Hamburg Ehemals Gebtern Und Heute:

The Warburgs Ron Chernow, 2016-11-15 From the Pulitzer Prize winning bestselling author of Alexander Hamilton the inspiration for the hit Broadway musical comes this definitive biography of the Warburgs one of the great German Jewish banking families of the twentieth century Bankers philanthropists scholars socialites artists and politicians the Warburgs stood at the pinnacle of German and later of German American Jewry They forged economic dynasties built mansions and estates assembled libraries endowed charities and advised a German kaiser and two American presidents But their very success made the Warburgs lightning rods for anti-Semitism and their sense of patriotism became increasingly dangerous in a Germany that had declared Jews the enemy Ron Chernow's hugely fascinating history is a group portrait of a clan whose members were renowned for their brilliance culture and personal energy yet tragically vulnerable to the dark and irrational currents of the twentieth century

In the Wake of War Jeffry M. Diefendorf, 1993-06-24 In 1945 Germany's cities lay in ruins destroyed by Allied bombers that left major architectural monuments badly damaged and much of the housing stock reduced to rubble At the war's end observers thought that it would take forty years to rebuild but by the late 1950s West Germany's

cities had risen anew The housing crisis had been overcome and virtually all important monuments reconstructed and the cities had reclaimed their characteristic identities Everywhere there was a mixture of old and new historic churches and town halls stood alongside new housing and department stores ancient street layouts were crossed or encircled by wide arteries old city centers were balanced by garden suburbs laid out according to modern planning principles In this book Diefendorf examines the questions raised by this remarkable feat of urban reconstruction He explains who was primarily responsible what accounted for the speed of rebuilding and how priorities were set and decisions acted upon He argues that in such crucial areas as architectural style urban planning historic preservation and housing policy the Germans drew upon personnel ideas institutions and practical experiences from the Nazi and pre Nazi periods Diefendorf shows how the rebuilding of West Germany's cities after 1945 can only be understood in terms of long term continuities in urban development

Be it the Hanseatic League the Bismarck monument in Hamburg or the Battle of Dybbøl Northern Germany hosts a number of places of remembrance out of whose complex stratifications identity structures emerged in the federal states of Lower Saxony Hamburg Bremen Mecklenburg Western Pomerania and Schleswig Holstein The authors of this volume enquire into these places of memory in Northern Germany looking into the multi layered connections between places actors and recollections and into blank spaces of remembrance They are concerned with how themes and mechanisms of remembrance interlock and thus weave local and regional narratives into a complete picture The mutual shaping and dependencies of space and memory has become a commonplace notion since the spatial turn in cultural

studies this anthology is the first to address this guiding theme and in such breadth for the northern German states
