Development-Induced Displacement and Resettlement Irge Satiroglu,Narae Choi,2015-04-10 Every year millions of people are displaced from their homes livelihoods and communities due to land based development projects There is no limit to what can be called a development project They can range from

small scale infrastructure or mining projects to mega hydropower plants can be public or private well planned or rushed into Knowledge of development induced displacement and resettlement DIDR remains limited even after decades of experience and research Many questions are yet unanswered What is success in resettlement Is development without displacement possible or can resettlement be developmental Is there a global safeguard policy or do we need an international right not to be displaced This book revisits what we think we know about DIDR Starting with case studies that challenge some of the most widespread preconceptions it goes on to discuss the ethical aspects of DIDR The book assesses the current laws policies and rights governing the sector and provides a glimpse of how the displaced people defend themselves in the absence of effective governance and safeguard mechanisms This book is a valuable resource for students and researchers in development studies population and development and migration and development

Resettling Displaced Communities

William L. Partridge, David B. Halmo, 2020-10-28 Global trends suggest that the number of people involuntarily displaced will increase exponentially in the coming decades The authors argue that when the agency time tested adaptations innovative capacities dignity and human rights of displaced people are respected as full participants in the rebuilding of their communities livelihoods and standards of living resettlement outcomes are more positive The goal of resettlement must be the sustainable social economic and human development of affected communities requiring a praxis of ethical commitment to effective actionable recommendations based on empirical observation The authors draw on case examples from Asia Africa and the Americas This book will be of interest to resettlement specialists planners administrators nongovernmental and civil society organizations and scholars and students of anthropology sociology development studies and social policy

Land Access and Resettlement

Gerry Reddy, Eddie Smyth, Michael Steyn, 2017-09-08 This book is an up to date accessible and practical guide on how to optimally plan for implement and review land access and resettlement It provides step by step information on how to avoid pitfalls ensure that best practice is being employed and the correct standards are being applied With useful real life examples of when projects have gone well and when they haven't the book is based on the main lessons that have been learned on the ground over the past decade Natural resource projects can have considerable impacts on local communities chiefly due to the need to acquire large areas of land When projects are located in developing and middle income economies the impacts are most keenly felt as it often requires displacement of large rural populations with predominately land based livelihoods The authors have planned implemented and reviewed over 50 land access and resettlement projects in over 30 countries internationally and conducted benchmarking exercises on a further 60 projects This experience provides the basis for the book The book guides the reader through the different stages of preparing for a land resettlement project Land Access and Resettlement is a key social risk for the natural resources sector particularly the mining oil and gas industries who are operating in a context of increased awareness and regulation regarding the potential social impacts of their activities At the same time companies increasingly appreciate the business case for getting social right

This book provides a practical road map to corporate leaders project managers practitioners academia government and civil society for practically planning and implementing successful land access and resettlement and creating win win outcomes for companies and communities

Urban Land Acquisition and Involuntary Resettlement Vincent Roquet, Luciano Bornholdt, Karen Sirker, Jelena Lukic, 2017-03-01 Expansion and development of urban areas require acquisition of land which in turn often requires physical relocation of people who own or occupy this land Land acquisition and resettlement may also be required to improve the lives of the more than 1 billion people who currently live in slums around the world most of them in developing countries Therefore any effort to embark on significant sustainable urban development needs to ensure that there are adequate processes for land acquisition and so that resettlement does not become a constraint to much needed urban development Planners policy makers and social scientists can try to implement urban development programs in a way that make people who lose their land houses or livelihoods become equal partners in the development process The combination of the high price of urban land presence of creative individuals in close proximity in urban areas and the ability of urban space to generate innovative solutions can help convert urban resettlement into a development opportunity for all The report illustrates how urban resettlement can become a development opportunity The Mumbai example shows how the private sector can play a key role to unleash the potential created by high value land to provide sustainable housing solutions to those adversely affected at no cost to the government or the resettlers Examples from Morocco and Pakistan show how well designed and implemented citizen driven resettlement can result in enhanced skills and livelihoods and can promote overall sustainable urban development The Mauritania example demonstrates how collective approaches with strong community participation can help address difficult challenges related to housing The Brazil case shows how resettlement practices with demonstrated strongly positive outcomes and contributions to urban development can influence governments to incorporate them into their own laws and regulations helping millions of affected people to benefit from them

Historical Dictionary of the World Bank Sarah Tenney,Anne C. Salda,2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank

works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies *Labor Issues in Infrastructure Reform* Public-Private Infrastructure Advisory Facility,2004 Fears of job loss and changes in employment status have often led workers and unions to oppose privatization and to take actions that delay or block reforms Many developing country governments have been reluctant to undertake reforms because of labor opposition and the political costs involved Such difficulties are often compounded by concerns about the social impact of reforms particularly in countries where social safety nets and labor markets are lacking The objective of the Toolkit which includes a CD ROM is to provide practical tools and information to help policy makers and practitioners deal with these sensitive issues The Toolkit helps governments identify and select appropriate strategies and approaches offers guidelines for design and implementation based on best practice and actual experience and indicates the factors influencing the choice of strategy and options The Toolkit is illustrated with examples checklists and templates that walk decision makers through best practice methodologies

Resettling Displaced People Hari Mohan Mathur,2012-03-12 This volume focuses on critical issues pertaining to involuntary resettlement that affects millions of people around the world every year It examines emerging resettlement policy initiatives and the current approaches and practices to address problems of rebuilding the lives of people displaced by developmental projects **Displacement by Development** Peter Penz,Jay Drydyk,Pablo S. Bose,2011-01-20 For decades policy makers in government development banks and foundations NGOs researchers and students have struggled with the problem of how to protect people who are displaced from their homes and livelihoods by development projects This book addresses these concerns and explores how debates often become deadlocked between managerial and movementist perspectives Using development ethics to determine the rights and responsibilities of various stakeholders the authors find that displaced people must be empowered so as to share equitably in benefits rather than being victimized They propose a governance model for development projects that would transform conflict over displacement into a more manageable collective bargaining process and would empower displaced people to achieve equitable results Their book will be valuable for readers in a wide range of fields including ethics development studies politics and international relations as well as policy making project management and community development **Municipal Finances** Catherine D. Farvacque-Vitkovic,Mihaly Kopanyi,2014-06-27 This book tells a fascinating story on municipal finances for local government practitioners with rich examples global practices and good and bad experiences the authors gained in decades of field work
