Elster, Colin Renfrew, 2003-07-01 Recipient of the Jo Anne Stolaroff Cotsen Prize Volume 2 presents the concluding research
on Sitagroi a prehistoric settlement mound in northeastern Greece excavated between 1968 and 1970 This volume offers a
detailed report on the plant remains along with a full treatment of craft and technology artifacts of adornment tools of bone
and flaked stone artifacts and tools of bone and ground and polished stone and petrology tools of the spinner weaver and mat
maker pottery technology metallurgy and special clay finds such as seals miniatures and utensils This rich presentation offers
unparalleled insights into the life of the prehistoric inhabitants of the area Sitagroi now becomes one of the most

prehistory **Basic Condition Reporting** Southeastern Registrars Association, Deborah Rose Van Horn, Corinne
Midgett, Heather Culligan, 2022-02-05 Whether you call yourself a Registrar Curator Curator of Collections Collections
Manager or any number of other titles you are most likely doing condition reports A good condition report is an accurate and
informative account of an object's state of preservation at a particular moment in time Condition reports can have multiple
functions such as recording the state of an object prior to an exhibition or loan after exhibition or loan to assist in collections
planning or as a tool for the treatment of an object Most of these functions can be conducted by a registrar curator
collections manager or volunteer A good condition report fills many critical needs including Knowing the exact condition of
an object before or after a loan Helping staff determine the stability of an object for exhibit or loan Limiting how often an
object is handled Informing object handlers of unseen problems Showing the condition of an object over time to determine the
rate of deterioration Setting priorities for conservation Assisting the staff in identifying similar objects Aiding in the valuation
of an object for insurance purposes The fifth edition of Basic Condition Reporting A Handbook proffers a standard vocabulary
for all of the individuals in a museum that may be conducting condition reports In an ideal world everyone who does a
condition report for an item would be trained in the exact same standards use the same terminology and use the exact same
form etc However the reality is that even if every registrar collections manager and curator in your institution does condition
reports each report will be slightly different Then you throw in every intern volunteer or student that may assist and you will
find a variety of methods and terminologies that appear This volume provides a baseline that all of these people can work
from so that any person who opens the condition report can understand what the problems on a particular piece include
Basic Condition Reporting Fifth Edition is a great resource for learning the basics of doing condition reports for museum

objects The book looks at different material types and helps new and seasoned professionals identify condition issues for a variety of materials This new addition has several new chapters including information on digital condition reporting wood objects mixed media objects and taxidermy while expanding the information for existing chapters This book is a great resource for those new to the museum field and a handy reference to collections professionals **The Handbook of**
