Pamela Dennison,2015-05-13 This is not a how to book It's a book that poses the questions should you I will be asking you really hard questions about your own training chops and expertise with aggression The Year of the Puppy Alexandra Horowitz,2024-05-14 What Mr Rogers was to children Alexandra Horowitz is to dogs a wise and patient observer who seeks to intimately know a creature Her chapters packed with close observations about canine cognition and behavior are mini mood lifters NPR Maureen Corrigan on Fresh Air What is it like to be a puppy Author of the classic Inside of a Dog Alexandra Horowitz tries to find out spending a year scrutinizing her puppy's daily existence and poring over the science of early dog development Few of us meet our dogs at Day One The dog who will eventually become an integral part of our family our constant companion and best friend is born without us into a family of her own A puppy's critical early development into the

dog we come to know is usually missed entirely Dog researcher Alexandra Horowitz aimed to change that with her family's new pup Quiddity Quid In this scientific memoir she charts Quid's growth from wee grub to boisterous sprite from her birth to her first birthday Horowitz follows Quid's first weeks with her mother and ten roly poly littermates and then each week after the puppy joins her household of three humans two large dogs and a wary cat She documents the social and cognitive milestones that so many of us miss in our puppies lives when caught up in the housetraining and behavioral training that easily overwhelms the first months of a dog's life with a new family In focusing on training a dog to behave we mostly miss the radical development of a puppy into themselves through the equivalent of infancy childhood young adolescence and teenager hood By slowing down to observe Quid from week to week *The Year of the Puppy* makes new sense of a dog's behavior in a way that is missed when the focus is only on training Horowitz keeps a lens on the puppy's point of view how they begin to see and smell the world make meaning of it and become an individual personality She's there when the puppies first open their eyes first start to recognize one another and learn about cats sheep and people she sees them from their first play bows to puberty Horowitz also draws from the ample research in the fields of dog and human development to draw analogies between a dog's first year and the growing child and to note where they diverge *The Year of the Puppy* is indispensable for anyone navigating their way through the frustrating amusing and ultimately delightful first year of a puppy's life

Merle's Door Ted Kerasote, 2008 Describes how the author adopted a wild dog by installing a dog door so that the dog could live both inside and outside in a study of human dog partnership and animal consciousness and behavior
