## **Hamatsa The Enigma Of Cannibalism On The Pacific Northwest Coast:**

*Hamatsa* Jim McDowell, 2000      *Hamatsa The Enigma of Cannibalism on the Pacific NW Coast* ,1997 The first book length study of whether cannibalism existed on the Pacific Northwest coast McDowell shows how a cannibal complex among Westerners coloured many early accounts of man eating and how this perception obscured the importance of ritual cannibalism in the secret Hamatsa ceremony a crucial feature of Native spirituality      **“And he knew our language”**

Marcus Tomalin, 2011-04-21 This ambitious and ground breaking book examines the linguistic studies produced by missionaries based on the Pacific Northwest Coast of North America and particularly Haida Gwaii during the late nineteenth and early twentieth centuries Making extensive use of unpublished archival materials the author demonstrates that the missionaries were responsible for introducing many innovative and insightful grammatical analyses Rather than merely adopting Graeco Roman models they drew extensively upon studies of non European languages and a careful exploration of their scripture translations reveal the origins of the Haida sociolect that emerged as a result of the missionary activity The complex interactions between the missionaries and anthropologists are also discussed and it is shown that the former sometimes anticipated linguistic analyses that are now incorrectly attributed to the latter Since this book draws upon recent work in theoretical linguistics religious history translation studies and anthropology it emphasises the unavoidably interdisciplinary nature of Missionary Linguistics research As of January 2019 this e book is freely available thanks to the support of libraries working with Knowledge Unlatched      *The Taking and Displaying of Human Body Parts as Trophies by Amerindians* Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence This book fills the gap in literature on this subject      **The Malaspina Expedition 1789-1794 / ... / Volume II / Panama to the Philippines**

Andrew David, Felipe Fernández-Armesto, Glyndwr Williams, 2018-12-07 Among the voyages of exploration and surveying in the late 18th century that of Alejandro Malaspina best represents the high ideals and scientific interests of the Enlightenment Italian born Malaspina entered the Spanish navy in 1774 In September 1788 he and fellow officer Jos Bustamante submitted a plan to the Ministry of Marine for a voyage of survey and inspection to Spanish territories in the Americas and Philippines The expedition was to produce hydrographic charts for the use of Spanish merchantmen and warships and to report on the political economic and defensive state of Spain s overseas possessions The plan was approved and in July 1789 Malaspina and Bustamante sailed from Cadiz in the purpose built corvettes Descubierta and Atrevida On board the vessels were scientists and artists and an array of the latest surveying and astronomical instruments The voyage lasted more than five years On his return Malaspina was promoted Brigadier de la Real Armada and began work on an account of the voyage in

seven volumes to dwarf the narratives of his predecessors in the Pacific such as Cook and Bougainville. Among much else it would contain sweeping recommendations for reform in the governance of Spain's overseas empire. But Malaspina became involved in political intrigue. In November 1795 he was arrested, stripped of his rank and sentenced to life imprisonment. Although released in 1803, Malaspina spent the last seven years of his life in obscure retirement in Italy. He never resumed work on the great edition and his journal was not published in Spain until 1885. Only in recent years has a multi-volume edition appeared under the auspices of the Museo Naval Madrid that does justice to the achievements of what for long was a forgotten voyage. This second volume in a series of three contains Malaspina's diario or journal for the first time in English translation and with commentary. It covers the period from 15 December 1790 to 15 November 1792 when he visited the Pacific coasts of Central and North America as far north as Alaska before crossing the ocean to the Philippines. Other texts include the apocryphal voyage of Ferrer Maldonado through the Strait of Anian which led to a major diversion of the Malaspina expedition in 1791.

**Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America** Robin Inglis, 2008-04-02. The Northwest Coast of America ranging from northern California through Oregon, Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map. First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic, it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s. Subsequently the imperial ambitions of Russia, Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become disputed territory before national boundaries were determined in the mid 19th century. The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements, the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain. This is done through an introductory essay, a detailed chronology, an extensive bibliography, modern maps and selected historical maps and drawings and over 400 cross-referenced dictionary entries. Entries cover the native people encountered, the scientists and artists who left an invaluable documentary and visual record of people, places, flora and fauna, the numerous voyages taken by men such as Vitus Bering, James Cook, Juan Francisco de la Bodega y Quadra and George Vancouver, overland expeditions like those of Alexander Mackenzie, Simon Fraser, Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon, Grigori Shelikhov, Robert Gray and William Sturgis. No other dictionary exists that is dedicated solely to the coverage of this region.

**Myths, State Expansion, and the Birth of Globalization** J. Carlson, 2011-12-15. Many of the present problems of globalization are mirrored in the historical expansion of the European state system. This title is a structured comparative case study analysis of four regions and examines how these regions and their peoples were absorbed into the expanding European-centered state system from roughly the 1400s through to 1800.

Writing the Hamat'sa Aaron

Glass,2021-07-15 Long known as the Cannibal Dance the Hamat sa is among the most important hereditary prerogatives of the Kwakwa ka wakw of British Columbia In the late nineteenth century as anthropologists arrived to document the practice colonial agents were pursuing its eradication and Kwakwa ka wakw were adapting it to endure In the process the dance with dramatic choreography magnificent bird masks and an aura of cannibalism entered a vast library of ethnographic texts Writing the Hamat sa offers a critical survey of attempts to record describe and interpret the dance over four centuries Going beyond postcolonial critiques of representation that often ignore Indigenous agency in the ethnographic encounter Writing the Hamat sa focuses on forms of textual mediation and Indigenous response that helped transform the ceremony from a set of specific performances into a generalized cultural icon This meticulous work illuminates how Indigenous people contribute to contest and repurpose texts in the process of fashioning modern identities under settler colonialism **Mythologies ,**

**Street-Gang and Tribal-Warrior Autobiographies** H. David Brumble,2018-04-10 Street Gang and Tribal Warrior Autobiographies is a study of the autobiographies of tribal warrior cultures in North America the Amazon the Orinoco Basin the highlands of Luzon the island of Alor of headhunters women Apaches New Guinea big men and a Yanomami captive The book also discusses tribal warrior autobiographies closer to home Colton Simpson s Inside the Crips Mona Ruiz s Two Badges Nathan McCall s Makes Me Wanna Holler and Sanyika Shakur s Monster autobiographies that remember gangbanging at a time when there were close to 500 gang related homicides a year in Los Angeles a time when gangbangers were so alienated from the larger society that they reinvented something very similar to the tribal warrior cultures right in the asphalt heart of American cities Grisly probing and resonant with the voices of generations of fighters Street Gang and Tribal Warrior Autobiographies is an unsettling work of cross disciplinary scholarship *Secondary Sources in the History of Canadian Medicine* Charles G. Roland,Jacques Bernier,2010-11-22 Volume Two of this retrospective bibliography is both a continuation and an expansion of Volume One 1984 It contains references to Canadian medical historical literature published between 1984 and 1998 and also includes much additional material published prior to 1984 Finally it substantially enlarges the content of French language material Every effort has been made to be as inclusive as possible of articles theses book chapters and books both in English and in French relating to the history of medicine No single electronic source can replace this bibliography The contents are divided into three sections The first is a listing of material expressly biographical Section two lists material under a wide variety of subject headings related to medicine and the third is a complete listing of the authors who have contributed these articles Simply organized and easy to use this bibliography will be of value to historians archivists librarians and anyone interested in the history of medicine **Hamatsa** Jim McDowell,1997 The first book length study of whether cannibalism existed on the Pacific Northwest coast McDowell shows how a cannibal complex among Westerners coloured many early accounts of man eating and how this perception obscured the importance of ritual cannibalism in the secret Hamatsa ceremony a crucial feature of Native spirituality **Black Lake Manor** Guy

