Defense Management Reform Peter Levine,2020-03-10 Pentagon spending has been the target of decades of criticism and reform efforts Billions of dollars are spent on weapons programs that are later abandoned State of the art data centers are underutilized and overstaffed New business systems are built at great expense but fail to meet the needs of their users Every Secretary of Defense for the last five Administrations has made it a priority to address perceived bloat and inefficiency by making management reform a major priority The congressional defense committees have been just as active enacting hundreds of legislative provisions Yet few of these initiatives produce significant results and the Pentagon appears to go on as wasteful as ever In this book Peter Levine addresses why despite a long history of attempted reform the Pentagon continues to struggle to reduce waste and inefficiency The heart of Defense Management Reform is three case studies covering civilian personnel acquisitions and financial management Narrated with the insight of an insider the result is a clear understanding of what went wrong in the past and a set of concrete guidelines to plot a better future **Indexes for Abstracts of Reports and Testimony** ,1998 **Financial Management** DIANE Publishing Company,1997-02 For FY 1992 the U S Army s annual appropriations totaled about 72 billion and its noncash assets were reportedly valued at 292 billion The Army s financial accountability for billions of dollars of resources is seriously impaired by weaknesses in systems that account for and report its disbursements inadequate controls over automated data processing of financial and logistics
