A general thinking in all "My Ontology, Epistemology, and Axiology theorizing" involves some expression of Justificationism. As in, I require a worthy argument, that is justified with a good warrant(s), quality rich with valid and reliable reason and evidence that is connected to the accuracy of the truth claimed.

**Ontology** "Reality" questions/assertion: Witness gives evidence about the claim.

**Epistemology** "Truth" questions/assertion: Lawyer searches for warrant or justification for the claim.

**Axiology** "Goodness-for" questions/assertion: Judge/Jury assesses and value judges because of qualities in or lacking in the claim.

Da Truth Carlos "Polo" Hinks, 2013-07-30 Tez grew up in a world he knew nothing about Yet he was exposed to the effects that the streets had on the people who chose to live it Losing his mother at a young age changed Tez It took away his heart leaving him heartless He was mad at the world and anger ran through his veins By the time Tez grew up he had inherited the hustle that he once saw his parents have The only difference was that Tez was not quite prepared for the twist and turns that the game was about to take him through Finding his mother's killer wasn't an agenda for Tez but what would he do when the killer falls into his lap The streets of Atlanta were about to find out Hammer was a cold character with plenty finesse Being able to know when to grasp an opportunity takes you a long way Hammer had become an expert in taking advantage of an opportunity Just like he did when he was young which now had him at the top Not to mention Sasha which is the queen of Hammer's castle Hammer never let an opportunity go That may one day cost him more than he is willing to pay

**CUBAN AFFILIATED LCN      Truth to Post-Truth in American Detective Fiction** David Riddle Watson, 2021-10-25 Truth to Post Truth in American Detective Fiction examines questions of truth and relativism turning to detectives both real and imagined from Poe's C Auguste Dupin to Robert Mueller to establish an oblique history of the path from a world where not believing in truth was unthinkable to the present where it is common to believe that objective truth is a remnant of a simpler more naive time Examining detective stories both literary and popular including hard boiled postmodern and twenty first century novels the book establishes that examining detective fiction allows for a unique view of this progression to post truth since the detective's ultimate job is to take the reader from doubt to belief David Riddle Watson shows that objectivity is intersubjectivity arguing that the belief in multiple worlds is ultimately what sustains the illusion of relativism

**Chapters V-VI** Emanuel Swedenborg, 1915      **AN INCONVENIENT TRUTH - The Planetary Emergency** Ian Tinny, Frank Folupa, American Psychopath Association, The planetary emergency is SOCIALISM This book details the factors contributing to the growing crisis describes changes to the world caused by global socialism and discusses the shift in policy that is needed to avert disaster One of the many inconvenient truths is that American socialists share in the guilt Numerous annoying politicians have abetted a long history of American socialists including the notorious Francis Bellamy and Edward Bellamy Both Bellamy cousins wanted government to take over all schools to teach socialism to all children Francis Bellamy was the author of the Pledge of Allegiance to the flag the origin of the infamous stiff armed salute adopted later under German socialism and Adolf Hitler

Long before the Deutschland fad began American schoolchildren were taught to chant in unison and perform the same salute each day in government schools that imposed segregation by law and taught racism as official policy Anyone who rejected the ritual in the schools was persecuted This astonishing book explains the following revelations 1 Hitler never self identified as a Nazi 2 Hitler never self identified as a Fascist 3 The term Nazi never appears in Mein Kampf nor in Triumph of the Will 4 The term Fascist never appears in Mein Kampf as a self description by Hitler 5 The term Socialist appears throughout Mein Kampf as a self description by Hitler Hitler and his followers self identified as socialists by the very word in voluminous speeches and writings 6 Hitler used the swastika to represent S letter shapes for socialist 7 Hitler was influenced by American socialists the USA's Pledge of Allegiance to the flag was the origin of Nazi salutes and Nazi behavior 8 A socialist started fascism Before he coined the term Fascist Mussolini was a long time socialist leader with a socialist background raised by socialists to be a socialist 9 German socialists partnered with Soviet socialists to launch WWII invading Poland together and going onward from there killing millions Much of the amazing historical material comes from the archives of the historian Dr Rex Curry

