The Virtuous Spiral Alan Fowler, 2013-11-05 The Virtuous Spiral is without doubt a most welcome addition to the body of knowledge that will continue to be highly valued in the NGO sector Ezra Limiri Mbogori Director Mwelekeo wa NGO MWENGO Harare Fowler demonstrates how development NGOs can engage in a virtuous spiral of performance based learning that regenerates public trust This is a timely book dealing squarely with the confidence crisis faced by many NGOs in the South and North Louk De La Rive Box Director European Centre for Development Policy Management Maastricht Sustainability is crucial for all institutions involved in international development This work offers practical guidance on how to achieve it There are three main kinds of sustainability and a section of the book is devoted to each making the impact of the organization s work sustainable ensuring continuity of funding and making the organization itself sustainable to remain viable Achieving all three creates a virtuous spiral The book takes an organizational rather than a technical or impact based approach to sustainability It is based on extensive international research and offers many practical examples of sustainability Monthly Catalog of United States Government Publications ,1999 and the difficult trade offs involved Current APAIS 1999: Australian public affairs information service, **Index to Journals in Education** ,2000-04 American **Book Publishing Record**,2000 **Subject Guide to Books in Print** ,1993 The Promise and Perils of **Transnationalization** Benjamin Stachursky, 2013 To date most constructivist international relations studies have characterized the influence of transnationalism on domestic forms of activism as uniformly positive In particular transnational interactions are viewed as positive factors for the development and daily impact of gender activism Benjamin Stachursky's book questions the unvarying positive view of transnationalism on domestic forms of activism arguing for a more nuanced analysis that permits an understanding of the enabling and restricting effects of transnationalism Stachursky also challenges the dominant view of civil society as normatively homogenous by illustrating the complex relationships and conflicts that exist between NGOs and other civil society representatives He grounds his theoretical arguments with a comparative case study on women s rights activism in Egypt and Iran which uses semi structured interviews with women s rights activists in the two countries and analysis of documentation by local political and societal actors Looking at the period from the mid 1980s up to present developments such as the Arab Spring Stachursky analyzes the emergence and development of NGO activism in Egypt and Iran the social political and legal context of NGO activism and key domestic debates on the impact and legitimacy of the actors operating in women's rights activism By closely examining the ambivalent relationship between transnationalism and human rights organizations Stachursky proves that transnationalization has both enabling and constraining effects on the domestic legitimacy of women's rights activists and on their ability to create meaningful social and political change Technology and Innovation in Learning, Teaching and Education Arsénio Reis, José P.
