Theologies of the 21st Century David L. Smith,2014-10-02 What theologies are popular and formative of Christian thinking in the present day How should they be assessed by those Christians who want to be in the world without being of the world Theologies of the 21st Century begins with an overview of the historical roots from which current theological thinking has developed and then moves on to a detailed evaluation of the chief doctrinal and practical emphases taking an evangelical biblical perspective that seeks to be at once both critical and irenic The Oxford Handbook of Theology and Modern European Thought Nicholas Adams, George Pattison, Graham Ward, 2013-02-28 Modern European thought describes a wide range of philosophies cultural programmes and political arguments developed in Europe in the period following the

French Revolution Throughout this period many of the wide range of modernisms and anti modernisms had a distinctly religious and even theological character not least when religion was subjected to the harshest criticism Yet for all the breadth and complexity of modern European thought and in particular its relations to theology a distinct body of themes and approaches recurred in each generation Moreover many of the issues that took intellectual shape in Europe are now global rather than narrowly European and for good or ill they form part of Europe s bequest to the world from colonialism and the economic theories behind globalisation through to democracy to terrorism This volume attempts to identify and comment on some of the most important of these The thirty chapters are grouped into six thematic parts moving from questions of identity and the self through discussions of the human condition the age of revolution the world both natural and technological and knowledge methodologies concluding with a section looking explicitly at how major theological themes have developed in modern European thought The chapters engage with major thinkers including Kant Hegel Kierkegaard Heidegger Schleiermacher Nietzsche Dostoevsky Barth Rahner Tillich Bonhoeffer Sartre de Beauvoir Wittgenstein and Derrida amongst many others Taken together these new essays provide a rich and reflective overview of the interchange between theology philosophy and critical thought in Europe over the past two hundred years The ^AOxford Handbook of Early Modern Theology, 1600-1800 Ulrich L. Lehner, Richard A. Muller, A.G. Roeber, 2016-10-04 This Handbook will offer a comprehensive and reliable introduction to Christian theological literature originating in western Europe from roughly the end of the French Wars of Religion 1598 to the Congress of Vienna 1815 **T&T Clark Handbook of Christian Theology** and the Modern Sciences John P. Slattery, 2020-10-01 This handbook surveys the many relationships between scientific studies of the world around us and Christian concepts of the Divine from the ancient Greeks to modern ecotheology From Augustine to Hildegard of Bingen Genesis to Frederick Douglass and physics to sociology this volume opens the intersections of Christian theology and science to new concepts voices and futures The central goal of the handbook is to bring new perspectives to the foreground of Christian theological engagement with science and to highlight the many engagements today that are not often identified as science theology discussions. The handbook thus includes several aspects not found in previous handbooks on the same topic significant representation from the three major branches of Christianity Orthodox Roman Catholic and Protestant multiple essays on areas of modern science not traditionally part of the theology and science dialogue such as discussions of race medicine and sociology a collection of essays on historical theologians approaches to nature and science T Catholic Protestant and Orthodox surveys of theology science scholarship in the 20th and 21st centuries and ten explorations in Christian theology today from Einsteinian physics to decolonial sociology The 24 chapters than span the volume offer the reader whether scholar student or layperson an essential resource for any future conversations around science and Christian theology Contemporary Theology: An Introduction, Revised Edition Kirk R. MacGregor, 2020-07-28 Accessible and comprehensive Contemporary Theology An Introduction by professor and author Kirk

R MacGregor provides a chronological survey of the major thinkers and schools of thought in modern theology in a manner that is both approachable and intriguing Unique among introductions to contemporary theology MacGregor includes Evangelical perspectives alongside mainline and liberal developments The influence of philosophy and the recent Christian philosophical renaissance on theology Global contributions Recent developments in exegetical theology The implications of theological shifts on ethics and church life Contemporary Theology An Introduction is noteworthy for making complex thought understandable and for tracing the landscape of modern theology in a well organized and easy to follow manner
