Financing Of Pension Systems In Central And Eastern Europe:

The Financing of Pension Systems in Central and Eastern Europe Emily S. Andrews, Mansoor Rashid, 1996-01-01 Environmentally Sustainable Development Agricultural Research and Extension Series Banana Improvement Project Report No 1 Presents an overview of current and planned activities in institutions working on the Banana Improvement Project co sponsored by the Common Fund for Commodities the FAO Intergovernmental Group on Bananas and the World Bank The project has two important objectives to develop improved banana varieties suitable for the international market and to improve pest and disease control practices with the object of reducing pesticide use and its harmful environmental impact

The Financing of Pension Systems in Central and Eastern Europe Emily S. Andrews, Mansoor Rashid, World Bank, 1997 **Transformation of Pension Systems in Central and Eastern Europe** Winfried Schmal, Sabine Horstmann, 2002-06-26 Given the highly specialised subject matter which so easily degenerates into rather tedious calculations this book is really amazingly interesting and competently executed The late Mark Blaug formerly of the University of London and University of Buckingham UK Financial Sustainability of Pension Systems Stefania Amalia Jimon, Florin Cornel Dumiter, Nicolae Baltes, 2021-05-31 The sustainability of public pension systems has become an important aspect for governments and institutions worldwide This book addresses the multiple elements that influence the sustainability of pension systems with a special focus on central and eastern European countries Supported by the results of econometric empirical studies the authors discuss and analyse areas like social economy versus capitalist economy globalization versus glocalization population aging versus birth and fertility emigration versus immigration early retirement versus prolongation versus professional activity the sustainability of public pension systems versus the adequacy of benefits provided public pension systems compared to private pension funds and taxation of salary incomes versus subsidization of state social insurance **The New Capital Markets in Central and Eastern Europe** Michael Schröder, 2012-12-06 It is the aim of this study to assess the effects of the EU enlargement on the capital markets in the most advanced countries of Central and Eastern Europe CEE and Russia and to analyse the impacts on the interactions between Eastern and Western capital markets due to the integration process Therefore this study should be particularly useful for financial analysts institutional investors and academic researchers who are interested in the economic and institutional developments of capital markets in CEE countries and are looking for a thorough and comprehensive analysis of the future perspectives of these capital markets The European Union has opened negotiations for EU membership in early 1998 with five CEE countries the Czech Republic Estonia Hungary Poland and Slovenia In autumn 1999 the group of CEE countries involved in the negotiations for EU membership has been enlarged by Bulgaria Latvia Lithuania Romania and Slovakia The negotiations with some of the CEE countries have already reached a stage that makes entry into the EU in the next few years very likely The joining countries have to adopt the whole *acquis communautaire* which represents the legislative framework common to all

EU members Important parts of the *acquis communautaire* e.g. the liberalisation of capital movements European Monetary Union the free provision of bank and non bank financial services and new rules for prudential supervision directly and indirectly affect the behaviour of the financial sector and the functioning of capital markets

Central and East European Migrants' Contributions to Social Protection S. Maatsch, 2012-12-15 In 2001 Germany and Austria became the last EU states to lift transnational controls restricting access to their labour markets for citizens of ex communist countries This book challenges anti immigration discourses to show that given the high percentage of skilled immigrants it is the sending rather than the receiving countries who lose out

Financial Markets in Central and Eastern Europe Morten Balling, Frank Lierman, Andy Mullineux, 2004-08-02 This book charts the process of financial market reform in Central and Eastern Europe Topics discussed will include the implications of future EU membership and the strategies pursued by the World Bank and International Monetary Fund

Social Protection Systems in Central and Eastern Europe Paul Geoffrey Bakken, 2008

The financing of pension systems in central and eastern Europe : an overview of major trends and their determinants, 1990-1993 Emily S. Andrews, Mansoor Rashid, Banco Mundial, 1996

Governance and Regulation of Power Pools and System Operators James Barker, 1997-01-01 Annotation World Bank Technical Paper No 382 This technical paper compares and contrasts the governance and regulation of new style power pools in Australia Canada Norway Sweden and the United Kingdom These trading markets in electricity commodities and services are explored in various ways The authors review the basic governance models compare decisionmakers in the industry examine market surveillance methods used and explore the role of government and the regulator The paper emphasizes the lessons that can be learned from international experiences

