Cinderella an English story What is a Mumming Play The subject of folklore covers an extremely wide field with connections to virtually every aspect of life It ranges from the bizarre to the seemingly mundane Similarly folklore is as much a feature of the modern technological age as the ancient world of every part of the country both urban and rural and of every age group and occupation Containing 1 250 entries from dragons to Mother Goose May Day to Michaelmas this reference work is an absorbing and entertaining guide to English folklore Aimed at a broad general readership the dictionary provides an authoritative reference source on such legendary characters as The Sandman Jack the Giant Killer and Robin Hood and gives entertaining and informative explanations of a wide range of subjects in folklore from nosebleeds and wishbones to cats and hot cross buns From an exemplary clear and concise introduction to an admirably comprehensive yet selective bibliography but above all from more than 1 250 A Z entries in between it is good to know that Oxford University Press can still commission and publish new standard reference titles A welcome degree of scholarly rigour coverage is excellent the quality of the entries is also outstanding It is all very readable concise and clear throughout another one of those reference works one can wish to read from cover to cover a huge amount of fascinating material in this clearly and attractively designed deceptively concise and reasonably priced volume It becomes at once a new standard reference book in its field As such it belongs in any reference collection in or about England and any collection dealing with folklore Library Review     **Littell's**

**Living Age** Eliakim Littell,Robert S. Littell,1866     Housing in the South East Great Britain: Parliament: House of

Commons: South East Regional Committee,2010 The South East Plan contains an annual target for new homes that provides a benchmark which can be reviewed Sub regions will have their own targets that allow local circumstances to be taken into account but the regional overview is valuable to ensure consistency and to enable review of the regional target as a whole It is important that any review of housing targets in the South East takes into account the range of numbers put forward their underlying reasons and the consequences of not meeting any decided targets The economic downturn has meant that fewer homes are being built and there are concerns that the lack of infrastructure provision alongside housing development is stopping schemes from making progress The Committee recommends that the Government review the funding mechanisms

currently available for this infrastructure It feels it is important that the Homes and Communities Agency is given the resources it needs in future years The Committee also acknowledges that while focusing development on brownfield land is important to stimulate regeneration there must be care that concentrating development in such areas does not have adverse effects such as using up urban land or valuable urban greenspace The Committee also recommends that greater attention be paid to alternative models for providing housing land that the region provides the right mix of homes and that the Government stick to its timetable for the Code for Sustainable Homes ensuring that all housing has a zero carbon rating by 2016 A Treatise on the Law and Practice of Agricultural Tenancies George Wingrove Cooke,1882 Proceedings ...

**Panoramas and Compilations in Nineteenth-Century Britain** Helen Kingstone, 2023-01-06 This book shows how in nineteenth century Britain confronted with the newly industrialized and urbanized modern world writers artists journalists and impresarios tried to gain an overview of contemporary history They drew on two successive but competing conceptual models of overview the panorama and the compilation Both models claimed to offer a holistic picture of the present moment but took very different approaches This book shows that panoramas 360 views previously associated with the Romantic period and compilations big data projects previously associated with the Victorian fin de si cle are intertwined relevant across the entire century and often remediated making them crucial lenses through which to view a broad range of genre and forms It brings together interdisciplinary research materials belonging to different period silos to create new understandings of how nineteenth century audiences dealt with information overload It argues for a new politics of distance one that recognizes the value of immersing oneself in a situation event or phenomenon but which also does not chastise us for trying to see the big picture This book is essential reading for students and scholars of nineteenth century literature history visual culture and information studies
