Victor Hugo's Conversations with the Spirit World John Chambers, 2008-01-16 First English translation of Victor Hugo s writings on his experiments in spiritualism Reveals Hugo s conversations with renowned discarnate entities such as Shakespeare Plato Galileo and Jesus Examines his contacts with aliens from the planets Mercury and Jupiter and the revelation that our entire universe is a quantum hologram Discusses Hugo s possible role as a grand master of the Priory of Sion During Victor Hugo s exile on the Isle of Jersey where he and his family and friends escaped the reign of Napol on III he conducted table tapping s ances transcribing hundreds of channeled conversations with entities from the beyond Among his discarnate visitors were Shakespeare Plato Hannibal Rousseau Galileo Sir Walter Scott and Jesus According to the transcripts Jesus during his three visits condemns Druidism faults

Christianity and suggests a new religion with Hugo as its prophet To the skeptic some of the conversations may seem self serving at best the subconscious wishes of the na ve participants But author John Chambers places Hugo s experiments firmly in the tradition of visionary literature and psychic exploration aligning those experiences with the poetry of William Blake the table tapping experiences of the Fox sisters and the channeled writings of the great modern day Pulitzer Prize winning poet James Merrill whose spirits utterances uncannily resemble those of Hugo s Hugo s transcriptions are the missing link between the early nineteenth century s fascination with the kabbalistic Zohar reincarnation and the writings of the Illuminati and the rise of spiritualism and the societies for the study of psychic phenomena in the latter nineteenth and early twentieth centuries

The Oxford Handbook of Arab Novelistic Traditions is the most comprehensive treatment of the subject to date In scope the book encompasses the genesis of the Arabic novel in the second half of the nineteenth century and its development to the present in every Arabic speaking country and in Arab immigrant destinations on six continents Editor Wail S Hassan and his contributors describe a novelistic phenomenon which has pre modern roots stretching centuries back within the Arabic cultural tradition and branching outward geographically and linguistically to every Arab country and to Arab writing in many languages around the world The first of three innovative dimensions of this Handbook consists of examining the ways in which the Arabic novel emerged out of a syncretic merger between Arabic and European forms and techniques rather than being a simple importation of the latter and rejection of the former as early critics of the Arabic novel claimed The second involves mapping the novel geographically as it took root in every Arab country developing into often distinct though overlapping and interconnected local traditions Finally the Handbook concerns the multilingual character of the novel in the Arab world and by Arab immigrants and their descendants around the world both in Arabic and in at least a dozen other languages The Oxford Handbook of Arab Novelistic Traditions reflects the current status of research in the broad field of Arab novelistic traditions and signals toward new directions of inquiry
