Publisher's description *The Praeger Handbook of Community Mental Health Practice* , **Handbook of Community-Based Clinical Practice** Anita Lightburn, Phebe Sessions, 2006 Bridges community practice and clinical practice by collecting 33 chapters from social workers, psychologists and psychiatrists that outline and illustrate the state of the art. Designed specifically for clinicians making the transition to community based work. Provided by publisher *The Handbook of Community Mental Health Nursing* Michael Coffey, Ben Hannigan, 2005-07-25 This handbook brings together authoritative contributions from leading mental health researchers, educators and practitioners to provide a comprehensive text for community mental health nurses in training and practice. In thirty three chapters it covers a wide range of topics from the history of the profession to current approaches to specific client groups organised around three linked themes: professional context, practice issues, education and research. Each chapter includes a summary of key points and suggestions for further reading and also includes useful appendices listing key professional and voluntary organisations, journals, Internet and mailing lists. The handbook reflects the diversity and scope of the role of the CMHN and recognizes the multidisciplinary and service user context in which nurses work. It is an essential text for CMHNs and mental health nurse educators and offers a useful source of reference for allied professionals **Handbook of Community Psychiatry** Hunter L. McQuiston, Wesley E. Sowers, Jules M. Ranz, Jacqueline Maus Feldman, 2012-06-05 During the past decade or more there has been a rapid evolution of mental health services and treatment technologies shifting psychiatric epidemiology, changes in public behavioral health policy and increased understanding in medicine regarding approaches to clinical work that focus on patient centeredness. These contemporary issues need to be articulated in a comprehensive format. The American Association of Community Psychiatrists (AACP), a professional organization internationally recognized as holding the greatest concentration of expertise in the field, has launched a methodical process to create a competency certification in community psychiatry. As a reference for a certification examination that effort will benefit enormously from a comprehensive handbook on the subject *The Praeger Handbook of Community Mental Health Practice: Working in the local community* Doreen Maller, 2013 **The Praeger Handbook of Community Mental Health Practice: Diverse populations and challenges** Doreen Maller, 2013 Best Practices in Community Mental Health Vikki Vandiver, 2013-06 Best Practices in Community Mental Health: A Pocket Guide is a quick reference guide to best practices that are essential for providing comprehensive holistic care.