**Truth in Husserl, Heidegger, and the Frankfurt School** Lambert Zuidervaat, 2017-06-09 An innovative ambitious tradition crossing study drawing on the work of Husserl Heidegger Horkheimer Adorno and Habermas to propose a new and transformative concept of truth The idea of truth is a guiding theme for German continental philosophers from Husserl through Habermas In this book Lambert Zuidervaat examines debates surrounding the idea of truth in twentieth century German continental philosophy He argues that the Heideggerian and critical theory traditions have much in common despite the miscommunication opposition and even outright hostility that have prevailed between them including significant roots in the phenomenology of Edmund Husserl Zuidervaat sees the tensions between Heideggerian thought and critical theory as potentially generative sources for a new approach to the idea of truth He argues further that the critical retrieval of insights from German continental philosophy can shed light on current debates in analytic truth theory Zuidervaat structures his account around three issues the distinction between propositional truth and truth that is more than propositional which he calls existential truth the relationship between propositional truth and the discursive justification of propositional truth claims framed in analytic philosophy by debates between epistemic and nonepistemic conceptions of truth and the relationship between propositional truth and the objectivity of knowledge often presented in analytic philosophy as a conflict between realists and antirealists over the relation between truth bearers and truth makers In an innovative and ambitious argument drawing on the work of Husserl Heidegger Horkheimer Adorno and Habermas Zuidervaat proposes a new and transformative conception of truth

Understanding Hermeneutics Lawrence Kennedy Schmidt,2016-04-15 This series provides short accessible and lively introduction to the major schools movements and traditions in philosophy and the history of ideas since the beginning of the Enlightenment All books in the series are written for undergraduates meeting the subject for the first time Hermeneutics concerns itself with the theory of understanding and the interpretation of language The question of how to correctly interpret and understand others remains one of the most contested branches of philosophy In Understanding Hermeneutics Lawrence Schmidt provides an introduction to modern hermeneutics through a systematic examination of the ideas of its key philosophical proponents Chapter 1 examines the ideas of the Protestant theologian Friedrich Schleiermacher who argues that misunderstanding is always possible so we must always employ interpretation if we are to understnad correctly Chapter 2 discusses the ideas of Dilthey who maintains that understanding in the humanities is fundamentally different from explanation in the natural sciences and who presents a methodology to judge what another person means or feels by means of their language and also their gestures facial expressions and manners of acting Chapter 3 explores the ideas of Heidegger who radicalizes the concept by shifting its focus from interpreting texts to an existential interpretation of human being In Chapter 4 the recent ideas of Gadamer are examined which extend to examining the structures of hermeneutic experience and to question the supremacy of the natural sciences as models for truth The final chapters consider some of the criticisms and controversies surrounding hermeneutics

*Logic, Truth and the Modalities* J.N. Mohanty,2013-04-17 This volume is a collection of my essays on philosophy of logic from a phenomenological perspective They deal with the four kinds of logic I have been concerned with formal logic transcendental logic speculative logic and hermeneutic logic Of these only one the essay on Hegel touches upon speculative logic and two those on Heidegger and Konig are concerned with hermeneutic logic The rest have to do with Husser and Kant

I have not tried to show that the four logics are compatible I believe they are once they are given a phenomenological underpinning The original plan of writing an Introduction in which the issues would have to be formulated developed and brought together was abandoned in favor of writing an Introductory Essay on the origin in the phenomenological sense of logic J N M Philadelphia INTRODUCTION THE ORIGIN OF LOGIC The question of the origin of logic may pertain to historical origin When did it all begin Who founded the science of logic psychological origin When in the course of its mental development does the child learn logical operations cultural origin What cultural theological metaphysical and linguistic conditions make such a discipline as logic possible or transcendental constitutive origin What sorts of acts and or practices make logic possible