Morpuss,2022-09-08 It gripped me for a week Incredible JANICE HALLETT Mind bendingly brilliant Agatha Christie on steroids TIM GLISTER A locked room A brutal murder And a killer who can unwind time A DEAD BILLIONAIRE Part time constable Ella Manning never thought she d have to investigate her ex fiance s murder But that s exactly what happens when tech entrepreneur Lincoln Shan is found dead in his study the morning after a controversial product launch with the door locked from the inside A RAGING STORM Trapped inside Shan s mansion above the remote town of Black Lake it s up to Ella to catch the killer But Black Lake is no ordinary place and its strange history will make this the most baffling murder case of her career SIX HOURS TO FIND A KILLER Because some of the town s inhabitants have the power to rewind time and someone is using it to protect a murderer Just as Ella is sure she has identified the culprit the last six hours are undone With no memory of what she discovered before her investigation begins again with very different results But which conclusion was true The race is on to find the killer before they strike again and time is not on her side A must read for fans of The Seven Deaths of Evelyn Hardcastle The Sanatorium and And Then There Were None Black Lake Manor will keep you feverishly turning the pages all night long An endless inventive murder mystery ALEX PAVESI Original and hugely addictive B A PARIS

**Global Realignments and the Canadian Nation in the Third Millennium** Karin Ikas,2010 With aggravating global realignments the dynamics and contradictions of a world risk society are looming ahead in the unfolding Third Millennium while globalization is gaining further steam To this bears witness a potpourri of often frightening geopolitical social cultural economic demographic ecological and other changes and challenges that gives substantial cause for concern about getting lost in a trans whatever sea of turmoil uncertainty and indeterminateness The resultant current backlash or rather renewed interest in the nation as a collective identity establishing category is an effort to gain some anchorage in ever more disintegrating times and proves especially those theoreticians wrong for whom the whole concept of the nation has worn off since long In 16 resourceful essays internationally distinguished Canadian and European experts from a variety of fields take a fresh look at these developments by focussing on one of the most fascinating multicultural and multifaceted nation state s in the world Canada in the Third Millennium The topics they discuss include among others Canada s difficult dissociation from Europe and the USA the reframing and reclaiming of the Canadian story the role of nations within the nation the efforts to transcend the nation pending geopolitical and geo ecological crises glocal issues and new wars Collectively the entries prove that Canada is a very progressive nation and opens up new perspectives for other collectives currently reassessing their national identities in a global environment Thus the book reaches well beyond the study of Canada and will be valuable to academics professionals teachers and students of various disciplines coping with the issue at stake as well as the general reader Indian Agents John L. Steckley,2016-08-19 Canadians are beginning to learn about the negative effects of residential schools on Aboriginal people in Canada More hidden in the written record but bearing a similar powerfully destructive role are Indian Agents who were with very few exceptions White men who ruled the reserves in Canada from the

1870s to the 1960s This book is the first to present a discussion of Indian Agents in general It provides an introductory look at the control Indian Agents exercised over Aboriginal communities throughout the period in question The primary intent is to spark discussion in Indigenous studies courses This book is built upon a discussion of the lives and impact of five Indian Agents Hayter Reed William Morris Graham John McIver William Halliday and Fred Hall However the practices and views of 39 other Indian Agents are interwoven throughout the text Although there was a readily detectable sameness in the way that Indian Agent power was imposed on Aboriginal communities based on the institutional racism of the Indian Agent System one of the points to be made is that not all Indian Agents were the same Some were more oppressive than others Also frequently pointed out is the fact that Aboriginal peoples were not merely helpless victims to Indian Agent control but resisted that control sometimes successfully The book concludes with a chapter comparing the Indian Agent System in Canada with similar systems in the United States Australia and New Zealand      **The Mad Cook of Pymatuning**

