent death Founded in 1918 the OCME has evolved over decades of technological triumphs and all too human failure to its modern day incarnation as the foremost forensics lab in the world investigating an average caseload of over 15 000 suspicious deaths a year This is the behind the scenes chronicle of public service and private vendettas of blood in the streets and back room bloodbaths and of the criminal cases that made history and headlines

Bioterrorism and Biocrimes W. Seth Carus, Center for Counterproliferation Research, 2002 During the past five years the threat of bioterrorism has become a subject of widespread concern Journalists academics and policy analysts have considered the subject and in most cases found much to alarm them Most significantly it has captured the attention of policy makers at all levels of government in the United States Unfortunately bioterrorism remains a poorly understood subject Many policymakers and policy analysts present apocalyptic visions of the threat contending that it is only a matter of time before some terrorist uses biological agents to cause mass casualties In contrast other analysts argue that the empirical record provides no basis for concern and thus largely dismiss the potential threat Neither approach is helpful Imagining catastrophic threats inevitably leads to a requirement for impossibly large response capabilities In contrast denying the potential danger altogether leads to the kind of tunnel vision that led U S intelligence officials to totally ignore the emergence of Aum Shinrikyo in Japan despite its overtly hostile attitude towards the United States This study takes an intermediate course It provides empirical evidence to support the views of those who argue that biological agents are difficult to use It also provides abundant evidence that some people have desired to inflict mass casualties on innocent populations through employment of biological agents Fortunately these accounts also suggest that such people lacked the capability to follow through with their plans The research also casts considerable doubt on our ability to predict which biological agents a perpetrator might employ While some analysts assume that terrorists will use those agents that proved of most interest to state weapons programs bioterrorists and biocriminals have acquired and used agents of little or no value as weapons of war

Notorious New Jersey Jon Blackwell, 2007-10-29 Notorious New Jersey is the definitive guide to murder mayhem the mob and corruption in the Garden State With tabloid punch Jon Blackwell tells riveting accounts of Alexander Hamilton falling mortally wounded on the dueling grounds of Weehawken Dutch Schultz getting pumped full of lead in the men's room of the Palace Chop House in Newark and a gang of Islamic terrorists in Jersey City mixing the witch's brew of explosives that became the first bomb to rock the World Trade Center Along with these dramatic stories are tales of lesser known oddities such as the nineteenth century murderer whose skin was turned into leather souvenirs and the state senator

from Jersey City who faked his death in a scuba accident in the 1970s in an effort to avoid prison Blackwell also sheds light on some historical whodunits was Bruno Hauptmann really guilty of kidnapping the Lindbergh baby Who was behind the anthrax attacks of 2001 Not forgotten either are notorious characters who may actually be innocent including Rubin Hurricane Carter and those who have never been convicted of wrongdoing although they left office in scandal including Robert Torricelli and James McGreevey Through 100 historic true crime tales that span over 300 years of history Blackwell shows readers a side of New Jersey that would make even the Sopranos shudder

The Impeachment of Governor Sulzer Matthew L. Lifflander, 2012-08-08 Winner of the 2012 Isabelle Hermalyn Award of New York Urban History presented by the Bronx County Historical Society In *The Impeachment of Governor Sulzer* Matthew L Lifflander brings to life the dramatic story of a forgotten incident in New York State political history When William Sulzer was elected to the office of governor of New York State in November 1912 it represented the culmination of a long and successful career in politics The son of a German immigrant father and a Scotch Irish American mother Sulzer 1863 1941 rose through the powerful Tammany Hall machine to become the youngest man ever to serve as speaker of the New York State Assembly In 1894 he was elected to Congress where he served with distinction for eighteen years rising to chairman of the House Committee on Foreign Affairs When he became governor it was with the support of the Tammany Hall machine and everyone expected that he would duly perform his duties under the direction of Tammany boss Charles F Murphy Political reform and the corrupt influence of political machines were significant issues of the day however and shortly after Sulzer's election he began to project a populist man of the people image announcing that he belonged to no man After he rejected some of Murphy's recommendations for key appointments and initiated investigations into corrupt state officials many of them with Tammany connections it was decided that he was a threat to the party bosses and had to be removed Incredibly less than a year after his election to the highest office in New York State Sulzer had been impeached and removed In addition to shedding light on the career of one of the most interesting and colorful figures in American political history *The Impeachment of Governor Sulzer* explores legal moral and political issues that continue to this day including pervasive questions about money and politics
