

## Inflation Bond

### Inflation Indexed Bond Introduction

- Inflation indexed bonds, also called inflation linked bonds or real return bonds, are bonds where the principal is indexed to a reference inflation index, such as Consumer Price Index (CPI).
- The CPI is the proxy for inflation that measures price changes in a basket of goods and services.
- The main idea of inflation indexed bonds is that investing in the bond will generate a certain real return.
- Inflation indexed bonds pay a periodic coupon that is equal to the product of the daily inflation index and the nominal coupon rate.
- Unlike regular (nominal) bonds, inflation indexed bonds assure that your purchasing power is maintained regardless of the future rate of inflation.
