Heberle, Naomi B. Sokoloff, 1994 Using various critical approaches and disciplines 20 contributors examine the representation of children in literature from the Renaissance to the present The essays cover problems in imitation of speech and dialect uses of narrative voice creative development of child writers and shifting cultural conceptions of childhood illustrating the way children's voices have often been mediated modified or appropriated by adult writers Book News Inc      *Go: A Kidd's Guide to Graphic Design* Chip Kidd, 2022-06-07 Now in paperback Chip Kidd's introduction to graphic design for kids      **Handbook of the American Short Story** Erik Redling, Oliver Scheiding, 2022-01-19 The American short story has always been characterized by exciting aesthetic innovations and an immense range of topics This handbook offers students and researchers a comprehensive introduction to the multifaceted genre with a special focus on recent developments due to the rise of new media Part I provides systematic overviews of significant contexts ranging from historical political backgrounds short story theories developed by writers print and digital culture to current theoretical approaches and canon formation Part II consists of 35 paired readings of representative short stories by eminent authors charting major steps in the evolution of the American short story from its beginnings as an art form in the early nineteenth century up to the digital age The handbook examines historically methodologically and theoretically the coming together of the enduring narrative practice of compression and concision in American literature It offers fresh and original readings relevant to studying the American short story and shows how the genre performs American culture      **Body Politic** David Shields, 2010-05-11 In *Body Politic* David Shields looks at contemporary America and its mythology through the lens of professional and college sports The result is an unusually insightful and provocative book about an empire in denial Shields relentlessly examines the way we tell our sports stories both fictional and nonfictional considers the kinds of athletes we choose as heroes and delineates the lessons and values we glean from sports He explores the intricate and telling relationships between players and coaches black and white players immigrant and native players male and female players players and broadcasters players and fans and players and advertisers In the process he shows us the stories we Americans tell ourselves about the kind of people we believe ourselves to be

*The Next Scott Nadelson* Scott Nadelson, 2013-02-18 Beginning in the summer of 2004 Scott Nadelson's life fell apart His fiancé left him a month before their planned wedding for another woman who made her living performing as a drag king He moved into a drafty attic His car's brakes went out He learned that his cat was dying Over the next two years he'd struggle with equivocal and sometimes humiliating results to get back on his feet in the process re-examining his past to understand his present circumstances *The Next Scott Nadelson A Life in Progress* is a literary self portrait that revolves around the dissolution of a relationship but encompasses the long process of a young man's halting self discovery Exploring episodes

from the life of its author narrator marked by failure suffering and hope as well as literary and cultural influence the book weighs the things that make us want to give up against the things that keep us going Though many of the pieces are comic and self deprecating some self lacerating they are above all meditations on the nature of the self and the way it can be constructed through memory desire and the imagination Together they form a larger narrative a search for fulfillment and identity in a life often governed by fear With humor and unflinching honesty Scott Nadelson scrutinizes his life to discover who he is and finds just how elusive such a discovery can be To read the resulting book is to join him on a personal journey that is thoughtful surprising occasionally hilarious and unapologetically human      **Aftermath: Stories** Scott Nadelson,2011

THE CHARACTERS IN SCOTT NADELSON S third collection are living in the wake of momentous events the rupture of relationships the loss of loved ones the dissolution of dreams and yet they find new ways of forging on with their lives making accommodations that are sometimes delusional sometimes destructive sometimes even healthy In Oslo a thirteen year old boy on a trip to Israel with his grandparents grapples with his father s abandonment and his own rocky coming of age In The Old Uniform a young man left by his fianc e revisits the haunts of his single days and on a drunken march through nighttime Brooklyn begins to shed the false selves that have kept him from fully living And in the title story a couple testing out the waters of trial separation quickly discover how deeply the fault lines of their marriage run and how desperately they want to hang onto what remains Mining Nadelson s familiar territory of Jewish suburban New Jersey these fearless funny and quietly moving stories explore the treacherous crossroads where disappointments meet unfulfilled desire      **Handbook on Drowning** Joost J.L.M. *Sports in America* Peter Stine, 1995 America's fascination with sports is the topic of this literary anthology Through their fiction poetry and essays nearly forty writers reflect on sports as an illumination of our ordinary lives rather than as a livelihood a world of celebrities or a means of escape As Siv Cedering Maxine Kumin and John Ed Bradley demonstrate often the concerns we bring to sports are profoundly personal Our performance both as participants and spectators is a way of marking our past our moral urgencies our lost childhood our role as parents our pursuit of excellence our fear of failure our very identity and place in the chain of generations Sports inevitably graze and illuminate our culture as well Heather Ross Miller's memories of half court women's basketball become a powerful metaphor for sexual attitudes during the 1950s George Garrett's reflections on college football during World War II provide images that symbolize an era and Neil Isaacs delightful essay on major league batboys chronicles the American Dream

*Remote* David Shields, 2003-10-30 In this truly one of a kind book the author narrator a representative in extremis of contemporary American obsession with beauty celebrity transmitted image finds himself suspended fascinated in the remoteness of our wall to wall mediascape It is a remoteness that both perplexes and enthralls him Through dazzling sleight of hand in which the public becomes private and the private becomes public the entire book clicking from confession to family album photograph to family chronicle to sexual fantasy to pseudo scholarly footnote to reportage to personal essay to stand up comedy to cultural criticism to literary criticism to film criticism to prose poem to litany to outtake becomes both an anatomy of American culture and a searing self portrait David Shields reads his own life reads our life as if it were an

allegory about remoteness and finds persuasive hilarious heartbreaking evidence wherever he goes Winner of the PEN Revson Award     *Poets' Handbook* Kenneth C.
