Goh,2020-09-17 Medical social work in Singapore traces its roots to the post war period This textbook documents the historical development and evolution of the medical social work profession in Singapore as well as the specialist work done in the profession The first part of the book gives an overview to the field in Singapore It provides information which is considered as fundamental and core to medical social workers across the various medical or healthcare settings The second part focuses on the selected practice areas and adopts an integral approach to discuss theory and practice This book is essential for social work students who wish to learn from a range of examples of good social work practice presented from human developmental perspectives and in sufficient breadth to provide a reasonable overview of social work practice in health care This book also provides added lens for medical nursing and other allied health students and practitioners who wish to better understand their patients and families *Social Work, Mental Health, and Public Policy in Diverse Contexts*

Sheying Chen,2023-08-29 The discipline of social policy oftentimes deemed a part of social work as a profession was born in the West Unlike social policy that started with the post war idea of a welfare state in the mid 20th century social work traces its roots to individual casework pioneered by the Charity Organization Society COS early social administration including state wide poverty relief an advocacy effort of the COS but with deep roots in the English Poor Laws of the 17th century and social action emphasizing political activities to improve social conditions originating from the Settlement House Movement which began in the 1880s The development of social work is historically intertwined with that of public welfare philanthropy and charity and is an inherently international subject This conception is broader than international social work as a discrete field of professional practice which crosses geopolitical borders and all levels of social and economic organizations with a focus on development However each nation has a story of its own in terms of professionalization of social work in the evolution of public welfare and philanthropic charitable undertaking within its particular economic political social and cultural settings A wide ranging and in depth study of various especially non Western country cases is essential to an adequate comprehensive understanding of the social work profession which is also a basic requirement of its value of diversity China is undoubtedly an important case with the largest population on earth It s also unique in view of so called Chinese characteristics which are sometimes fundamentally different from other particularly Western societies It s even intriguing given the country s lengthy complex history and its recent rapid rise to a global superpower with a claim of national goals and core values that seem to be rather considerable to social work as a helping profession Therefore any significant lessons learned from the Chinese experiences would help with a better international understanding and further advancement of social work and public welfare at a global scale *Social Work in Health Care* Kay W. Social Work in Health Settings Judith L.M. McCoyd, Jessica Euna Lee, Toba Schwaber Kerson, 2022-12-27 This fully revised and expanded fifth edition of Social Work in Health Settings Practice in Context maintains its use of the Practice in Context PiC decision making framework to explore a wide range of social work services in healthcare settings The PiC is updated in this edition to attend to social determinants of health and structural conditions The PiC framework is applied in over 30 case chapters to reflect varied health and social care settings with multiple populations Fully updated to reflect the landscape of healthcare provision in the US since the Affordable Care Act was reaffirmed in 2020 the cases are grounded by primer chapters to illustrate the necessary decisional and foundational skills for best practices in social work in health settings The cases cover micro through macro level work with individuals families groups and communities across the life course The PiC framework helps maintain focus on each of the practice decisions a social worker must make when working with a variety of clients including military veterans refugees LGBTQ clients The ideal textbook for social work in healthcare and clinical social work classes this thought provoking volume thoroughly integrates social work theory and practice and provides an excellent opportunity for understanding particular techniques and interventions

Human Behavior for Social Work Practice Wendy L. Haight, Edward H. Taylor, Ruth Soffer-Elnekave, 2020 The primary goal of this text is to support social work students

in HBSE 1 courses to develop a conceptual framework for understanding and meeting the challenges they will likely encounter in 21st century practice Through contemporary scholarship in human development ecology and systems theory we build on social work's classic bio psycho social spiritual framework Our interdisciplinary developmental ecological systems framework addresses the ways in which human beings shape and are shaped within complex and dynamic national and international contexts across the lifespan We attempt to establish a bridge between undergraduate courses in the social behavioral and biological sciences and social work practice courses We begin by establishing a framework for understanding human behavior in the social environment through chapters providing an historical overview of the interdisciplinary roots of the developmental ecological systems framework the brain and development and the role of empirical evidence on social work practice Then we examine social work issues at various points in human development using specific programs and policies to illustrate developmentally and culturally sensitive social work practice These chapters include excerpts from interviews with practicing social workers Part 3 focuses on social work issues affecting individuals across the lifespan and around the globe through chapters on disability and stigmatization race racism and resistance women and gender and terrorism