Trade Union Strategies in Central and Eastern Europe Dimitrina Dimitrova, Jacques Vilroix, 2005 This publication contains eight essays which explore the changing role of trade unions in ex communist countries during the 15 years of transition from a planned to a market economy It is intended to provide a mechanism to stimulate debate and discussion amongst trade unions in the region as to how they can improve representation of members examine structures and strengthen their influence in public policy It seeks to provide a framework for the process of union strategic planning and also to help guide ILO technical work in this area

Central and Eastern Europe International Monetary Fund. European Dept., 2015-04-07 This Selected Issues Paper's objective is to illustrate economic benefits and costs from euro adoption by reviewing the main arguments and empirical evidence in Central and Eastern Europe New Member States NMS The parameters of the euro adoption debate have shifted Although countries joining the euro area in the 2000s could expect to benefit from a significant country risk premium this premium has mostly vanished with the euro crisis The NMS that have maintained exchange rate flexibility and monetary policy autonomy have in general made good use of it During convergence nominal currency appreciation supported more balanced growth and restrained credit and asset price booms It is an open question whether the macroeconomic volatility of the past decade will recur If divergent growth

patterns and volatility were to repeat euro adoption would constrain macro policy options especially for economies with large income gaps and asynchronised business cycles vis vis the euro area Thus a large burden would be placed on other policy instruments to safeguard balanced growth notably counter cyclical fiscal policy and macro prudential policies Structural reforms to boost growth potential and facilitate internal adjustment would also be important *Reforming Public Pensions Sharing the Experiences of Transition and OECD Countries* OECD,2004-01-07 This conference proceedings compares public pension reform efforts in Central and Eastern Europe with those in other OECD countries looking at the reasons for reform policy choices and constraints the well being of older people distributional consequences of reform and implementation

Pension Fund Capitalism Leokadia Oręziak,2022-04-10 This book examines the origins and consequences of so called pension fund capitalism which has spread around the world since 1981 when the pension system was completely privatized in Chile The author highlights the driving forces behind the privatization of pensions its forms and tools used in practice and the risks and costs related to private pensions The reader can also learn about the experiences of various developed countries including the USA Canada Australia and Germany as well as Latin American including Chile and Eastern European countries related to the privatization of pensions Particular attention is paid to Poland as an example of a country where such privatization failed completely This book provides a source of serious reflection on what this privatization has led to what its real economic and social consequences are and what the likelihood is of reversing it and strengthening the public pension system Academic researchers and students of economics and finance as well as social and political sciences will find the book invaluable in understanding the problems arising from the privatization of pensions It will also be of interest to professionals institutions that shape or influence economic and social policy including political parties trade unions non governmental organizations the media and institutions operating on the financial market *The Rise and Fall of the Privatized Pension System in Chile* Andrés Solimano,2021-02-18 The Rise and Fall of the Privatized Pension System in Chile focuses on the Chilean experience with a privatised pension system since the early 1980 when launched by the Pinochet regime It explores economic financial and political economy dimensions of a private pension system based on individual savings capacity implemented in a highly unequal country The book also highlights the role played by the pension system as a mechanism of savings redistribution from wage earners and the self employed to the funding of big corporations at home and abroad in a process intermediated by profit making pension fund management companies The book compares the resilience of Chile s private pension system with the reversals of the privatised pension system in recent years in countries of Latin America and Central Eastern Europe It outlines a program of structural pension reform towards a more progressive public based system

Diversity of Patchwork Capitalism in Central and Eastern Europe Ryszard Rapacki,2019-06-10 This book is a comparative study which sheds a new empirical and theoretical light on the nature of post communist capitalism in 11 EU new member countries of Central and Eastern Europe or CEE11 Extending and modifying a well established conceptual

framework for comparative capitalism rooted in new institutional economics and economic sociology it offers a better explanation for transition specific and path dependent factors inherent to systemic transformation Based on a vast dataset the book therefore illuminates the dissimilarities among the institutional architectures in the EU countries Thus the book argues that the evolving capitalism in Central and Eastern Europe exhibits strong symptoms of institutional ambiguity or a patchwork nature which makes it a distinct category from any of the co existing models of Western European capitalism This book will be of key interest to scholars and students of comparative political economy Eastern European politics post communist studies and more broadly to researchers in the fields of economics European politics and the wider social sciences It will also be of significance to journalists policymakers members of international organizations and consultancies with an interest in Central and Eastern Europe and in European integration
