The Philosophy, Politics and Economics of Finance in the 21st Century Patrick O'Sullivan, Nigel F. B. Allington, Mark Esposito, 2015-04-10 Since 2008 the financial sector has been the subject of extensive criticism Much of this criticism has focused on the morality of the actors involved in the crisis and its extended aftermath This book analyses the key moral and political philosophical issues of the crisis and relates them to the political economy of finance It also examines to what extent the financial sector can or should be reformed This book is unified by the view that the financial sector had been a self serving and self regulating elite consumed by greed speculation and even lawlessness with little sense of responsibility to the wider society or common good In light of critical analysis by authors from a variety of backgrounds and persuasions suggestions for reform and improvement are proposed in some cases radical reform By placing the world of finance under a microscope this book analyses the assumptions that have led from hubris to disgrace as it provides suggestions for an improved society Rooted in philosophical reflection this book invites a critical reassessment of finance and its societal role in the 21st century This book will be of interest to academics politicians central bankers and financial regulators who wish to improve the morality of finance

Planning the Development of Builders, Leaders and Managers for 21st-Century Business: Curriculum Review at Columbia Business School N. Capon, 2012-12-06 Business and management education has an important impact on business practice throughout the world To a very large extent possession of the MBA degree is a passport into the upper reaches of management and CEOs of many major corporations have earned an MBA It is a reasonable inference that the education received by these leaders and managers during their MBA experience has an important impact on the way that businesses throughout the world are led and managed and that major corporate decisions are made The heart of the MBA education is the curriculum and curriculum design is perhaps the most important strategic function for a business school faculty to undertake In order to understand the many issues concerning this contemporary curriculum review this book examines three related contextual domains First it details the long term growth of business and management education Second it examines the major theoretical and empirical literatures on organizational evolution and decision making paying special attention to decision making in institutions of higher education Finally the book describes the previous major

curriculum review at Columbia Business School in the late 1950s and the subsequent changes that formed the curriculum that was changed in 1992 This book demonstrates what can be achieved by an institution that sets high standards for its business education and assists faculty and administrators in other schools of business and management as they contemplate revision of their curricula In addition it provides a prime example of curriculum design effort in one of the leading institutions worldwide Finally it will be of interest to scholars in several different fields notably higher education curriculum review organizational decision making and long run organizational evolution *Auditing and Society* Wally Smieliauskas, Minlei Ye, Ping Zhang, 2020-07-30 Auditing has become an essential component in market societies and the need for auditing skills has risen in line with globalization This textbook provides a comprehensive overview of the role of financial statement auditing in contemporary society including the auditor's role in evaluating the financial reporting of an auditee a topic of central concern in the recent comprehensive review of the auditing profession in the Brydon Report 2019 The experienced authors provide insight into auditing research to help readers understand its function regulation and role in theory and practice With focus on private sector financial statement auditing and its regulation the book includes perspectives on social theory history and the importance of professional standards The thought provoking final chapter challenges students to consider the effectiveness of auditing in evaluating increasingly risky and complex accounting estimates involving assumptions about future events A fundamental approach to auditing theory this textbook will be useful reading for advanced undergraduate and postgraduate students across business and accounting fields **The Continuing Debate Over Depreciation, Capital and Income (RLE Accounting)** Richard P. Brief, 2014-02-05 Beginning with first principles then discussing the origin and evolution of the debate over depreciation capital and income several related topics are addressed in this volume originally published in 1993 These include the allocation problem interest rate approximations issues concerning financial reporting and analysis and the meaning and economic impact of accounting error The underlying themes concern the importance of history and the need for an appreciation of basic concepts and relationships in accounting *Digital Product Management, Technology and Practice: Interdisciplinary Perspectives* Strader, Troy J., 2010-09-30 This book covers a wide range of digital product management issues and offers some insight into real world practice and research findings on the technical operational and strategic challenges that face digital product managers and researchers now and in the next several decades Provided by publisher Who's who in International Business Education and Research William F. Shepherd, Iyanatul Islam, Sankaran Raghunathan, 1999-01-01 This work is recommended for corporate libraries whose companies are involved in international business and for academic libraries affiliated with colleges of business Kay M Stebbins Choice This project is distinctive in that it really is a Who's Who rather than a directory of all scholars engaged in international business education and research *Global Business and Corporate Governance* John Thanopoulos, 2014-04-15 This book presents a new era where the main force for social change research education economic betterment and even

employee happiness is the global enterprise So many businesses today are global though often with conflicting priorities and potential civilization clashes Companies may operate in a practically borderless world seeking ideas and talents globally but without proper knowledge and preparation it is one endless struggle Inside you ll learn many global business related issues ranging from historical matters to the realities of the 21st century from local cultures to global organizations and from political legal and economic topics to accounting finance marketing and management perspectives This book directs your attention to critical business challenges in addition to the need of corporate governance at all levels These issues include how it all relates to the environment and the structure of the corporation Whether you re already out in the CEO world or a student in upper level undergraduate or graduate study or executive education this book gives you numerous combinations of how to do projects with philosophical perspectives of a new and challenging era Intellectual Property Strategies for the 21st Century Corporation Lanning G. Bryer, Scott J. Lebson, Matthew D.