Christopher Lehmann-haupt,2005-09-26 In this chilling novel about a 1950s boys summer camp gone awry the former New York Times literary critic has created a brilliant coming of age story with undertones reminiscent of Lord of the Flies Christopher Lehmann Haupt s novel is at once a fantasy a barbed portrait of boyhood in the dawning of the Eisenhower era and a no holds barred story of terror of the sort that won him praise for his previous novel A Crooked Man Jerry Muller has been a regular at Camp Seneca for years Now that he s a teenager and counselor things don t seem quite right at his traditional summer haunt As Jerry plunges into the mysteries around him he finds himself growing up fast maybe too fast He s attracted to T J a pretty girl who might have a boyfriend but who flirts anyway and he s shocked by the truth about his friend Oz who s more interested in Jerry than in the likes of T J He sees something is strangely amiss with the husband and wife who own the camp But above all he s scared of the cruel game masterminded by Buck Of Seneca ancestry Buck is a sinister bigger than life expert on Indian lore He is also an organizer of scary games who may just possibly be a psychopath and a killer and in whose hands the camp s make believe designed to scare the kids becomes first a savage and brutal test of strength then by small steps genuinely dangerous As Jerry unravels the mysteries surrounding the ordinary looking camp he struggles to understand how the Forbidden Woods which have always been off limits to campers as a kind of game and dare have somehow become genuinely frightening all the more reason to discover the secrets that lie behind Camp Seneca s facade The story reaches its climax in a shocking scene that neither Jerry nor the reader is likely to forget Christopher Lehmann Haupt s new novel is a wicked suspenseful and deeply original tale      *Imperial Andamans* A. Vaidik,2010-07-28

This book traverses the Indian Ocean in the period when the British held sway over the major oceanic waters of the world In reviving the history of the Andamans as an important imperial prize it offers a fresh perspective on the history of British colonialism nationalism and the creation of modern India from its geographic periphery      *Integral Ecology* Sean

Esbjorn-Hargens, Ph.D.,Michael E. Zimmerman, Ph.D.,2011-03-08 Today there is a bewildering diversity of views on ecology

and the natural environment With more than two hundred distinct and valuable perspectives on the natural world and with scientists economists ethicists activists philosophers and others often taking completely different stances on the issues how can we come to agreement to solve our toughest environmental problems In response to this pressing need Integral Ecology unites valuable insights from multiple perspectives into a comprehensive theoretical framework one that can be put to use right now The framework is based on Integral Theory as well as Ken Wilber s AQAL model and is the result of over a decade of research exploring the myriad perspectives on ecology available to us today and their respective methodologies Dozens of real life applications and examples of this framework currently in use are examined including three in depth case studies work with marine fisheries in Hawai i strategies of eco activists to protect Canada s Great Bear Rainforest and a study of community development in El Salvador In addition eighteen personal practices of transformation are provided for you to increase your own integral ecological awareness Integral Ecology provides the most sophisticated application and extension of Integral Theory available today and as such it serves as a template for any truly integral effort *Canadian Books in Print. Author and Title Index* ,1975 *Creating Consilience* Edward Slingerland,Mark Collard,2012-01-19 Calls for a consilient or vertically integrated approach to the study of human mind and culture have for the most part been received by scholars in the humanities with either indifference or hostility One reason for this is that consilience has often been framed as bringing the study of humanistic issues into line with the study of non human phenomena rather than as something to which humanists and scientists contribute equally The other major reason that consilience has yet to catch on in the humanities is a dearth of compelling examples of the benefits of adopting a consilient approach Creating Consilience is the product of a workshop that brought together internationally renowned scholars from a variety of fields to address both of these issues It includes representative pieces from workshop speakers and participants that examine how adopting such a consilient stance informed by cognitive science and grounded in evolutionary theory would concretely impact specific topics in the humanities examining each topic in a manner that not only cuts across the humanities natural science divide but also across individual humanistic disciplines By taking seriously the fact that science humanities integration is a two way exchange this volume takes a new approach to bridging the cultures of science and the humanities The editors and contributors formulate how to develop a new shared framework of consilience beyond mere interdisciplinarity in a way that both sides can accept
